Such obligations may be issued in more than one series, and from time to time as may be required for carrying out the purposes of the district. CHAPTER TEN—PILOTS

Art. 8267. [6302] [3793] Regulations and rates

(A) The board shall have authority, within the limits provided in this subdivision, to fix rates of pilotage, and to establish regulations respecting the stations whereat and the times wherein pilots shall be on duty, with provisions for leave of absence; as also respecting the class, condition, number and use of pilot boats, and such other minor regulations, compatible with the provisions of this subdivision, as may be needed for the government of pilots and for the order and good effect of the proceedings of the board, of which proceedings a record shall be kept; provided no regulation shall be adopted repugnant to the Constitution.

(B) The commissioners of pilots in no case shall authorize or fix a rate or rates of pilotage applicable to any port in Galveston County differing from the rate in effect at the time of this enactment unless and until the following procedure has been completed:

(1) An application for the establishment of a new rate of pilotage has been filed with each commissioner by one or more pilots or by the owner,

For Annotations and Historical Notes, see V.A.T.S.

agent, or other person defined as "consignee" of a vessel in Article 8276 of this Title, provided such application for increase or decrease of rates shall contain a brief statement of the circumstances which it is alleged warrant the requested action of the commissioners and shall also contain a certificate that the applicant has submitted copies of the application to all known pilots and such associations of "consignees" as defined in Article 8276 of this Title, as are operating in Galveston County at the time of the application.

(2) In the event the notice required is in fact given and no written objection on the part of any legitimately interested party is received by any commissioner within 20 days after said notice is sent, the commissioners shall proceed to act upon the application as they see fit without further proceedings, and file their action thereupon with the county clerk as provided in Subparagraph (9), within 20 days after the initial 20-day notice period.

(3) In the event any commissioner receives in writing an objection to the application from any person, firm, or corporation who appears to have a legitimate interest in the application within 20 days after notice of the filing of the application was given, the commissioners shall hold a hearing within 20 days after expiration of the initial 20-day notice period for the filing of and objection to the application and shall notify the applicants, the persons objecting to the application and such other parties as the commissioners may, in their sole discretion, determine to be interested in the proceedings, and shall file their decision with the county clerk as provided in Subparagraph (9), within 20 days after the close of the hearing.

(4) Said hearing shall be held at a convenient and public place in any one of the ports affected and shall be open to the public. At the hearing all parties, upon demonstrating a legitimate interest in the application, shall have the right to be heard, to present evidence and, to the extent deemed practical by the commissioners, cross-examine the witnesses appearing to testify at the hearing.

(5) After the receipt of the evidence offered by the parties and such arguments and briefs as the commissioners may desire to receive, the application shall be granted, denied, or modified by the commissioners.

(6) In determining their action upon any application the commissioners shall consider:

(a) The effect which the granting, refusal, or modification of the application would have upon the port or ports within the jurisdiction of the commissioners and the citizens residing in it;

(b) The assurance of an adequate and reasonable compensation to the pilots and a fair return upon the equipment and vessels which they employ in connection with their duties;

(c) The relationship between the pilotage rates in the ports under the commissioners' jurisdiction and the rates applying in other ports of this state and competitive ports in other states.

(7) The action of the commissioners in granting, denying, or modifying the application shall be final provided it is supported by substantial evidence.

(8) The commissioners shall have the authority to assess the actual cost of reporting and secretarial services necessarily incurred in connection with any hearing against one or more of the applicants and/or objecting parties as shall appear to the commissioners to be fair and just. The commissioners may further require that any applicant or objecting party deposit a sum against said cost as a condition of presenting its application or objection. The costs authorized by this paragraph shall be strictly limited to the actual and reasonable cost of reporting and stenographic services.

(9) A copy of the commissioners' order with respect to the application shall be filed in the office of the county clerk and said order shall

state when it is effective. No pilotage charges in excess of those in existence at the time of the passage of this Act shall be made with respect to the ports of Galveston County except pursuant to such an order so filed by the commissioners. Pilotage rates for the ports of Galveston County properly fixed pursuant to this Article shall not be subject to the maximum limits contained in Article 8274.

(C) The commissioners of pilots in no case shall authorize or fix a rate or rates of pilotage applicable to the public ports of Beaumont, Orange or Port Arthur, Texas, or of the privately owned docks or terminals in Orange or Jefferson Counties, Texas, differing from the rate in effect at the time of this enactment unless and until the following procedure has been completed:

(1) An application for the establishment of a new rate of pilotage in one of the counties has been filed with each commissioner by pilot associations or by the owner, agent, or other person defined as "consignee" of a vessel in Article 8276 of this Title, provided such 'consignee' maintains an office in the county in which the application is filed, or by the Port of Port Arthur Navigation District or the Orange County Navigation and Port District or the Port of Beaumont Navigation District, which application for increase or decrease of rates shall contain a brief statement of the circumstances which it is alleged warrant the requested action of the commissioners and shall also contain a certificate that the applicant has submitted copies of the application to all known pilot associations and navigational districts and associations of "consignees" as defined in Article 8276 of this Title, as are operating in the counties at the time of the application.

(2) In the event the notice required is in fact given and no written objection on the part of any legitimately interested party is received by any commissioner within 20 days after said notice is sent, the commissioners shall proceed to act upon the application as they see fit without further proceedings, and file their action thereupon with the appropriate county clerks as provided in Subparagraph (8), within 20 days after the initial 20-day notice period.

(3) In the event any commissioner receives in writing an objection to the application from any person, firm, or corporation who appears to have a legitimate interest in the application within 20 days after notice of the filing of the application was given, the commissioners shall hold a hearing within 20 days after expiration of the initial 20-day notice period for the filing of and objection to the application and shall notify the applicants, the persons objecting to the application and such other parties as the commissioners may, in their sole discretion, determine to be interested in the proceedings, and shall file their decision with the appropriate county clerks as provided in Subparagraph (8), within 20 days after the close of the hearing.

(4) Said hearing shall be held at a convenient and public place in any one of the ports affected and shall be open to the public. At the hearing all parties, upon demonstrating a legitimate interest in the application, shall have the right to be heard, to present evidence and, to the extent deemed practical by the commissioners, cross-examine the witnesses appearing to testify at the hearing.

(5) After the receipt of the evidence offered by the parties and such arguments and briefs as the commissioners may desire to receive, the application shall be granted, denied, or modified by the commissioners. However, it is expressly provided that no increase of rates to either the public ports of Beaumont, Port Arthur or Orange, Texas, shall ever be set, established or granted unless the Board of Commissioners of the Port of Beaumont Navigation District, Port of Port Arthur Navigation District or Orange County Navigation and Port District so affected shall approve same.

For Annotations and Historical Notes, see V.A.T.S.

(6) In determining their action upon any application the commissioners shall consider:

(a) The effect which the granting, refusal, or modification of the application would have upon the port or ports within the jurisdiction of the commissioners and the citizens residing in it;

(b) The assurance of an adequate and reasonable compensation to the pilots and a fair return upon the equipment and vessels which they employ in connection with their duties;

(c) The relationship between the pilotage rates in the ports under the commissioners' jurisdiction and the rates applying in other ports of this state and competitive ports in other states.

(7) The commissioners shall have the authority to assess the actual cost of reporting and secretarial services necessarily incurred in connection with any hearing against one or more of the applicants and/or objecting parties as shall appear to the commissioners to be fair and just. The commissioners may further require that any applicant or objecting party deposit a sum against said cost as a condition of presenting its application or objection. The costs authorized by this paragraph shall be strictly limited to the actual and reasonable cost of reporting and stenographic services.

(8) A copy of the commissioners' order with respect to the application shall be filed in the offices of the appropriate county clerks and said order shall state when it becomes effective. No pilotage charges in excess of those in existence at the time of the passage of this Act shall be made with respect to the public ports of Orange, Beaumont, Port Arthur or any privately owned docks or terminals in Orange or Jefferson Counties, Texas, except pursuant to such an order so filed by the commissioners. Pilotage rates for the public ports of Orange, Beaumont, Port Arthur or any privately owned docks or terminals in Orange or Jefferson Counties, Texas, fixed pursuant to this Article shall not be subject to the maximum limits contained in Article 8274.

Amended by Acts 1969, 61st Leg., p. 2322, ch. 785, § 1, emerg. eff. June 14, 1969.

Art. 8270. [6305] [3796] Appointment

The Governor shall appoint at each of the ports and for all of the ports in Galveston County, such number of branch pilots as may from time to time be necessary, each of whom shall hold his office for the term of four (4) years.

his services before she came in; but if she has come in without the aid of a pilot, or the offer of one outside, she shall not, in case of going out without a pilot, be liable to half pilotage. At any port where vessels shall receive or discharge their cargoes at an anchorage outside of the bar, such vessel shall be liable to pilotage at the above rate to such anchorage, but shall not be liable for or compelled to pay pilotage from such anchorage to the open sea; and if any vessel bound from open sea to such anchorage, while under way, shall decline the services of a pilot, and shall afterward receive or discharge any portion of her cargo at such anchorage on the lighters or otherwise, she shall be liable for the payment of half pilotage, at the above rate, to such anchorage to the first pilot whose services shall have been tendered to and declined by her, but not liable for any pilotage from such anchorage to the open sea; and when a pilot takes charge of a vessel 20 miles outside of the bar, and brings her to it, he shall be entitled to one-fourth pilotage for such offshore service, in addition to what he is entitled to recover for bringing her in; but if such offshore service be declined, no portion of said compensation shall be recovered.

For Annotations and Historical Notes, see V.A.T.S.

(c) All such bonds shall be on a parity and shall be called the "Texas Water Development Bonds." The proceeds from the sale of any bond, or bonds shall be used for the purpose of creating the Texas Water Development Fund provided for by the Constitution. At the option of the Board, said bonds may be issued in one (1) or several installments. The bonds of each issue shall be dated, and shall bear interest which may, at the option of the Board, be payable annually or semi-annually; shall mature serially or otherwise, not later than fifty (50) years from their date; and may be redeemable before maturity, at the option of the Board, at such price or prices, and under such terms and conditions as may be fixed by the Board in the resolution providing for the issuance of the bonds. The resolution authorizing the issuance of any installment or series of bonds may prescribe the extent to which facsimile signatures and facsimile seals in lieu of manual signatures and manually impressed seals may be used in executing such bonds and appurtenant coupons. Interest coupons may be signed by the facsimile signatures of the chairman of the Board and the Development Fund manager. In the event any officer whose manual or facsimile signature appears on any bond, or whose facsimile signature shall appear on any coupon, shall cease to be such officer before the delivery of the bonds, the signatures shall, nevertheless, be valid and sufficient for all purposes the same as if he had remained in office until such delivery had been made. The resolution may provide for registration of the bonds as to ownership and for successive conversion and reconversion from registered to bearer bonds and vice versa. Clearance Fund; payments into; transfers to other special funds

Sec. 10-B. With the exception of proceeds from the sale of Texas Water Development Bonds and proceeds from the sale of bonds of political subdivisions sold in accordance with the provisions of Section 15 hereof, all moneys received by the Board in any fiscal year, including all amounts received as repayment of financial assistance granted under this Act and interest on such loans, shall be paid into the Clearance Fund. Moneys so paid into the Clearance Fund may be transferred at any time to the Texas Water Development Bonds Interest and Sinking Fund until the reserve to be established therein is equal to the average annual principal and interest requirements on all outstanding bonds issued under this Act. Not later than fifteen (15) days following the end of each fiscal year, any funds standing to the credit of the Clearance Fund as of the last day of the preceding fiscal year shall be transferred to the special funds created by this Act in the following manner:

(a) There shall be determined the amount of interest becoming due on all Water Development Bonds then outstanding, together with the amount of principal of such bonds maturing and becoming payable during such fiscal year, and there shall also be determined the average annual principal and interest requirements on all outstanding bonds issued under this Act. There shall be transferred to the Interest and Sinking Fund, after taking into account any moneys and Securities (as the term is hereafter defined in Section 10-D) on deposit therein, such amount as may be necessary to pay all such principal and interest maturing on such bonds during the fiscal year, together with all collection charges and exchanges thereon plus an amount sufficient to establish and maintain an additional reserve equal to the average annual principal and interest requirements on all outstanding bonds issued under this Act. In the event the amount transferred from the Clearance Fund plus the moneys and securities on hand in the Interest and Sinking Fund are insufficient to pay the interest becoming due and the principal maturing on the Water Development Bonds during the fiscal year, then after the transfer to the Interest and Sinking Fund of so much as is available in the Clearance Fund, the State Treasurer shall transfer out of the first moneys coming into the Treasury of the State of Texas, not otherwise appropriated by the Constitution, such amount as shall be required to pay principal and interest on such Water Development Bonds during such fiscal year.

(b) If, after making the transfers provided in paragraph (a) of this Section, there remain other moneys in the Clearance Fund, then to the extent possible there shall be transferred from such fund to the Administrative Fund an amount sufficient to cover the appropriation for administrative appropriations of said Board, as authorized by the Legislature, for the fiscal year.

(c) If, after making the transfers provided for in paragraphs (a) and (b) of this Section, there remain other moneys in the Clearance Fund, the balance of such fund shall be transferred at the end of each fiscal year to the Development Fund, and such moneys so transferred may be used for all of the purposes for which the proceeds of the Water Development Bonds were authorized to be used.

Sec. 10-B amended by Acts 1961, 57th Leg., p. 75, ch. 44, § 1, eff. Aug. 28, 1961; Acts 1969, 61st Leg., p. 1016, ch. 327, § 1, eff. Sept. 1, 1969.

others, in the conservation and development of the water resources of the State of Texas by the construction, acquisition or improvement of projects, as defined in Section 2 hereof.

No application for financial assistance shall be granted until the political subdivision shall have furnished to the Board a resolution adopted by the Texas Water Rights Commission certifying:

(a) That an applicant proposing surface water development is possessed of the necessary water right authorizing it to impound, or otherwise appropriate and use, the waters to be made available by the project, or

(b) That an applicant proposing underground water development, has obtained the right to use the waters to be made available by the project.
Sec. 11 amended by Acts 1969, 61st Leg., p. 688, ch. 234, § 1, eff. Sept. 1, 1969.

Use of Water Development Fund; purposes; acquisition of storage facilities; permits; contracts; sale, transfer or lease of facilities; prices; conditions precedent to sales, transfers or leases; use of proceeds; storage of unappropriated waters; emergency releases; sale of water; preferential rights of political subdivisions; Combined Facilities Operation and Maintenance Fund; rules and regulations

Sec. 12. (a) The Texas Water Development Board is hereby authorized to use funds of the Texas Water Development Fund for any "project" and in any manner consistent with the provisions of Article III, Sections 49-c and 49-d of the Constitution of the State of Texas, and in the event that Article III of the Constitution of the State of Texas is hereafter amended to permit the issuance of \$3,500,000,000.00 additional Texas Water Development Bonds, the Texas Water Development Board is hereby authorized to use the Texas Water Development Fund in any manner consistent with the provisions of said amendment; but the Board may not use any monies now or hereafter deposited in the Water Development Fund for retail distribution or for the transportation of water solely to retail purchasers. The Board shall obtain permits for storage of water and/or permits for transportation of water and/or permits to apply water to beneficial use with regard to water in reservoirs and associated works constructed by the Board under this Act.

(b) The Texas Water Development Board may use the Texas Water Development Fund to design, acquire, lease, construct, reconstruct, develop, and/or enlarge, in whole or in part, any existing or proposed project either singly or as a joint venture in partnership with any person or entity, including any agency or political subdivision of the State of Texas, or with another state or the political subdivisions of such state, or with the United States, or with a foreign nation, to the extent permitted by law. State funds shall not be expended for the purposes herein authorized when, and to the extent that, any political subdivision of the state is willing and able reasonably to finance, or assume the obligation of repaying, the costs of providing or acquiring such facilities, provided such political subdivision has qualified by obtaining any permit required under the laws of Texas to provide or acquire such facilities, and provided the proposals of the political subdivision are consistent with the objectives of the State Water Plan.

(c) The Texas Water Development Board, before acquiring storage facilities in any reservoir in any manner shall affirmatively find:

(1) That it is reasonable to expect the state to recover its investment in such facilities;

(2) That the cost of such storage facilities to be acquired exceeds current financing capabilities of the area involved and that such facilities cannot be reasonably financed otherwise by local interests without state participation; and

(3) That the public interest will be served thereby;

(4) That such facilities, to be constructed or reconstructed, contemplate the optimum development of the site which is reasonably reserved under all existing circumstances.

The Texas Water Development Board shall obtain permits for storage of water with regard to storage facilities acquired in any reservoir, and the issuance of such permit or permits by the Texas Water Rights Commission or its successor shall be the approval required by Article III, Section 49-d of the Constitution of Texas.

(d) The Texas Water Development Board may also execute contracts to the full extent that such contracts are now or hereafter constitutionally authorized and not limited, for the design, management, acquisition, lease, construction, reconstruction, development, enlargement, operation and/or maintenance of any existing or proposed project. Such contracts shall include but not be limited to:

(1) contracts secured by the general credit of the State of Texas, and if so secured such contracts shall constitute general obligations of the State of Texas in the same manner and with the same effect as Texas Water Development Bonds; and provisions in said Section 49-c with respect to payment of principal and interest on state bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts;

(2) federal grants or grants from other sources;

(3) contracts which may be fully or partially secured by water purchase or repayment contracts executed by political subdivisions of the State of Texas for purchase of water and facilities necessary to supply present and future regional and local water requirements;

(4) contracts with any person, including but not limited to the United States, local public agencies, power cooperatives, and investor owned utilities, for financing, constructing, and operating facilities to operate and deliver pumping energy required for projects; and

(5) contracts for all goods and services necessary for the design, management, acquisition, lease, construction, reconstruction, development, enlargement, implementation, operation and/or maintenance of any existing or proposed project, or for any portion thereof.

If facilities are acquired for a term of years, such contracts may contain provisions for renewal that will protect the State's investment.

(e) The Texas Water Development Board, after having used funds from the Texas Water Development Fund for the acquisition, construction, reconstruction, development or enlargement of a project, is authorized to sell, transfer or lease the project, to the extent of its ownership, provided that the applicant to buy or lease such facilities shall have first secured a valid permit for water use from the Texas Water Rights Commission or its successor, which permit may be for a term of years if the facilities are leased. If the application for a permit to use water involves a proposed use of water either within or outside of the watershed of the impoundment, the Texas Water Rights Commission or its successor shall give paramount consideration to recouping the state's investment in granting any permit in order to protect the public interest and promote the general welfare. Before the permit for water use shall be issued by the Texas Water Rights Commission or its successor, the applicant shall have completed contractual negotiations with the Water Development Board for the acquisition of such facilities and all terms, conditions and provisions of such contract shall have been agreed upon by the parties thereto. Reservoir lands which may have been acquired may be leased by the Board prior to completion of construction of any dam without the necessity of a permit being issued by the Texas Water Rights Commission or its successor.

For Annotations and Historical Notes, see V.A.T.S.

(f) It is further provided that the above sale, transfer or lease shall be at a price not less than the direct cost of the Board in acquiring same. "Direct cost" of such facilities shall mean the principal amount the Board pays or agrees to pay for such facilities. "Direct cost of the Board in acquiring same" shall mean the amount theretofore paid by the Board on the "direct cost" of such facilities. In selling or transferring the state's interest in such facilities acquired by the Board, from the proceeds of Texas Water Development Bonds, the price shall be the sum of the "direct cost of the Board in acquiring same," as such term is defined above, plus an interest charge computed at a rate on one-half of one percent ($\frac{1}{2}$ of 1%) per annum from the date of acquisition by the Board, plus interest annually at the cumulative average effective rate on all Texas Water Development Bonds sold up to the date of the sale of the facilities, plus the Board's cost of operating and maintaining the facilities being sold or transferred from the date of acquisition to the date of transfer, less any payments received by the Board from the lease of such facilities or the sale of water therefrom.

(g) In selling or transferring the state's interest in such facilities acquired under contracts, as authorized in Subsection (d) above, the price shall be the sum of the "direct cost of the Board in acquiring same," as the term is defined above, plus an interest charge thereon of one-half of one percent ($\frac{1}{2}$ of 1%) per annum from the date of acquisition of such facilities by the Board, plus interest at the cumulative average effective rate on all Texas Water Development Bonds sold up to the date of the sale of such facilities for each of those years or portions of years in which the Board paid interest to the other party(ies) to the contract, plus the Board's cost of operating and maintaining the facilities being sold or transferred from the date of acquisition to the date of transfer, less any payments received by the Board from the lease of such facilities or the sale of water therefrom. If the Board in transferring any contract remains in any way directly, conditionally or contingently liable or responsible for the performance of any part of the contract assigned or transferred, then the assignee or purchaser shall, in addition to the payments above set forth, pay to the Board annually one-half of one percent ($\frac{1}{2}$ of 1%) of the remaining amount owing to the other party(ies) to the contract and such payment shall continue until the Board is fully and completely released from such contract.

(h) In leasing such facilities for a term of years, each annual payment which shall be made by the lessee shall be not less than the annual principal and interest requirements applicable to the indebtedness incurred by the state allocated to acquisition of the facilities being leased, plus the state's annual cost for the project's operation, maintenance and rehabilitation, if the project has been rehabilitated.

(i) As a condition precedent to selling, transferring or leasing, in whole or in part, any such facilities or the right to use such facilities, the Texas Water Development Board shall affirmatively find:

(1) That the applicant therefore has a valid permit for water use from the Texas Water Rights Commission or its successor;

(2) That such sale, transfer or lease will contribute to the conservation and development of the water resources of Texas; and

(3) That the consideration for same is fair, just and reasonable and in full compliance with all requirements of law.

(j) The money received from any sale, transfer or lease of any such facilities shall be used to pay principal and interest on state bonds issued or to meet contractual obligations incurred by the Texas Water Development Board. Such moneys shall be collected, deposited in, and transferred to the appropriate statutory fund of the Board in the same manner as other moneys received in payment of principal and interest on loans to political subdivisions made by the Board for water supply projects, taking into consideration the manner in which such facilities

involved were acquired; that is, either by use of bonds proceeds or by contract, as the case may be. When the moneys are sufficient to pay the full amount of indebtedness then outstanding (which shall include state bonds issued and the principal on contractual obligations incurred) and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such facilities may be used by the Board for the acquisition of additional such facilities or for providing financial assistance to political subdivisions for water supply projects.

(k) The Texas Water Development Board is hereby authorized and empowered to store unappropriated public waters of the state and other waters acquired by the state in such facilities. The Board is further authorized and empowered to sell any of such waters at a price to be fixed and determined by the Board. As a prerequisite to the purchase of such water, the applicant therefore shall have secured a valid permit from the Texas Water Rights Commission authorizing the appropriation and use of the water and its use shall be governed by the terms and conditions of such permit. The permit may be for a term of years. If the application for a permit involves a proposed use of water either within or outside the watershed of the impoundment, the Texas Water Rights Commission or its successor shall give paramount consideration to recouping the state's investment in granting any permit in order to protect the public interest and promote the general welfare. Before the permit shall be issued by the Texas Water Rights Commission or its successor, the applicant shall have completed contractual negotiations with the Water Development Board for the sale of water and all terms, conditions and provisions of such contract shall have been agreed upon by the parties thereto. The permit shall be conditioned upon continued payment of the obligations assumed under the contract with the Board and may provide for cancellation at any time upon contract default. The Texas Water Development Board is authorized to determine the consideration, terms, provisions and conditions to be included in contracts for the sale of water or its use, but such considerations, terms, provisions and conditions shall be fair, reasonable and without discrimination. Included in the services for which the Board may make charges is that of standby service, which is hereby defined to mean holding water and conservation storage space available for use, as well as for the actual delivery of water.

The Board shall not compete with political subdivisions of the state and municipalities in the sale of water when such competition will jeopardize the ability of a political subdivision or municipality to meet obligations incurred to finance its own water supply projects. The Board will make the same determinations with respect to the sale of water as are required to be made in Subsection (i) above relating to selling, transferring or leasing facilities.

Money received from the sale of water and standby service needed for operation and maintenance of such facilities shall be deposited in the Combined Facilities Operation and Maintenance Fund, which Fund is hereby created as a special fund in the State Treasury, and such Fund may be used by the Board for the operation and maintenance of such facilities, and the Legislature may also appropriate available state funds for such purpose. Money received from the sale of water not needed for operation and maintenance of such facilities may be used for the payment of principal and interest on state bonds issued or contractual obligations incurred by the Board in acquiring such facilities.

Unappropriated public waters and other waters of the state stored in any such facilities acquired by the Board and under the Board's control may be released without charge to relieve any emergency condition that may arise due to drought, severe water shortage or public calamity, provided that the Texas Water Rights Commission or its successor shall

For Annotations and Historical Notes, see V.A.T.S.

have first determined the existence of such emergency and requested the Board to make releases of water.

(l) Political subdivisions shall be accorded a preferential right, but not an exclusive right, to purchase, acquire or lease facilities, or to purchase water in storage, from the Board. Priority in the sale, transfer or lease of facilities, or in the sale of water, shall also be accorded in the manner established by Article 7471 and Article 7472(c), Revised Civil Statutes of Texas, 1925, as amended, or as may be hereafter amended, relating to priorities and preferences in the appropriation and use of public waters. The Texas Water Development Board and the Texas Water Rights Commission or their successors shall coordinate their efforts to meet these objectives and to assure that the public waters of the state, which waters are held in trust for the use and benefit of the public, will be conserved, developed and utilized in the greatest practicable measure for the public welfare.

(m) The Texas Water Development Board is authorized to enter into contracts for the operation and maintenance of the state's interest in any project and the Board may agree to pay reasonable operation and maintenance charges allocable to such state interest.

(n) The Board may enter into contracts with political subdivisions of the state, with agencies of the state, with the United States and its agencies, and with others to the extent authorized, for the development and operation of recreational facilities at any project in which the state has acquired an interest. Income received by the Board from contracts for the development and operation of recreational facilities may be used by the Board for the same purposes as income from the sale of water may be used. The Legislature may make appropriations of available state funds for developing and operating recreational facilities at projects in which the state has acquired an interest.

(o) Tracts of land which have been acquired by the Board for project purposes may be leased by the Board for a term of years for any purposes not inconsistent with ultimate project construction. Such lease shall be scheduled to expire prior to initiation of project construction, and may provide for contribution by the lessee to units of local government of amounts equivalent to ad valorem taxes or special assessments. Money received by the Board from the lease of lands shall be used and applied in the same manner as prescribed for money received from the sale of water and standby service.

(p) The Attorney General of Texas shall approve as to legality:

(1) The resolution of the Board authorizing state ownership in a project; and

(2) All contracts executed pursuant to this Section and to which the Board is a party.

(q) The Texas Water Development Board and the Texas Water Rights Commission or its successor are hereby authorized to create and promulgate reasonable and necessary rules and regulations, separately or jointly, to implement and effectuate the provisions of this Act. Such rules and regulations and amendments thereto shall not be inconsistent with the provisions hereof and shall be approved by the Attorney General of Texas and filed with the Secretary of State.

Hearing and determination on application; form of application; approval

Sec. 14. In passing upon such applications, the Board shall consider the needs and benefits to the area to be served by the project in

relation to the needs and benefits appertaining to other projects requiring state assistance in any manner as well as the availability of revenues from all sources of the political subdivision for the ultimate repayment of the costs of such project, including interest, and whether the project can be reasonably financed without assistance of the state. The Board shall specifically consider the relationship of the project contained in such application with the overall, state-wide water needs of Texas and the relationship of the project contained in such application with the State Water Plan for water resource development. If after consideration of the foregoing, and the consideration of any other relevant factors, the Board finds that the public interest requires state participation in the project; that the project cannot be reasonably financed without state assistance in the amount finally approved by the Board; and if the Board makes the further finding that in its opinion the revenues or taxes or both pledged by the political subdivision will be sufficient to meet all of the obligations assumed by the political subdivision within not more than fifty (50) years, the Board may approve the application within the limits of this Act.

Application for financial assistance shall be in such form as prescribed herein and by regulations of the Board and shall not be accepted by the Board unless submitted in affidavit form by the officials of the political subdivisions as prescribed by the regulations of the Board. Nothing in such regulations shall restrict or prohibit the Board from requiring additional factual material of any applicant.

**Purchase of bonds of political subdivision by board;
bond requirements; sale**

Sec. 15. After the Board has examined an application of a political subdivision for financial assistance from the Fund and determined by resolution that same should be approved, the Board may give financial assistance to the political subdivision by the purchase with moneys out of the Texas Water Development Fund of bonds or other securities issued by the political subdivision for the purpose of providing funds to finance a project. The Board is hereby empowered to purchase such political subdivision bonds or other securities even though such bonds or other securities be secondary, or subordinate to other bonds or other securities issued by the political subdivision to finance the same project for which assistance from the Fund is sought; the Board may use proceeds of the Texas Water Development Fund to purchase outstanding prior lien bonds previously issued by the political subdivision whenever such purchase of outstanding prior lien bonds will avoid or reduce the necessity for issuing junior lien bonds for subsequent sale to the Board, provided, however, that the security for both prior lien and junior lien bonds shall be pledged from substantially the same sources of revenue. The Board shall never purchase bonds or other securities which have a maturity date in excess of fifty (50) years from date of issuance. The Board shall never purchase bonds or other securities of a political subdivision in excess of Thirty Million Dollars for any one project. Such bonds and other securities purchased from moneys in the Fund by the Board shall bear the weighted average effective interest rate on all state bonds theretofore sold under the provisions of this Act plus one-half ($\frac{1}{2}$) of one percent (1%). The bonds shall bear coupons evidencing interest at such a rate or combination of rates as shall approximate the effective rate as nearly as the Board shall deem practicable, and the effective rate shall be arrived at by the payment of premiums or the deduction of discounts as necessary. Before purchasing any bonds or other securities of a political subdivision, the Board shall be assured that such bonds or other securities

For Annotations and Historical Notes, see V.A.T.S.

have been approved by the Attorney General and registered by the Comptroller of Public Accounts and after such approval and registration and sale at not less than par and accrued interest, said bonds shall be valid, binding and incontestable. The Board is fully empowered and authorized to sell or dispose of political subdivision bonds purchased with moneys out of the Fund, provided that such bonds are sold at not less than par and accrued interest. The proceeds from such sale shall be deposited to the credit of the Fund and used in the same manner as other funds deposited therein, except accrued interest shall be deposited in the Interest and Sinking Fund. Should the Board determine to sell such political subdivision bonds, competitive bids therefor shall be received and notice of such sale shall be given and the sale conducted in the same manner as in the case of a sale of the state bonds authorized by this Act; provided, however, that the Board shall first have offered said bonds at their par value plus accrued interest to the issuing political subdivision at least thirty (30) days prior to the date of requesting competitive bids; and provided such political subdivision shall have failed within such thirty (30) day period to give notice to said Board of its desire to acquire such bonds at par and accrued interest.

In such sale of state bonds at a discount, the net effective interest rate shall not exceed the maximum net effective interest rate at which such subdivision can legally sell its own bonds.

(b) Before state bonds are sold by a subdivision, it shall advertise the sale in the manner provided in Section 7, Chapter 425, Acts of the 55th Legislature, Regular Session, 1957, as amended (Article 8280—9, Vernon’s Texas Civil Statutes). Sec. 3. The development fund manager or executive director of the board may designate times and places at which the state bonds and water improvement bonds may be delivered and paid for.

Sec. 4. To obtain money to purchase and hold state bonds pending resale, any subdivision may borrow money temporarily by issuing a note payable from the proceeds of the sale of its own water improvement bonds.

Sec. 5. No statute or city charter provision requiring competitive bidding is applicable to water improvement bonds sold under this Act.

Sec. 5A. This Act expires at midnight December 31, 1971.

Art. 8280—13. Flood insurance; participation in federal program by political subdivisions

Short title

Section 1. This Act may be cited as the "Flood Control and Insurance Act."

Purpose

Sec. 2. The State of Texas recognizes the personal hardships and economic distress caused by flood disasters since it has become uneconomic for the private insurance industry alone to make flood insurance available to those in need of such protection on reasonable terms and conditions. Recognizing the burden of the nation's resources, Congress enacted the National Flood Insurance Act of 1968, Title 42, United States Code, Section 4001-4127, whereby flood insurance can be made available through coordinated efforts of the Federal Government and the private insurance industry, by pooling risks, and the positive cooperation of state and local government. The purpose of this Act is to evidence a positive interest in securing flood insurance coverage under this Federal program, and to so procure for those citizens of Texas desiring to participate; and the promoting of public interest by providing appropriate protection against the perils of flood losses and encouraging sound land use by minimizing exposure of property to flood losses.

Definitions

Sec. 3. For the purpose of this Act the term:

(a) "Board" means the Texas Water Development Board.

(b) "Political Subdivision" means any political subdivision or body politic and corporate of the State of Texas, and includes any county, river authority, conservation and reclamation district, water control and improvement district, water improvement district, water control and preservation district, fresh water supply district, irrigation district, and any type of district heretofore or hereafter created or organized or authorized to be created or organized pursuant to the provisions of Article XVI, Section 59 or Article III, Section 52 of the Constitution of the State of Texas; "political subdivision" also means any interstate compact commission to which the State of Texas is a party, municipal corporation or city whether operating under the Home Rule Amendment of the Constitution or under the General Law.

(c) "National Flood Insurance Act" means the United States Congressional Enactment, Title 42, United States Code, Sections 4001-4127, and the implementation and administration of the Act by the Secretary of the United States Department of Housing and Urban Development.

(d) "Secretary" means the Secretary of the United States Department of Housing and Urban Development.

Cooperation of Texas Water Development Board

Sec. 4. In recognition of the necessity for a coordinated effort at all levels of government, the Texas Water Development Board shall cooperate with the Federal Insurance Administrator of the United States Department of Housing and Urban Development in the planning and carrying out of state participation in the National Flood Insurance Program; provided, however, that the responsibility for qualifying for the National Flood Insurance Program shall belong to any interested political subdivision, whether presently in existence or created in the future.

Political subdivisions; compliance with federal requirements

Sec. 5. All political subdivisions are hereby authorized to take all necessary and reasonable actions to comply with the requirements and criteria of the National Flood Insurance Program including but not limited to:

(1) Making appropriate land use adjustments to constrict the development of land which is exposed to flood damage and minimize damage caused by flood losses;

(2) Guiding the development of proposed future construction, where practicable, away from location which is threatened by flood hazards;

(3) Assisting in minimizing damage caused by floods;

(4) Authorizing and engaging in continuing studies of flood hazards in order to facilitate a constant reappraisal of the flood insurance program and its effect on land use requirements;

(5) Engaging in flood plan management and adopting enforcing permanent land use and control measures consistent with the criteria established under the National Flood Insurance Act;

(6) Declaring property, when such is the case, to be in violation of local laws, regulations or ordinances which are intended to discourage or otherwise restrict land development or occupancy in flood-prone areas, and notifying the Secretary, or whomever he designates, of such property;

For Annotations and Historical Notes, see V.A.T.S.

(7) Consulting with, giving information to and entering into agreements with the Department of Housing and Urban Development for the purpose of

(a) Identifying and publishing information with respect to all flood areas, including coastal areas, and

(b) Establishing flood-risk zones in all such areas, and make estimates with respect to the rates of probable flood-caused loss for the various flood-risk zones for each of these areas;

(8) Cooperating with the Secretary's studies and investigations with respect to the adequacy of local measures in flood-prone areas as to land management and use, flood control, flood zoning, and flood damage prevention;

(9) Taking steps to improve the long-range management and use of flood-prone areas;

(10) Purchasing, leasing and receiving property from the Secretary, when such property is owned by the Federal Government and lies within the boundaries of the political subdivision, pursuant to agreements with the Department of Housing and Urban Development or other appropriate legal representative of the United States Government;

(11) Requesting aid pursuant to the entire authorization above from the Texas Water Development Board;

(12) Satisfying criteria adopted and promulgated by the Department pursuant to the National Flood Insurance Program; and

(13) Adopting permanent land use and control measures with enforcement provisions which are consistent with the criteria for land management and use adopted by the Secretary.

(b) Pursuant to the National Flood Insurance Program and state and local efforts complimenting such Program, the Board shall aid, advise and co-operate with political subdivisions, the State Board of Insurance, and the United States Department of Housing and Urban Development when such aid, advice and cooperation are requested or deemed advisable by the Board.

(c) The aforementioned aid may include but is not necessarily limited to:

(1) Coordinating local, state and federal programs relating to floods, flood losses, and flood plain management;

(2) Evaluating the present structure of all federal, state, and political subdivision flood control programs, within or adjacent to the state, including an assessment of the extent to which public and private flood plain management activities have been instituted;

(3) Carrying out studies with respect to the adequacy of present public and private measures, laws, regulations, and ordinances in flood-prone areas as to land management and use, flood control, flood zoning, and flood damage prevention;

(4) Evaluating all available engineering, hydrologic and geologic data relevant to flood-prone areas and flood control in those areas; and

(5) Carrying out flood plain studies and mapping programs of flood plains, flood-prone areas and flood-risk zones.

(d) On the basis of such studies and evaluations, the Board, to the extent of its capabilities, shall periodically identify and publish information and maps with respect to all flood plain areas including the states' coastal area, which have flood hazards, and where possible, aid the Fed-

eral Government in identifying and establishing flood-risk zones in all such areas.

Cooperation of State Board of Insurance

Sec. 7. Pursuant to the National Flood Insurance Program, the State Board of Insurance shall aid, advise and cooperate with political subdivisions, the Texas Water Development Board and the United States Department of Housing and Urban Development when such aid, advice and cooperation are requested or deemed advisable by the State Board of Insurance.

Rules and regulations

Sec. 8. Political subdivisions which qualify for the National Flood Insurance Program, the State Board of Insurance, and the Texas Water Development Board may adopt and promulgate reasonable rules and regulations which are necessary for the orderly effectuation of the respective authorizations herein.

Time limitation

Sec. 9. Political subdivisions wishing to qualify under the National Flood Insurance Program shall have the authority and endeavor to do so by June 30, 1970 by complying with the directions of the Department of Housing and Urban Development and by

(a) Evidencing to the Secretary a positive interest in securing flood insurance coverage under the Flood Insurance Program, and

(b) Giving to the Secretary satisfactory assurance that by June 30, 1970 permanent land use and control measures will have been adopted for the political subdivision which measures will be consistent with the comprehensive criteria for land management and use developed by the Department of Housing and Urban Development, and that the application and enforcement of such measures will commence as soon as technical information on floodways and on controlling elevations is available.

Sec. 4. The powers, rights, privileges and functions of the District shall be exercised by a board of nine (9) directors (herein called the Board), which is a state board of a state agency as contemplated by Section 30a of Article XVI, Constitution of Texas. Each member of the Board shall be a freehold property taxpayer of the State of Texas and shall reside in one of the counties which is included within the boundaries of the District, but only one director shall be appointed from any county. The directors shall be appointed by the Governor from nominations furnished him by the Texas Water Rights Commission and the appointments confirmed by the Senate as in other cases of appointments by the Governor. Of the directors first appointed, three (3) shall hold office for a term expiring February 1, 1937, three (3) for a term expiring February 1, 1939, and three (3) for a term expiring February 1, 1941. Thereafter, directors shall hold office for a term of six (6) years. Each director shall hold office until the expiration of the term for which he was appointed and thereafter, until his successor shall have been appointed and qualified unless sooner removed as in this Act provided. Any director may be removed by the authority which appointed him for inefficiency, neglect of duty or misconduct in office, after at least ten (10) days' written notice of the charge against him and an opportunity to be heard in person by counsel at public hearing. A vacancy resulting from the death, resignation or removal of any director shall be filled by the authority which appointed him for the unexpired term. Each director shall qualify by taking the official oath of office prescribed by General Statute.

(a) Each director shall receive Twenty-five Dollars (\$25) per day, or such amount as may hereafter be prescribed by general law, for each day spent in attending meetings of the Board, and any other business of the District that the Board thinks necessary, plus actual traveling and other expenses.

(b) Until the adoption of by-laws fixing the time and place of regular meetings and the manner in which special meetings may be called, meetings of the Board shall be held at such times and places as five (5) of the directors may designate in writing. Five (5) directors shall constitute a quorum at any meeting and, except as otherwise provided, in this Act or in the by-laws, all action may be taken by the affirmative vote of a majority of the directors present at any such meeting, except that no contracts which involve any amount greater than Ten Thousand Dollars (\$10,000) or which is to run for a period longer than a year, and no bonds, notes or other evidence of indebtedness and no amendment of the by-laws

shall be valid unless authorized or ratified by the affirmative vote of at least five (5) directors.

Sec. 4 amended by Acts 1969, 61st Leg., p. 1465, ch. 432, § 1, emerg. eff. June 2, 1969.

Sections 2-4 of the amendatory act of 1969 provided:

"Sec. 2. Nothing in this Act shall be construed to affect the present membership of the Board of Directors of the Guadalupe-Blanco River Authority, and each member of the present Board of Directors shall continue to serve as such until the expiration of the term of office for which he was appointed and thereafter until his successor shall have been appointed and qualified, unless sooner removed as provided in said Section 4.

"Sec. 3. It is determined and found that a proper and written notice of the intention to introduce this Act setting forth the general substance of this Act has been published at least thirty (30) days and not more than ninety (90) days prior to the introduction of this Act in the Legislature of Texas in a newspaper having a general circulation in the counties in which said District or part thereof is located; that a copy of such notice and a copy of this

Act have been delivered to the Governor of Texas who has submitted such notice and Act to the Texas Water Rights Commission, and said Texas Water Rights Commission has filed its recommendation as to this Act with the Governor, Lieutenant Governor and Speaker of the House of Representatives within thirty (30) days from the date such notice and Act were received by the Texas Water Rights Commission; and that all the requirements and provisions of Article XVI, Section 59d, Constitution of the State of Texas, have been fulfilled and accomplished as herein provided.

"Sec. 4. If any word, phrase, clause, sentence or part of this Act shall be held by any court of competent jurisdiction to be invalid or unconstitutional, it shall not affect any other word, phrase, clause, sentence or part of this Act, and such remaining portions shall remain in full force and effect."

Sec. 3. Powers of the District. The District is hereby invested with all of the powers of the State of Texas under Article 16, Section 59, of the Constitution of the State of Texas to effectuate the construction, maintenance and operation of navigable canals or waterways, to effectuate flood control, to effectuate the conservation and use, for all beneficial purposes, of ground, storm, flood and unappropriated flow waters in the District, to effectuate irrigation, to effectuate soil conservation, to effectuate sewage treatment, to effectuate pollution prevention, to encourage and develop parks, recreational facilities and to preserve fish, to effectuate forestation and reforestation, and to do all things as are required therefor, subject only to: (i) declarations of policy by the Legislature of the State of Texas as to the use of water; (ii) continuing supervision and control by the State Board of Water Engineers and any board or agency which may thereafter succeed to its duties; (iii) the provisions of Section 4, page 212, Acts of the Thirty-fifth Legislature, 1917, as subsequently amended (codified under Article 7471, Vernon's Civil Statutes of the State of Texas), prescribing the priorities of uses for water; and

(iv) the rights heretofore or hereafter legally acquired in water by municipalities and other users. Subject to the foregoing, it shall be the duty of the District to exercise for the greatest practicable measure of the conservation and beneficial utilization of all ground, storm, flood and unappropriated flow waters of the District, in the manner and for the particular purposes specified hereinafter in this Section 3 and elsewhere in this Act the following powers, rights, privileges and functions, to wit:

* * * * *

(b) Flood Control and Flood Plain Management. To prevent and aid in the prevention of damage to persons and property by the overflow of any and all rivers, streams or tributaries thereof within the District including the study and designation of flood plains and the regulation thereof;

* * * * *

(f) Sewage Treatment and Solid Waste Disposal. As a necessary aid to the conservation, control, preservation, purification and distribution of surface and ground waters within the District, the District shall have the power to construct, own, operate, maintain or otherwise provide, within the San Antonio River Basin, sewage gathering, treatment and/or disposal services, including solid waste disposal services, to charge for such services, and to make contracts in reference thereto with counties, municipalities and others. Provided, however, that the District shall not exercise the powers hereinabove granted by this Section 3(f) within the boundaries of Kerr, Real, or Bandera Counties unless the Commissioners Court of such county or counties shall first have consented by a majority vote thereof to the exercise of such power within such county or counties;

(g) Pollution Prevention. To provide for the study, correcting and control of both artificial and natural pollution including organic, inorganic and thermal, of all ground or surface water within the San Antonio River Basin. In this connection, the District is given the power by ordinance to promulgate rules and regulations with regard to such pollution, both artificial and natural, with the right of policing by said District to enforce such rules and regulations and of providing reasonable and commensurate penalties for the violation of any rules and regulations, which penalties shall be cumulative of any penalties fixed by General Law in Texas, and not to exceed the limit for penalties as fixed elsewhere in this Act. Provided, however, that no ordinance enacted pursuant to the powers hereinabove given the District by this Section 3(g) shall be promulgated in any county or counties outside the existing boundaries of the District;

* * * * *

(j) Contractual: To make contracts and to execute instruments necessary or convenient to the exercise of the powers, rights, privileges and functions conferred upon it by this Act, with the United States, its agencies, counties, cities, all municipal corporations, political subdivisions and districts, and with private persons, partnerships, associations and corporations. The District shall make and execute such contracts and instruments in accordance with the following procedures:

(1) Concerning any wholesale contract for the sale, purchase, procurement, distribution and/or supply of water or conservation storage capacity, or for the treatment, transmission and disposal of sewerage, or for the construction of a navigable canal or waterway, or any contract authorized by Section 1, Chapter 84, page 140, Acts of the 52nd Legislature, 1951, as subsequently amended (codified under Article 7048b, Vernon's Civil Statutes of Texas), the Board of Directors shall cause a notice describing the general nature of such contract to be published once each week for three (3) consecutive weeks in a newspaper of general cir-

culuation in each county in the District within which such contract is to have effect. Such contract may be considered and acted upon at the regular meeting of the Board next following the last date of publication or, without further notice, at any meeting thereafter. The affirmative vote of at least seven (7) members of the Board shall be required for the approval or confirmation or ratification of any such contract. Of those seven (7) affirmative votes, at least three (3) affirmative votes shall be cast by Board members from Bexar County, at least one (1) affirmative vote shall be cast by a Board member from Wilson County, at least one (1) affirmative vote shall be cast by a Board member from Karnes County, and at least one (1) affirmative vote shall be cast by a Board member from Goliad County. The District may use any such contract as the sole basis, or as a supplement to the basis, for securing its bonds;

(2) Concerning any construction, maintenance, operation or repair contract, contract for the purchase of material, equipment or supplies or any contract for services other than professional services, the Board shall award such contract to the lowest and best bidder after publication of a notice to bidders once each week for three (3) consecutive weeks before awarding the contract if such contract will require an estimated expenditure of more than Two Thousand Dollars (\$2,000) or if such contract is for a term of six (6) months or more. Such notice shall be sufficient if it states the time and place when and where the bids will be opened, the general nature of the work to be done, or the material, equipment, or supplies to be purchased, or the non-professional services to be rendered, and states where and the terms upon which copies of the plans, specifications or other pertinent information may be obtained. Members of the Board of Directors shall be ineligible to submit such bids. The publication of said notice shall be in a newspaper of general circulation in the county or the counties in which the contract is to be performed, said newspaper or newspapers to be designated by the Board of Directors. In addition to publishing said notice in a newspaper of general circulation, said notice may also be published in any other appropriate publication. Bids shall be opened at the place specified in the published notice and shall be announced by the Manager or other officer designated by the Board; provided, however, that said place of opening and announcing the bids shall always be open to the public. According to the amount of the lowest and best bid, the District may thereafter make and execute any such contract by and through either its Executive Committee or its Board of Directors. Any provision of this Subsection to the contrary notwithstanding, the District may purchase surplus property from the United States by negotiated contract and without the necessity of advertising for bids.

(k) General:

(1) This District hereby is vested with such title and right of control as the State has, or may have, in, to and concerning the natural bed and banks of the San Antonio River in its entire length, and all of its tributaries as are within the District, as said District is defined in Section 2-a of this Act, and the District hereby is further vested with such title and right of control as the State has, or may have, in, to and concerning the natural bed and banks of any other navigable stream or tributary thereof as may be situated within the District, as said District is defined in Section 2-a of this Act; which investment, however, shall be in trust, and to authorize said District to make such uses, and/or disposition of such lands and rights (and the proceeds, income, revenues, or trading values thereof) as in actual experience may prove to be reasonably required for, or in aid of, the accomplishment of the purposes of this Act;

(2) To make preliminary investigations and surveys in the manner and for the purposes specified in said Chapter 25 (either independently

at its own cost, or jointly with others, or to contribute to the cost thereof when done by another), whereby to procure cooperation by the Government of the United States of America, to the end that any project lawfully within the purposes of this Act may be approved for construction as a Federal project under such contractual terms and conditions as may be demanded by the Federal Congress;

(3) To expend all sums reasonably deemed to be necessary or expedient for seeking cooperation in accomplishing the objects of this Act from the Federal Government, and/or any and all other persons, creatures, or entities, whether natural, or creatures of law or contract;

(4) Subject to the provisions of this Act from time to time to sell or otherwise dispose of any property of any kind, real, personal, or mixed, or any interest therein, which shall not be necessary to the carrying on of the business of the District;

(5) To overflow and inundate any public lands and public property and to require the relocation of roads and highways in manner and to the extent permitted to districts organized under General Laws pursuant to Section 59 of Article 16 of the Constitution of the State of Texas. In the event that the District, in the exercise of the power of eminent domain or power of relocation, or any other power granted hereunder, makes necessary the relocation, raising, rerouting or changing the grade of, or altering the construction of any railroad, or street railway, all such necessary relocation, raising, rerouting, changing of grade or alteration of construction shall be accomplished at the sole expense of the District;

(6) To construct, extend, improve, maintain and reconstruct, to cause to be constructed, extended, improved, maintained, and reconstructed, and to use and operate, any and all facilities of any kind necessary or convenient to the exercise of such powers, rights, privileges, and functions;

(7) To sue and to be sued in its corporate name;

(8) To adopt, use, and alter a corporate seal;

(9) To adopt and to amend its bylaws for the management of its affairs;

(10) To appoint officers, agents, employees and professional consultants, none of whom shall have any interest, direct or indirect, in any contracts awarded by the District;

(11) To prescribe the duties and fix the compensation of all officers, agents, employees and professional consultants;

(12) To acquire by purchase, lease, gift, or in any other lawful manner and to maintain, use, and operate any and all property of any kind, real, personal or mixed, or any interest therein, within and without the boundaries of the District, necessary or convenient to the exercise of the powers, rights, privileges and functions conferred upon it by this Act, in the manner provided by general law with respect to condemnation or, at the option of the District, in the manner provided by the statutes relative to condemnation by Districts organized under general law pursuant to Section 59 of Article 16 of the Constitution of the State of Texas;

(13) To condemn lands used or dedicated for cemetery purposes in the manner provided by the General Law of Texas where reasonably necessary to effectuate the powers, rights, privileges and functions of the District, provided, however, that, when such power of condemnation is sought to be exercised with respect to any Perpetual Care cemetery, as defined in Article 912a, Vernon's Civil Statutes of the State of Texas, as to the condemnation of any such Perpetual Care cemetery or portion thereof, jurisdiction is hereby conferred for such purpose on the District Court or Courts of the county in which such cemetery land or any part thereof may be located, and such condemnation action shall likewise involve the issue of the removal of the dedication thereof as such Perpetual Care cemetery and the issue of the necessity for such taking;

(14) To borrow money for its corporate purposes and to execute proper notes or other evidences of indebtedness, and without limitation of the generality of the foregoing, to borrow money and accept grants from the United States of America, and in connection with any such loan or grant, to enter into such agreements as the United States of America or such corporation or agency may require; and to make and issue its negotiable bonds for moneys borrowed in the manner and to the extent provided in Section 16. Nothing in this Act shall authorize the issuance of any bonds, notes, or other evidences of indebtedness of the District, except as specifically provided in this Act, and no issuance of bonds, notes, or other evidences of indebtedness, except as specifically provided in this Act, shall ever be authorized except by an Act of the Legislature;

(15) To obtain loans from and accept grants from the United States and its agencies, and from the State of Texas, and its agencies, and it shall have the right to participate in and be the beneficiary of any plan which may be evolved by the State or Federal Government for guaranteeing or otherwise subsidizing the obligations of the District;

(16) The District shall have the power to adopt and promulgate by ordinance all reasonable rules and regulations for purposes elsewhere provided in this Act and generally to secure and protect any and all of its property and any and all of its works of improvement, and to regulate residence, hunting, fishing, boating and camping, and all recreational and business privileges on any navigable river of the District, or any reservoir of the District, or upon any land owned by the District. The District may prescribe reasonable and commensurate penalties for the violation of any and all such rules and regulations of the District, which penalties shall be cumulative of any penalties fixed by the General Law in Texas and shall not exceed fines of more than Two Hundred Dollars (\$200), or imprisonment for not more than one hundred eighty (180) days, or may provide for both such fine and imprisonment. No rule or regulation which provides a penalty for the violation thereof shall be in effect, as to enforcement of the penalty, until five (5) days next after the District may have caused a substantive statement of the particular rule or regulation and the penalty for the violation thereof to be published once a week for three (3) consecutive weeks in a newspaper of general circulation in each county in which it is to be effective. The substantive statement so to be published shall be as condensed as is possible to afford an intelligent direction of the mind to the act forbidden by the rule or regulation; one (1) notice may embrace any number of regulations; there must be embraced in the notice advice that breach of the particular regulation, or regulations, will subject the violator to the infliction of a penalty and there also shall be included in the notice advice that the full text of the regulations sought to be enforced is on file in the principal office of the District, where the same may be read by any interested person. Five (5) days after the third publication of the notice hereby required, the advertised regulation shall be in effect, and ignorance of any such regulation shall not constitute a defense to a prosecution for the enforcement of a penalty and, the rules and regulations authorized hereby, after the required publication, shall judicially be known to the courts and shall be considered of a nature like unto that of valid penal ordinance of a city of the State. The District shall be primarily liable for any court costs incurred hereunder, and the cost to maintain any offender committed for imprisonment hereunder. Any fine imposed in any such proceeding and paid in money shall be payable to this District and applied as its Board may direct;

(17) To designate an official newspaper of the District in each county in the District, each of which newspapers shall be a newspaper having general circulation in the county in which it is situated;

(18) To acquire such rights-of-way as are necessary to construct, operate and maintain such roads as are necessary for ingress and egress to any work of improvement or to any park, recreational facility, or fish or wildlife preserve or reserve;

(19) To grant concessions and franchises upon the premises of any works of improvement or any park, recreational facility or fish or wildlife preserve or reserve to any person or corporation;

(20) When germane to the accomplishment and the purposes of this Act, and not otherwise adequately provided by Chapter 25, or provided elsewhere in this Act, the Directors of the District shall have the power to adopt and promulgate ordinances, which may be done by a majority (except as specifically provided elsewhere in this Act) of those Directors present at any meeting held in compliance with the provisions of the by-laws at which there must be present a majority of the Board, constituting a quorum. No notice shall be required before the passage of such ordinance, except such notices of special or regular meetings of the Board as may be provided elsewhere in this Act. After having adopted such ordinances, the Directors shall cause the same to be filed and recorded in the official records of the Authority. The Directors may, if they deem necessary and proper, in addition to filing and recording same in the official records of the Authority, either caused certified copies of same to be forthwith filed of record in the office of the County Clerk of each county situated in whole or in part within the District within which such ordinance is intended to have application and/or to be published once or more each week for three (3) or more consecutive weeks in a newspaper or newspapers of general circulation in each county within the District within which ordinance is intended to have application, following either or all of which methods of recording and/or publication the ordinance shall be in full force and effect; and thereafter all courts and persons shall be held to have knowledge thereof, just as though the same had been embraced in the body of this Act and the County Clerk in any county is authorized and directed to file and record all certified copies of such county and to charge therefor the same fees as is provided for recording deeds of conveyance. And the powers of said District to adopt ordinances shall include, among other things as follows: in any case in which said Chapter 25 does not provide a specific power or right germane to, or appropriate, or adequate to accomplish an object of this Act, and such specific power has been, or hereafter may, conferred by law on Counties, Cities, Water Improvement Districts, Water Control and Improvement Districts, Drainage Districts, Navigation Districts, Canal Corporations, Channel and Dock Corporations, Deep Water Corporations, Railway Corporations, Terminal Railway Corporations, Telegraph and Telephone Corporations, or other like creatures of the law, then to the intent required to make adequate hereto the powers and rights of this District, it may by ordinance adopt and have as part of the law of its being so much of the power and right of any of the herein designated creatures of the law as will enable it effectively to accomplish that purpose of this Act. The adoption of a power or mode of procedure hereunder shall not be held to include any incidental limitation which would impede the lawful accomplishment of the purposes of this Act. As to this, there shall be no limit hereof save such as would violate the provisions of the Constitution of the United States and the State of Texas concerning the rights of others;

(21) This District shall have all such powers and rights, and regulations for government and procedure, as are contained in said Chapter 25, which shall be cumulative of those provided by this Act, and those rules for procedure which may be provided by ordinances adopted by the District under other provisions of this Act.

(a) The Board of Directors of the Authority shall have the power to adopt and promulgate all reasonable regulations to regulate residence, hunting, fishing, boating, camping and all recreational and business privileges on all lands and easements owned by the Authority and to protect the property of the Authority; provided, however, that such regulations shall not include any provisions for the collection of fees or the requirement of permits and/or licenses for boat inspections, non-commercial fishing, the use on lakes owned by the Authority of boats operated for non-commercial purposes, and hunting except for the use of duck blinds constructed, operated and maintained by the Authority.

(b) The Board of Directors of the Authority shall have the right to make contracts with responsible persons for the construction and operation of any facility on the Authority's property, fixing the compensation to be charged for service by any such facility to the end that the same be reasonable, and requiring adequate bond from any such contracting person, association or corporation, payable to the Authority and to be of such amount and condition as the Board of Directors of the Authority may in its discretion deem appropriate, and such contracts may provide for forfeiture of the particular franchise in case of a failure of the licensee to render adequate public service.

(c) The Authority may prescribe reasonable penalties for the breach of any regulation of the Authority, which penalties shall not exceed fines of more than Two Hundred Dollars (\$200.00), or imprisonment for not more than thirty (30) days, or may provide both such fine and such imprisonment. The penalties hereby authorized shall be in addition to any other penalties provided by the laws of Texas and may be enforced by complaints filed in the appropriate court of jurisdiction in the county in which the violation occurred, provided, however, that no rule or regulation which provides a penalty for the violation thereof shall be in effect, as to enforcement of the penalty, until five (5) days next after the Authority may have caused a substantive statement of the particular rule or regulation and the penalty for the violation thereof to be published, once a week for two (2) consecutive weeks in the district. The substantive statement so to be published shall be as condensed as is possible to afford an intelligent direction of the mind to the act forbidden by the rule or regulation; the one notice may embrace any number of regulations; there must be embraced in the notice advice that breach of the particular regulation or regulations, will sub-

Five (5) days after the second publication of the notice hereby required, the advertised regulation shall be in effect, and ignorance of any such regulation shall not constitute a defense to a prosecution for the enforcement of a penalty; and, the rules and regulations authorized hereby, after the required publication shall judicially be known to the courts and shall be considered of a nature like unto that of valid penal ordinances of a city of the state.

(d) It further is expressly provided that the Authority shall have the power to employ and constitute its own law enforcement officers, and any such officer or law enforcement officer of any other governmental entity shall have the power to make arrests when necessary to prevent or abate the commission of any offense against the regulations of the Authority, and against the laws of the State of Texas, when any such offense, or threatened offense, occurs upon any land, water or easement owned or controlled by the Authority.

Sec. 6. Subject to the limitation as to the maximum rate of tax as prescribed in this Section, the Authority may levy and collect such ad valorem taxes as are voted at an election or elections, called by the Board for the purpose and conducted throughout the territory of the Authority. The maximum rate of tax which can be levied and collected for any year shall be Fifteen Cents (15¢) on the One Hundred Dollars (\$100.00) of taxable property based on its assessed valuation. Only qualified electors, owning taxable property within the boundaries of the Authority and who have duly rendered their property for taxation shall be entitled to vote in any such election. An elector otherwise qualified must vote in the county and precinct of his residence. The resolution calling for such election shall state the maximum rate or rates of taxes which are to be authorized. Such notice shall be published at least once in each of four (4) weeks on the same day of each week in a newspaper published in, or having general circulation in, each county within the Authority, the date of the first publication being at least thirty (30) days prior to the date of the election. The resolution calling the election shall specify the voting places in each of the several counties. The notice of election will be sufficient as to any county within the Authority if it states that the election is to be held throughout the territory comprising the Authority and if it specifies the voting places in such county. But it shall not be necessary to publish such details except in the county to which they are applicable. Returns of the election shall be made to the Board. If, and only if, a majority vote of the qualified voters voting in at least a majority of the counties which are wholly or partially within the Authority, together with a majority vote of the qualified voters voting in the entire Authority, shall be in favor of the levy of the tax, the Board may levy taxes within the maximum rate thus voted. The rate of tax shall be uniform throughout the territory comprising the Authority, and shall be certified by the President and Secretary of the Authority to the Tax Assessor and the Tax Collector of each included county. After an election has resulted favorably to the levy of a tax, the Board of Directors may use such funds for any purpose authorized by the powers conferred upon the Authority by this Act.

Sec. 6 amended by Acts 1967, 60th Leg., p. 604, ch. 273, § 2, emerg. eff. May 23, 1967; Acts 1969, 61st Leg., p. 486, ch. 155, § 1, emerg. eff. May 7, 1969.

* * * * *

Sec. 8.(a) For the purpose of carrying out any one or more powers of the Authority, Authority may issue negotiable bonds of three (3) general classes:

(1) Bonds secured by ad valorem taxes, when voted; provided that the maximum rate of tax in any one (1) year to be levied by the Authority for bonds and all other purposes shall not exceed Fifteen Cents (15¢) on the One Hundred Dollars (\$100) of taxable property;

(2) Bonds secured solely by a pledge of all or part of the revenues accruing to the Authority, including but without limitation those received from sale of water, rendition of services, tolls, charges and from all sources other than ad valorem taxes.

(3) Bonds secured by a combination pledge of revenues and taxes, to the end that taxes will be collected for such purpose only to the extent that the revenues are insufficient to provide the amount of money necessary to pay operating and maintenance expenses and to service the bonds as prescribed in the resolution authorizing, or the indenture securing, the bonds.

* * * * *

(d) Bonds secured wholly or in part by a pledge of the revenues of the Authority may be secured by all or that part of the revenues specified in the resolution authorizing the bonds or in the indenture securing the bonds. Within the discretion of the Board bonds may be secured further by a lien on all or any part of the physical property of the Authority. In making any such pledge of the revenues the right under the conditions therein specified to issue additional bonds which will be on a parity with, senior to or subordinate to the bonds then being issued, may be expressly reserved.

(e) Where bonds are issued payable wholly from ad valorem taxes it shall be the duty of the Board at the time of their authorization to levy a tax sufficient to pay the principal of and interest on the bonds as such interest and principal become due, and to provide the reserve funds if prescribed in the resolution authorizing or the trust indenture securing the bonds, having due regard for the maximum rate of tax which is permitted under this Act.

(f) Where the bonds are payable both from ad valorem taxes and from revenues of the Authority, an ad valorem tax shall be levied at the time of the authorization of the bonds sufficient to pay such principal and interest and create and maintain such reserve funds, but the rate of tax actually to be collected for any year, shall be so fixed as to take into consideration the money which shall have been in the interest and sinking fund from the pledged revenues and which will be available for payment of principal and interest and for the creation of such reserve funds, to the extent and in the manner permitted by the resolution authorizing or the trust indenture securing the bonds.

(g) Where bonds are payable wholly from revenues, it shall be the duty of the Board of Directors to fix, and from time to time revise the rates, tolls, and charges for the sales and services rendered by the Authority, the revenues from which are pledged to the end that such rates, tolls, and charges will yield sufficient money to pay: designated expenses of the Authority, the principal of an interest on said bonds as such principal and interest matures, and to create, and maintain funds as prescribed in the resolution authorizing, or the trust indenture securing, the bonds. Where the bonds are payable both from ad valorem taxes and from revenues, it shall be the duty of the Board to fix, and from time to time to revise, the rate of compensation for water sold, services rendered, tolls and charges levied, by the Authority, to the extent pledged, which will be sufficient to assure compliance with the resolution authorizing the bonds or the trust indenture securing them.

(h) From the proceeds of the sale of any issue of bonds the Authority may set aside an amount for the payment of interest anticipated to accrue for the period specified or during the construction period and for two (2) additional years, and to provide for a deposit into reserves for the interest and sinking fund to the extent prescribed in the resolution authorizing or the trust indenture securing the bonds. Proceeds from the sale of the bonds shall be used for the purposes for which the bonds were authorized and may be used for the payment of all expenses necessarily incurred in accomplishing the purposes for which the Authority is created, including the expense of issuing and selling the bonds. But no expenditure of such proceeds shall be made in violation of provisions contained in the resolution authorizing or the trust indenture securing the bonds.

Sec. 8, Subsecs. (a), (d)-(h), amended by Acts 1969, 61st Leg., p. 488, ch. 156, §§ 1 to 6, emerg. eff. May 7, 1969.

* * * * *

Sec. 8. (a) For the purpose of carrying out any one or more powers of the Authority, Authority may issue negotiable bonds of three (3) general classes:

- (1) Bonds secured by ad valorem taxes, when voted;
- (2) Bonds secured solely by a pledge of all or part of the revenues accruing to the Authority, including but without limitation those received from sale of water, rendition of services, tolls, charges and from all sources other than ad valorem taxes.

(3) Bonds secured by a combination pledge of revenues and taxes, to the end that taxes will be collected for such purpose only to the extent that the revenues are insufficient to provide the amount of money necessary to pay operating and maintenance expenses and to service the bonds as prescribed in the resolution authorizing, or the indenture securing, the bonds.

(b) The Authority has the power to issue bonds prescribed in subsection (a) paragraph (2) hereof by action of its Board of Directors and without the necessity of an election. Bonds to be issued pursuant to paragraphs (1) and (3) of this subsection (a) can be issued only after authorization at an election held for such purpose throughout the territory comprising the Authority. Such elections shall be conducted substantially in accordance with the procedure prescribed in Section 10 for

elections authorizing ad valorem taxes. The qualifications of voters at bond elections shall be the same as those prescribed in Section 10 for elections on the authorization of ad valorem taxes.

(c) Bonds of the Authority shall be authorized by resolution adopted by the Board and shall be signed by the President or Vice-President, attested by the Secretary, and the seal of the Authority shall be impressed thereon; but within the discretion of the Board, as evidenced by the resolution, bonds may be issued bearing the facsimile signature of the President or Vice-President and the seal of the Authority may be printed thereon, but the signature of the Secretary in such cases must be manually affixed. Bonds shall mature serially or otherwise within such period and at such times as may be prescribed in the resolution, not exceeding a maximum of fifty (50) years. The bonds shall bear such rates of interest and may be sold at prices and under terms determined by the Board to be most advantageous reasonably obtainable and within the limits prescribed by law. The bonds may be registrable as to principal, or as to both principal and interest. Appropriate provisions may be inserted in the resolution authorizing the execution and delivery of bonds for the conversion of registered bonds into bearer bonds and vice versa. Provisions may be made in the bond resolution or trust indenture for the substitution of new bonds for those lost or mutilated. When bonds shall have once been approved by the Attorney General and registered by the Comptroller as prescribed in subsection (1) of this Section 8 it shall not be necessary to obtain the approval of the Attorney General or registration by the Comptroller as to such converted or substituted bonds.

(d) Bonds secured wholly or in part by a pledge of the revenues of the Authority may be secured by all or that part of the revenues specified in the resolution authorizing the bonds or in the indenture securing the bonds. Within the discretion of the Board bonds may be secured further by a lien on all or any part of the physical property of the Authority. In making any such pledge of the revenues the right under the conditions therein specified to issue additional bonds which will be on a parity with, senior to or subordinate to the bonds then being issued, may be expressly reserved.

(e) Where bonds are issued payable wholly from ad valorem taxes it shall be the duty of the Board at the time of their authorization to levy a tax sufficient to pay the principal of and interest on the bonds as such interest and principal become due, and to provide the reserve funds if prescribed in the resolution authorizing or the trust indenture securing the bonds.

(f) Where the bonds are payable both from ad valorem taxes and from revenues of the Authority, an ad valorem tax shall be levied at the time of the authorization of the bonds sufficient to pay such principal and interest and create and maintain such reserve funds, but the rate of tax actually to be collected for any year, shall be so fixed as to take into consideration the money which shall have been in the interest and sinking fund from the pledged revenues and which will be available for payment of principal and interest and for the creation of such reserve funds, to the extent and in the manner permitted by the resolution authorizing or the trust indenture securing the bonds.

(g) Where bonds are payable wholly from revenues, it shall be the duty of the Board of Directors to fix, and from time to time to revise the rates, tolls, and charges for the sales and services rendered by the Authority, the revenues from which are pledged, to the end that such rates, tolls, and charges, will yield sufficient money to pay: designated expenses of the Authority, the principal of and interest on said bonds as such principal and interest matures, and to create, and maintain funds as prescribed in the resolution authorizing, or the trust indenture securing, the bonds. Where the bonds are payable both from ad valorem taxes and from revenues, it shall be the duty of the Board to fix, and from time to

time to revise, the rate of compensation for water sold, services rendered, tolls and charges levied, by the Authority, to the extent pledged, which will be sufficient to assure compliance with the resolution authorizing the bonds or the trust indenture securing them.

(h) From the proceeds of the sale of any issue of bonds the Authority may set aside an amount for the payment of interest anticipated to accrue for the period specified or during the construction period, not to exceed three years, and to provide for a deposit into reserves for the interest and sinking fund to the extent prescribed in the resolution authorizing or the trust indenture securing the bonds. Proceeds from the sale of the bonds shall be used for the purposes for which the bonds were authorized and may be used for the payment of all expenses necessarily incurred in accomplishing the purposes for which the Authority is created, including the expense of issuing and selling the bonds. But no expenditure of such proceeds shall be made in violation of provisions contained in the resolution authorizing or the trust indenture securing the bonds.

(i) In the event of a default or a threatened default in the payment of principal or interest on bonds payable wholly or partially from revenues, any court of competent jurisdiction may, upon petition of the holders of outstanding bonds, appoint a receiver with authority to collect and receive all income of the Authority except taxes, employ and discharge agents and employees of the Authority, take charge of funds on hand (except funds received from taxes unless commingled) and manage the proprietary affairs of the Authority without consent or hindrance by the Directors. Such receiver may also be authorized to sell or make contracts for the sale of water or renew such contracts with the approval of the court appointing him. The court may vest the receiver with such other powers and duties as the court may find necessary for the protection of the holders of the bonds. The resolution authorizing the issuance of the bonds or the trust indenture securing them may limit or qualify the rights of the holders of less than all of the outstanding bonds payable from the same source to institute or prosecute any litigation affecting the Authority's property or income.

(j) Pending the issuance of definitive bonds the Board may authorize the delivery of negotiable interim bonds or notes, eligible for exchange or substitution, by use of definitive bonds.

(k) The Authority is authorized to issue refunding bonds for the purpose of refunding any outstanding bonds and interest thereon, authorized by this Act or any other indebtedness which the Authority may lawfully assume. Such refunding bonds may be issued to refund more than one (1) series of outstanding bonds and may for the benefit of the refunding bonds combine the pledges securing such outstanding bonds and may inject additional security for the refunding issue. Refunding bonds shall be registrable by the Comptroller of Public Accounts upon surrender and cancellation of the bonds to be refunded, but in lieu of such procedure the resolution authorizing the issuance of the refunding bonds may provide that they shall be sold and the proceeds thereof deposited in the bank, or in one (1) or more of the banks where the original bonds are payable. In the latter case, the refunding bonds may be issued in an amount sufficient to pay the interest on the original bonds to their maturity date, or to the date on which the bonds are to be redeemed, and the amount of the call premium, if any, as to bonds called for redemption prior to maturity, and in such an event the Comptroller shall register the refunding bonds without the concurrent surrender and cancellation of the original bonds. No election shall be necessary in connection with the authorization and issuance of refunding bonds.

(l) No bonds shall be issued by the Authority until they shall have been approved by the Attorney General of the State of Texas. After the bonds shall have been approved by the Attorney General and registered by the Comptroller of Public Accounts of the State of Texas they shall be

negotiable and incontestable, provided that when the bonds of an issue shall have been thus approved and registered, the bonds thereafter delivered by the Authority in lieu thereof, pursuant to subsection (c) of this Section, in connection with the exchange or registered for unregistered bonds, or unregistered bonds for registered bonds, or in lieu of lost or mutilated bonds, need not be reapproved by the Attorney General or reregistered by the Comptroller of Public Accounts. Nevertheless, such bonds shall likewise be incontestable, and except for the limitations resulting from registration shall be negotiable.

(m) Any bonds (including refunding bonds) authorized by this Act, and not payable wholly from ad valorem taxes, may be additionally secured by a trust indenture under which the Trustee may be a bank having trust powers which may be situated either within or outside of the State of Texas. Such trust indenture may contain provisions prescribed by the Board for the security of the bonds and the preservation of its properties, contracts, and rights. It may contain a provision for the amendment or modification thereof in the manner therein prescribed. Without limiting the generality of the provisions which may be contained in the indenture, it may provide that the Authority shall comply with the requirements of designated consulting engineers for the proper maintenance and operation of Authority's properties and for the fixing of adequate tolls, charges and rates, to assure proper maintenance and operation, and to provide proper debt service for the outstanding bonds in the manner prescribed in the resolution authorizing the issuance of the bonds or in the trust indenture securing the bonds.

(n) Any bonds (including refunding bonds) authorized by this law may be additionally secured by a mortgage lien upon physical properties of the Authority and all franchises, easements, water rights and appropriation permits, leases and contracts and all rights appurtenant to such properties, vesting in the trustee power to sell the properties for payment of the indebtedness, power to operate the properties and all other powers and authority for the further security of the bonds. The trust indenture may contain any provisions prescribed by the Board of Directors for the security of the bonds and the preservation of the trust estate, and may make provision for amendment or modification thereof and the issuance of bonds to replace lost or mutilated bonds. Any purchaser under a sale under such trust indenture shall be the owner of the properties and facilities so purchased and shall have the right to maintain and operate the same.

(o) The District shall comply with the requirements of Article 7880—139, Vernon's Texas Civil Statutes.

Sec. 8 amended by Acts 1969, 61st Leg., p. 2100, ch. 718, § 3, emerg. eff. June 12, 1969.

Sec. 9. The Board of Directors of the Authority shall have the power to levy and collect ad valorem taxes for the maintenance of the Authority and its improvements, and for other lawful purposes, in such amounts as are voted in accordance with the procedure hereinafter set forth; provided that the maintenance tax shall not exceed the maximum rate voted, and said rate shall remain in effect until or unless changed by subsequent vote.

Sec. 9 amended by Acts 1969, 61st Leg., p. 2103, ch. 718, § 4, emerg. eff. June 12, 1969.

Sec. 10. No such maintenance tax shall be levied or collected and no bonds payable wholly or partially from ad valorem taxes shall be issued unless an election is held in the Authority and any such taxes or bonds are duly and favorably voted by a majority of the resident, qualified electors of the Authority who own taxable property therein and who have duly rendered the same for taxation, voting at said election. Each such elec-

tion shall be called by resolution of the Board of Directors. The election resolution shall set forth the date of the election, the proposition to be submitted and voted on, the polling places, and any other matters deemed advisable by the Board of Directors. Notice of said election shall be given by publishing a substantial copy of the resolution calling the election in a newspaper of general circulation in the Authority not less than twice in such newspaper, with the interval between such publications to be at least one week, and with the first of each of said publications to be at least 14 days prior to the date set for the election. To the extent not inconsistent with the provisions hereof, the elections herein provided for shall be held in accordance with the provisions of the Texas election code.

Sec. 10 amended by Acts 1969, 61st Leg., p. 2103, ch. 718, § 5, emerg. eff. June 12, 1969.

Sec. 11. The rendition and assessment of property for taxation, the equalization of values, and the collection of taxes for the benefit of the Authority shall be in accordance with the law applicable to counties, insofar as such law can be made applicable, and except as hereinafter specifically provided. The Board of Directors of the Authority may act as the Board of Equalization for the Authority, or may appoint a separate Board of Equalization to consist of five resident, qualified voters who own taxable property in the Authority. In either case, the Board of Equalization shall have the powers, functions and duties of the Commissioners Courts of counties in equalizing property values in accordance with law applicable to counties, insofar as such laws can be made applicable. The Board of Directors shall appoint a tax assessor and collector for the Authority and provide for his compensation, or the Board of Directors shall be empowered by resolution to authorize the assessor and collector of taxes for El Paso County, Texas, to assess and collect taxes for the Authority. It is provided, however, that renditions shall be made to the tax assessor and collector (or the County Tax Assessor and Collector of the county, as the case may be). If the County Tax Assessor and Collector is designated, it shall be his duty to cause to be placed on the county tax rolls such additional column or columns as are needed to show the taxes levied by the Authority and the amount thereof, based on the value of such property as approved finally by the Authority's Board of Equalization. The fee of the County Tax Assessor and Collector for assessing and collecting taxes shall be one percent (1%) of the taxes collected, such fee to be paid over and disbursed in each county as are other fees of office. All of the laws for the enforcement of state and county taxes shall be available to the Authority. The Authority shall have the right to cause the officers of the county to enforce and collect the taxes due to the Authority, as provided in the law for the enforcement of state and county taxes. Taxes assessed and levied for the benefit of the Authority shall be payable and shall become delinquent at the same time, in the same manner, and subject to the same discount for advance payment as taxes levied by and for the benefit of the county in which the property is taxable. The fee for collecting delinquent taxes through prosecution of suit shall be fifteen percent (15%) of the taxes collected by such suit, such fee to be paid over and disbursed as are other fees of office. Concurrently with the levy of county taxes by the Commissioners Courts, the Board of Directors shall levy the tax on all taxable property in the Authority which is subject to such taxation and, if the Tax Assessor and Collector of the county has been so designated by the Board, the Board shall immediately certify such tax rate to the said Tax Assessor and Collector. The foregoing notwithstanding, the first year in which property is rendered for taxation, the valuations are initially equalized, and taxes initially assessed, levied and collected such

need not occur at the respective times required for such by laws governing counties, but such rendition, equalization, assessment, levy and collection may occur at any times during such year set by the Board.

Art. 8280—284. Galveston West Bay Municipal Utility District of Galveston County

Section 1. Galveston West Bay Municipal Utility District of Galveston County, Texas, created by Chapter 241, page 655, Acts of the 58th Legislature, Regular Session, 1963 (Article 8280—284, Vernon's Texas Civil Statutes) is hereby converted from a fresh water supply district to a water control and improvement district. The district shall have and exercise, and is hereby vested with, all of the rights, powers, privileges, authority and functions conferred and imposed by the general laws of this state now in force or hereafter enacted, applicable to water control and improvement districts created under authority of Article XVI, Section 59, Constitution of Texas, including without limitation those conferred by Chapter 3A, Title 128, Vernon's Texas Civil Statutes; but to the extent that the provisions of any such general laws may be in con-

flict or inconsistent with the provisions of this Act, the provisions of this Act shall prevail. All such general laws are hereby adopted and incorporated by reference with the same effect as if incorporated in full in this Act.

Not by way of limitation, the district shall have and is hereby expressly granted the following rights, powers, privileges and functions:

(a) The power and authority to make, purchase, construct, lease, or otherwise acquire property, works, facilities and improvements (whether previously existing or to be made, constructed or acquired) within or without the boundaries of the district necessary to carry out the powers and authority granted by this Act and the general laws.

(b) The right, power and authority to enter into contracts of not exceeding 40 years duration with persons, corporations, public or private, municipal corporations, political subdivisions of the State of Texas, and others, on such terms and conditions as the board of directors may deem desirable, fair and advantageous for:

(1) the purchase and sale of water, or either;

(2) the transportation, treatment and disposal of its domestic, industrial or communal wastes or the transportation, treatment and disposal of domestic, industrial or communal wastes of others;

(3) the continuing and orderly development of the lands and property within the district through the purchase, construction or installation of facilities, works or improvements which the district may otherwise be empowered and authorized to do or perform so that, to the greatest extent reasonably possible, considering sound engineering and economic practices, all of such lands and property may be placed in a position to ultimately receive the services of such facilities, works or improvements; and

(4) the performance of any of the rights or powers granted in this Act and the general laws relating to water control and improvement districts.

(c) The right, power and authority to purchase, construct, maintain and operate navigable canals or waterways, including bulkheads therefor, and all navigational systems or facilities auxiliary thereto, necessary in the operations and the development of the districts ports and waterways or in aid of navigation thereon.

The rights, powers, privileges, authority and functions herein granted to the district shall be subject to the continuing right of supervision of the state, to be exercised by and through the Texas Water Rights Commission.

The powers and duties conferred on the district are granted subject to the policy of the state to encourage the development and use of integrated area-wide waste collection, treatment and disposal systems to serve the waste disposal needs of the citizens of the state, it being an objective of the policy to avoid the economic burden to the people and the impact on the quality of the waters in the state which result from the construction and operation of numerous small waste collection, treatment and disposal facilities to serve an area when an integrated area-wide waste collection, treatment and disposal system for the area can be reasonably provided.

Sec. 2. It shall not be necessary for the board of directors to call or hold an election to confirm the conversion of the district from a fresh water supply district to a water control and improvement district and such district shall be validly converted from and after the passage of this Act.

Sec. 3. It shall not be necessary for the board of directors to call or hold a hearing on the exclusions of land or other property from the district; provided, however, that the board shall hold such hearing upon the written petition of any landowner or other property owner within the

district filed with the secretary of the board prior to the calling of the first bond election for the district. The board may act on said petition in the same manner that it may act on a petition for the addition of land under Article 7880—75, Vernon's Texas Civil Statutes and no notice of hearing shall be required. The board on its own motion may call and hold an exclusions hearing or hearings in the manner provided by the general law.

Sec. 4. The ad valorem plan of taxation shall be used by the district and it shall not be necessary for the board of directors to call or hold a hearing on the adoption of a plan of taxation.

Sec. 5. Land may be added to or annexed to the district in the manner now or hereafter provided by Chapter 3A, Title 128, Vernon's Texas Civil Statutes, as amended; provided, however, that the board of directors may require the petitioners, if land is being added in the manner provided by Article 7880—75, Vernon's Texas Civil Statutes, to assume their pro rata share of the voted but unissued bonds of the district and authorize the board to levy a tax on their property in payment for such unissued bonds, when issued, or if land is being annexed in the manner provided by Article 7880—75b, Vernon's Texas Civil Statutes, the board may also submit a proposition to the property taxpaying voters of the area to be annexed on the question of the assumption by the area to be annexed of its part of the tax or tax-revenue bonds of the district theretofore voted but not yet issued or sold and the levy of an ad valorem tax on all taxable property within the area to be annexed along with the tax in the rest of the district for the payment thereof. If the petitioners consent or if the election results favorably, the district shall be authorized to issue its voted but unissued tax or tax-revenue bonds even though the boundaries of the district have been changed since the voting or authorization of such bonds.

Sec. 6. All powers of the district shall be exercised by a board of five directors. Each director shall serve for his term of office as herein provided, and thereafter until his successor shall be elected or appointed and qualified. The present supervisors of the district or their duly appointed successor or successors shall serve as directors of the district until the second Tuesday of January, 1970. Succeeding directors shall be elected or appointed and shall serve for the term and in the manner provided by Article 7880—37, Vernon's Texas Civil Statutes. All vacancies in the office of director shall be filled in the manner provided by Article 7880—38, Vernon's Texas Civil Statutes; provided, however, if at any time the number of qualified directors shall be less than three because of the failure or refusal of one or more directors to qualify or serve, or because of his or their death or incapacitation, or for any other reason, then the county judge of the county in which the district is located shall appoint the necessary number of directors to fill all vacancies on the board. Three directors shall constitute a quorum of any meeting, and a concurrence of three shall be sufficient in all matters pertaining to the business of the district including the letting of construction contracts and the drawing of warrants in payment for construction work, the purchase of existing facilities, and matters relating to construction work. The board shall select from its number a president, vice president, secretary and such other officers as in the judgment of the board are necessary. The president may execute all contracts, construction or otherwise, entered into by the board of directors on behalf of the district. The vice president shall perform all duties and exercise all power conferred by this Act or the general law upon the president when the president is absent or fails or declines to act. Any order adopted or other action taken at a meeting of the board of directors at which the president is absent may be signed by the vice president, or the board may authorize the president to sign such order or other action. The treasurer may be appointed

by the board, and shall give bond in such amount as may be required by the board and conditioned that he or it will faithfully account for all money which shall come into his or its custody as treasurer of the district.

Sec. 7. The district shall comply with the requirements of Article 7880—139, Vernon's Texas Civil Statutes as it presently exists or as it may be hereafter amended.

Sec. 8. The district is hereby authorized to issue its negotiable tax bonds, revenue bonds, or tax and revenue bonds to provide funds for any or all of the purposes set out or incorporated by reference herein, including the acquisition of land therefor, and said bonds shall be issued in the manner provided and as authorized by Article 7880—90a, Vernon's Texas Civil Statutes and Chapter 3A of Title 128, Vernon's Texas Civil Statutes, as presently or hereafter amended, provided, however, that bonds payable solely from net revenues may be issued by resolution or order of the board of directors and no election therefor shall be necessary.

The bonds issued hereunder may be payable from all or any designated part or parts of the revenues of the district's properties and facilities or under specific contracts, as may be provided in the orders or resolutions authorizing the issuance of such bonds; and, except as the same may be inconsistent or in conflict with the provisions of this Act, the provisions of said Chapter 3A, Title 128, Vernon's Texas Civil Statutes, as presently or hereafter amended, shall apply to all bonds issued under the provisions of this Act (the provisions of this Act to govern and take precedence in the event of any such inconsistency or conflict).

Such bonds, within the discretion of the board of directors, may be additionally secured by a deed of trust or mortgage lien upon part or all of the physical properties of the district, and franchises, easements, water rights and appropriation permits, leases, and contracts and all rights appurtenant to such properties, vesting in the trustee power to sell such properties for payment of the indebtedness, power to operate the properties and all other powers and authority for the further security of the bonds. Such trust indenture, regardless of the existence of the deed of trust or mortgage lien on the properties, may contain provisions prescribed by the board of directors for the security of the bonds and the preservation of the trust estate, and may make provisions for amendment or modification thereof and the issuance of bonds to replace lost or mutilated bonds, and may condition the right to expend district money or sell district property upon approval of a registered professional engineer selected as provided therein and may make provisions for investment of funds of the district. Any purchaser under a sale under the deed of trust or mortgage lien, where one is given, shall be absolute owner of the properties, facilities and rights so purchased and shall have the right to maintain and operate same.

In the orders or resolutions authorizing the issuance of any revenue, tax-revenue, revenue refunding, or tax-revenue refunding bonds authorized hereunder, the district's board of directors may provide for the flow of funds, the establishment and maintenance of the interest and sinking fund or funds, reserve fund or funds, and other funds, and may make additional covenants with respect to the bonds and the pledged revenues and the operation and maintenance of those improvements and facilities (the revenues of which are pledged), including provisions for the operation or for the leasing of all or any part of said improvement and facilities and the use or pledge of moneys derived from such operation contracts and leases, as such board may deem appropriate. Such orders or resolutions may also prohibit the further issuance of bonds or other obligations payable from the pledged revenues, or may reserve the right to issue additional bonds to be secured by a pledge of and payable from said revenues on a parity with, or subordinate to, the lien and pledge in support of the bonds being issued, subject to such conditions as are set forth in such orders or resolutions. Such orders or resolutions may contain other

provisions and covenants, as the district's board may determine, not prohibited by the Constitution of Texas or by this Act, and said board may adopt and cause to be executed any other proceedings or instruments necessary and/or convenient in the issuance of any such bonds.

From the proceeds of sale of any bonds issued hereunder, the district may appropriate or set aside out of the bond proceeds an amount for the payment of interest, administrative and operating expenses expected to accrue during the period of construction (such period not to exceed three years), as may be provided in the bond orders or resolutions, and an amount necessary to pay all expenses incurred and to be incurred in the issuance, sale and delivery of the bonds. Moneys in the interest and sinking fund or funds and the reserve fund or funds, and in the other fund or funds established or provided for in the bond orders or resolutions may be invested in such manner and in such securities as may be provided in the bond order or orders or may be placed on interest-bearing time deposit. Until such time as the bond proceeds are needed to carry out the bond purpose, such proceeds may be invested in securities of the United States Government or any agency thereof or may be placed on interest-bearing time deposit, either or both. Any such revenue bonds, tax bonds, revenue refunding bonds, or tax-revenue refunding bonds hereinafter mentioned may be registrable as to principal, or as to both principal and interest.

By orders or resolutions adopted by its board of directors, said district shall have the power and authority to issue tax or revenue refunding bonds or tax-revenue refunding bonds to refund revenue bonds or tax-revenue bonds (either original bonds or refunding bonds) theretofore issued by such district. Said refunding bonds shall be approved by the attorney general as in the case of original bonds, and shall be registered by the comptroller of public accounts upon the surrender and cancellation of the bonds to be refunded, but in lieu thereof, the orders or resolutions authorizing their issuance may provide that they shall be sold and the proceeds thereof deposited in the place or places where the underlying bonds are payable, in which case the refunding bonds may be issued provided an amount sufficient to pay the interests and principal on the underlying bonds to their maturity dates, or to their option dates if said bonds have been duly called for payment prior to maturity according to their terms, has been so deposited in the place or places where said underlying bonds are payable, and the comptroller of public accounts shall register them without the surrender and cancellation of the underlying bonds.

After any bonds have been authorized by the district hereunder, such bonds and the record relating to their issuance shall be submitted to the Attorney General of the State of Texas for his examination as to the validity thereof, and after said attorney general has approved the same, such bonds shall be registered by the Comptroller of Public Accounts of the State of Texas. When such bonds have been approved by the attorney general, registered by the comptroller of public accounts, and delivered to the purchasers, they shall thereafter be incontestable except for forgery or fraud. When any bonds recite that they are secured partially or otherwise by a pledge of the proceeds of a contract or contracts made between the district and another party or parties (private or public) a copy of such contract or contracts and the proceedings authorizing the same may or may not be submitted to the attorney general along with the bond record and, if so submitted, the approval by the attorney general of the bonds shall constitute an approval of such contract or contracts, and thereafter the contract or contracts shall be incontestable for any cause except for forgery or fraud.

Sec. 9. The power of eminent domain of the district shall be limited to the county in which the district is situated and to situations where the exercise of such power is necessary to carry out the purposes of creation.

In the event that the district, in the exercise of the power granted hereunder, makes necessary the relocation, raising, lowering, rerouting or changing the grade of or altering the construction of, any highway, railroad, electric transmission line, telegraph or telephone properties and facilities, or pipeline, all such necessary relocation, raising, lowering, rerouting, changing of grade or alteration of construction shall be accomplished at the sole expense of the district. The term "sole expense" shall mean the actual cost of such relocation, raising, lowering, rerouting, or change in grade or alteration of construction in providing comparable replacement without enhancement of such facilities, after deducting therefrom the net salvage value derived from the old facility.

Sec. 10. The board of directors of the district shall select any bank or banks in the State of Texas to act as depository or depositories for the funds of the district. To the extent that funds in the depository bank or banks are not insured by the Federal Deposit Insurance Corporation, they shall be secured in the manner provided by law for the security of county funds. Any director of the district may be a shareholder in said depository bank or banks.

A complete system of accounts shall be kept by the district and an audit of its affairs for each year shall be prepared by an independent certified public accountant, or a firm of independent certified public accountants, of recognized integrity and ability. The fiscal year of the district shall be from January 1 to December 31 of the same year, unless and until changed by the board of directors. A written report of the audit shall be delivered to each member of the board of directors not later than 90 days after the close of each fiscal year; and a copy of such audit report shall be delivered upon request to the holder or holders of at least 25 percent of the then outstanding bonds of the district; and at least five additional copies of said audit shall be delivered to the office of the district, one of which shall be kept on file, and shall constitute a public record open to inspection by any interested person or persons within normal office hours; and one copy of such audit report shall be filed with the Texas Water Rights Commission. The cost of such audit shall be paid for by the district.

Sec. 11. The board of directors shall designate, establish and maintain a district office as provided by Article 7880—44, Vernon's Texas Civil Statutes, and, in addition, may establish a second district office outside the district. Either or both district offices so established and maintained may be a private residence, office or dwelling in which event such private residence, office or dwelling is hereby declared a public place for matters relating to the district's business.

If the board of directors establishes a district office outside the district, it shall give notice of the location of that district office by filing a true copy of its resolution establishing the location of such district office with the Texas Water Rights Commission, by filing a true copy in the Water Control and Improvement District records of the county in which the district is located and also by publishing the location in a newspaper of general circulation in said county.

If the location of the district office outside the district is thereafter changed, notice of such change shall be given in the same manner.

Sec. 12. Bonds of the district may be sold at a price and upon the terms determined by the board of directors of the district, except that such bonds shall not be sold for a less amount than provided by law. No bonds shall be sold by the district until it has solicited bids therefor.

Sec. 13. All elections to authorize the issuance of bonds by the district shall be held pursuant to the general law applicable to water control and improvement districts; provided, however, that if the first bond election fails, Article 7880—77b, Vernon's Texas Civil Statutes, or any other provision of the general law pertaining to dissolution of the district when a bond election fails, shall not apply.

Sec. 14. Notice of all elections may be given under the hand of either the president or the secretary of the district. The returns of all elections shall be canvassed by the board of directors of the district as soon as reasonably practicable after an election.

Sec. 15. All bonds and refunding bonds of the district shall be and are hereby declared to be legal, eligible and authorized investments for banks, savings and loan associations, insurance companies, fiduciaries, and for the sinking funds of cities, towns, villages, counties, school districts, or other political corporations or subdivisions of the State of Texas and for all public funds of the State of Texas or its agencies, including the State Permanent School Fund. Such bonds and refunding bonds shall be eligible to secure the deposit of any and all public funds of the State of Texas, cities, towns, villages, counties, school districts, or other political corporations or subdivisions of the State of Texas; and such bonds shall be lawful and sufficient security for said deposits to the extent of their face value, when accompanied by all unmatured coupons appurtenant thereto.

Sec. 16. Except for its creation, the district is expressly made subject to all provisions of Article 970a, Vernon's Texas Civil Statutes, as amended. The district shall also be subject to the provisions of Article 1182c—1, Vernon's Texas Civil Statutes, as amended.

Sec. 17. The accomplishment of the purposes stated in this Act being for the benefit of the people of this state and for the improvement of their properties and industries, the district in carrying out the purposes of this Act will be performing an essential public function under the constitution, and the district shall not be required to pay any tax or assessment on its properties or any part thereof or on any purchases made by the district.

Sec. 18. All governmental acts and proceedings of the board of supervisors of the district which are not the subject of litigation are hereby in all things validated.

Sec. 19. Sections 2, 3, 4, 5 and 6 of Chapter 241, Acts of the 58th Legislature, Regular Session, 1963, are hereby repealed.

Sec. 20. If any word, phrase, clause, paragraph, sentence, part, portion or provision of this Act or the application thereof to any person or circumstance shall be held to be invalid or unconstitutional, the remainder of the Act shall nevertheless be valid, and the Legislature hereby declares that this Act would have been enacted without such invalid or unconstitutional word, phrase, clause, paragraph, sentence, part, portion or provision.

Sec. 21. It is determined and found that a proper and legal notice of the intention to introduce this Act, setting forth the general substance of this Act, has been published at least 30 days and not more than 90 days prior to the introduction of this Act in the Legislature of Texas, in a newspaper having general circulation in Galveston County, Texas; that a copy of such notice and a copy of this Act have been delivered to the Governor of Texas who has submitted such notice and Act to the Texas Water Rights Commission, and said Texas Water Rights Commission has filed its recommendation as to such Act with the Governor, Lieutenant Governor and Speaker of the House of Representatives of Texas within 30 days from the date such notice and Act were received by the Texas Water Rights Commission; and that all the requirements and provisions of Article XVI, Section 59(d), Constitution of the State of Texas have been fulfilled and accomplished as therein provided.

A petition for an annexation of such territory shall be signed by a majority of landowners therein or by 50 landowners, if the number of such landowners is more than 50. Such petition shall be filed with the Secretary of the Board of Directors. It shall be the duty of the Board to pass an order fixing a time and place at which such petition shall be heard, which date shall be not less than 30 days from date of such

order. The Secretary shall issue notice of such time and place of hearing and which notice shall describe the territory proposed to be annexed. The Secretary shall execute said notice by posting a copy thereof in one public place in the Authority, and one copy in a public place within the territory proposed to be annexed; said notices to be posted for 15 days prior to date of said hearing. Publication of copy of such notice shall be made in a newspaper of general circulation in the county of the Authority and the county or counties in which the lands proposed to be annexed lie, one time and at least 15 days prior to such hearing. If upon the hearing of such petition it is found that the proposed addition is to the advantage of the Authority, then the Board by resolution duly entered upon its minutes may receive such proposed territory as an addition to and to become a part of the Authority. The added territory shall bear its pro rata part of all indebtedness or taxes that may be owed, contracted, or authorized by said Authority. Such resolution need not include all of the land described in the petition if upon the hearing a modification or change is found necessary or desirable; provided, however, annexation of the territory shall not become final until ratified by a majority vote of a separate election held within the boundaries of the Authority, and by a majority vote of a separate election held within the territory to be added thereto. The manner of holding such election and the notice for such election, manner, and the time of giving such notice, and qualifications of voters therein shall be in all things governed by provisions of Chapter 25 of the Acts of 1925, relating to elections held for confirmation of water control and improvement districts. In the event the Authority has outstanding debts or taxes then at the same time and at the same election the proposition for assumption of its proportion of such debts or taxes by such territory if added shall also be submitted.

Sec. 12a added by Acts 1969, 61st Leg., p. 789, ch. 264, emerg. eff. May 21, 1969.

Art. 8280—365. Blue Ridge Municipal Utility District

* * * * *

Sec. 11. The district shall have the right, power and authority to enter into contracts with the United States of America, the State of Texas, or any political subdivision thereof, municipal corporations, private corporations, and persons, including but not limited to owners of land, developers or lessees of land and properties and others, as may be necessary or appropriate in connection with the facilities, works or improvements as the district may be authorized and empowered to perform including, but not by way of limitation, the transportation, treatment and disposal of its domestic, industrial or communal wastes or the transportation, treatment and disposal of domestic, industrial or communal wastes of others, to include, but not by way of limitation, the purposes of the Regional Waste Disposal Act (Article 7621g, Vernon's Texas Civil Statutes) the provisions of which are expressly made applicable to the district, and for the purchase and sale of water, or either. Such contracts shall be entered into so that, to the greatest extent reasonably possible, considering sound engineering and economic practices, the area may be placed in position ultimately to receive the services of such facilities, works or improvements, and, but not by way of limitation, to accomplish the purposes of the Regional Waste Disposal Act. The District shall have the power to levy, collect and pledge taxes for the payment of part or all obligations incurred under contracts to purchase water if said taxes are authorized at an election held for that purpose in the manner authorized by Article 7880—107, Vernon's Texas Civil Statutes, as amended, which election may be held in conjunction with an election authorizing tax bonds or authorizing a maintenance tax. No election shall be required of any city or town of the district for approval of contracts with or by the district, if such contracts are not payable from funds to be derived from taxation, but such contracts may be entered into without the necessity of an election by any contracting party. Such contracts may be for any term not to exceed 40 years. The rights, powers, privileges, authority, and functions conferred on the district are granted subject to the policy of the State to encourage the development and use of integrated area-wide waste collection, treatment and disposal systems to serve the waste disposal needs of the citizens of the State, it being an objective of the policy to avoid the economic burden to the people and the impact on the quality of the waters in the State which result from the construction and operation of numerous small waste collection, treatment and disposal facilities to serve an area when an integrated area-wide waste collection, treatment and disposal system for the area can be reasonably provided.

The district shall have the power and authority to enter into a contract with the City of Houston with respect to compliance with the policy of the city on the formation of water control and improvement districts within such city's extraterritorial jurisdiction, generally to the effect that:

- (a) Bonds may be issued by the district only for the purpose of purchasing and constructing, or purchasing or constructing, or otherwise acquiring waterworks systems, sanitary sewer systems, storm sewer systems and drainage facilities, or parts of such systems or facilities, and to make any and all necessary purchases, constructions, improvements, extensions, additions and repairs thereto, and to purchase or acquire

all necessary land, right-of-way, easements, sites, equipment, buildings, plants, structures and facilities therefor and to operate and maintain same, and to sell water and other services within or without the boundaries of the district. Such bonds issued by the district, other than refunding bonds, shall only be sold after the taking of public bids therefor, and none of such bonds, other than refunding bonds, shall be sold for less than 100 percent of their face value and shall bear the rate of interest agreed upon by the city and the district, but not to exceed the maximum legal interest rate as prescribed by the Legislature in the general laws of this state applicable to water control and improvement district created under authority of Article XVI, Section 59, Constitution of Texas.

(b) The district shall submit the plans and specifications for the construction of water, sanitary sewer and drainage facilities to serve such district to such city for approval and such district must obtain the approval thereof by such city before commencing construction thereof. The construction of the district's water, sanitary sewer and drainage facilities shall be in accordance with the approved plans and specifications and with applicable standards and specifications of the City of Houston, and during the progress of the construction and installation of such facilities, the Director of Public Works of the City of Houston, or an employee thereof, shall make periodic on the ground inspections, and no such construction shall be started or undertaken by the district unless it has in its possession the following:

(c) A certificate of the district's engineer, who shall be a registered professional engineer under the laws of the State of Texas, that, in his opinion, such construction conforms to said city's established standards and specifications; and a letter or certificate of the Director of the Department of Public Works of the City of Houston (or the successor, department, or agency of said Department of Public Works) that, in his opinion, such construction conforms to said city's established standards and specifications.

Sec. 11 amended by Acts 1969, 61st Leg., p. 1246, ch. 392, § 5, emerg. eff. May 29, 1969.

TITLE 130—WORKMEN'S COMPENSATION LAW

PART 4

Art.
8309e—2. Municipal employees [New].

PART 1

Art. 8306. Damages and compensation for personal injuries

Art. 8306, sec. 7c. Attorneys' fees regulated by the board

Sec. 7c. All fees of attorneys for representing claimants before the Board under the provisions of this law shall be subject to the approval of the Board. No attorneys' fees for representing claimants before the Board shall be allowed or approved against any party or parties not represented by such attorney, nor exceeding an amount equal to twenty-five per cent (25%) of the total recovery, in addition to the reasonable expenses incurred by the attorney in the preparation and presentation of the said claim before the Board, such expenses to be allowed by the Board. Where an attorney represents only a part of those interested in the allowance of a claim before the Board and his services in prosecuting such claim and obtaining an award there inures to the benefit of others jointly interested therein, then the Board may take these facts into consideration and allow the attorney a reasonable charge, to be assessed against the interest of those receiving benefits from the service of such attorney. The attorneys' fees herein provided for may be redeemed by the association by the payment of a lump sum or may be commuted by the agreement of the parties subject to the approval of the Board, but not until the claim represented by said attorney has been finally determined by the Board and recognized and accepted by the association. After the approval, as first above provided for, if the association be notified in writing of such claim or agreement for legal services, the same shall be a lien against any amount thereafter to be paid as compensation; provided, that where the employee's compensation is payable by the association in periodical installments, the Board shall fix at the time of approval the proportion of each installment to be paid on account of said legal services.

Sec. 7c amended by Acts 1969, 61st Leg., p. 48, ch. 18, § 6, emerg. eff. May 18, 1969.

Section 1 of the amendatory act of 1969 stated its purpose; section 13 was a savings clause; section 14 was a severability provision; and section 15 was a repealer. For provisions, see note under sec. 8 of this article.

Art. 8306, sec. 7d. Attorneys' fees regulated by the court

Sec. 7d. For representing the interest of any claimant in any manner carried from the Board into the courts, it shall be lawful for the attorney representing such interest to contract with any beneficiary under this law for an attorneys' fee for such representation, not to exceed twenty-five per cent (25%) of the amount recovered, such fee for services so rendered to be fixed and allowed by the trial court in which such matter may be heard and determined.

In fixing and allowing such attorneys' fees the court must take into consideration the benefit accruing to the beneficiary as a result of such services. No attorneys' fees (other than the amount which the Board may have approved) shall be allowed for representing a claimant in the trial court unless the court finds that benefits have accrued to the claimant by virtue of such representation, and then such attorneys' fees may be allowed only on a basis of services performed and benefits accruing to the beneficiary.

For Annotations and Historical Notes, see V.A.T.S.

Provided, however, that in all cases involving fatal injuries where the Association admits liability on all issues involved and tenders payments of maximum benefits in writing under this Act while the death benefits claim of such beneficiaries is pending before the Board, then no attorney fee shall be allowed.

Sec. 7d amended by Acts 1969, 61st Leg., p. 48, ch. 18, § 7, emerg. eff. May 18, 1969.

Section 1 of the amendatory act of 1969 stated its purpose; section 13 was a savings clause; section 14 was a severability provision; and section 15 was a repealer. For provisions, see note under sec. 8 of this article.

The association shall not be liable for replacing or repairing any artificial appliances so furnished. The cost of such artificial appliances so furnished to any such employee shall be in keeping with the salary or wages received by such employee.

The purpose of this Act is to provide prompt and fair workmen's compensation payments for injured workers, to minimize the expense and delay of court action and the resulting drain on the resources of the claimant; to provide for equitable administration of the law with the goal of channeling the largest possible amount of the premium dollar into the pocket of the injured worker."

Section 16 of Acts 1969, 61st Leg., p. 48, ch. 18, an emergency provision, was amended by Acts 1969, 61st Leg., p. 334, ch. 121, § 1, to provide that Chapter 18 "shall take effect and be in force at 12:01 A.M., May 18, 1969."

Art. 8306, sec. 10. Total incapacity

While the incapacity for work resulting from the injury is total, the association shall pay the injured employee a weekly compensation equal to sixty per cent (60%) of his average weekly wages, but not more than Forty-nine Dollars (\$49) nor less than Twelve Dollars (\$12) and in no case shall the period covered by such compensation be greater than four hundred and one (401) weeks from the date of injury. The period covered by such compensation shall be in no case greater than three hundred (300) weeks; provided that in no case shall the period of compensation for total and partial incapacity exceed four hundred and one (401) weeks from the date of injury. Compensation for all partial incapacity resulting from a general injury shall be computed in the manner provided in this Section, and shall not be computed on a basis of a percentage of disability.

For the injuries enumerated in the following schedule the employee shall receive in lieu of all other compensation except medical aid, hospital services and medicines as elsewhere herein provided, a weekly compensation equal to sixty per cent (60%) of the average weekly wages of such employee, but not less than Twelve Dollars (\$12) per week nor exceeding Forty-nine Dollars (\$49) per week, for the respective periods stated herein, to wit:

For the loss of a thumb, sixty per cent (60%) of the average weekly wages during sixty (60) weeks.

For the loss of a first finger, commonly called the index finger, sixty per cent (60%) of the average weekly wages during forty-five (45) weeks.

For the loss of a second finger, sixty per cent (60%) of the average weekly wage during thirty (30) weeks.

For the loss of a third finger, sixty per cent (60%) of the average weekly wages during twenty-one (21) weeks.

For the loss of a fourth finger, commonly known as the little finger, sixty per cent (60%) of the average weekly wages during fifteen (15) weeks.

The loss of the second or distal phalange of the thumb shall be considered to be equal to the loss of one-half ($\frac{1}{2}$) of such thumb; the loss of more than one-half ($\frac{1}{2}$) of such thumb shall be considered to be equal to the loss of the whole thumb.

The loss of the third or distal phalange of any finger shall be considered to be equal to the loss of one-third ($\frac{1}{3}$) of such finger.

The loss of more than the middle and distal phalange of any finger shall be considered to be equal to the loss of the whole finger, provided that in no case shall the amount received for the loss of a thumb and more than one (1) finger on the same hand exceed the amount provided in this schedule for the loss of a hand.

For the loss of the metacarpal bone (bone or palm) for the corresponding thumb, finger or fingers above, add ten (10) weeks to the number of weeks as above subject to the limitation that in no case shall the amount received for the loss or injury to any one (1) hand be more than for the loss of the hand.

For ankylosis (total stiffness of) or contracture (due to scars or injuries) which make the fingers useless, the same number of weeks shall apply to such finger or fingers or parts of fingers (not thumb) as given above.

For the loss of a hand, sixty per cent (60%) of the average weekly wage during one hundred and fifty (150) weeks.

For the loss of an arm at or above the elbow, sixty per cent (60%) of the average weekly wage during two hundred (200) weeks.

For the loss of one (1) of the toes other than the great toe, sixty per cent (60%) of the average weekly wages during ten (10) weeks.

For the loss of the great toe, sixty per cent (60%) of the average weekly wages during thirty (30) weeks.

The loss of more than two-thirds of any toe shall be considered to be equal to the loss of the whole toe.

The loss of less than two-thirds of any toe shall be considered to be equal to the loss of one-half ($\frac{1}{2}$) of the toe.

For the loss of a foot, sixty per cent (60%) of the average weekly wages during one hundred and twenty-five (125) weeks.

For the loss of a leg, at or above the knee, sixty per cent (60%) of the average weekly wages during two hundred (200) weeks.

For the total and permanent loss of the sight of one (1) eye, sixty per cent (60%) of the average weekly wages during one hundred (100) weeks.

In the foregoing enumerated cases of permanent, partial incapacity, it shall be considered that the permanent loss of the use of a member shall be equivalent to and draw the same compensation as the loss of that member.

For the complete and permanent loss of the hearing in both ears, sixty per cent (60%) of the average weekly wages during one hundred and fifty (150) weeks.

For the loss of an eye and leg above the knee, sixty per cent (60%) of the average weekly wages during a period of three hundred and fifty (350) weeks.

For the loss of an eye and an arm above the elbow, sixty per cent (60%) of the average weekly wages during a period of three hundred and fifty (350) weeks.

For the loss of an eye and a hand, sixty per cent (60%) of the average weekly wages during a period of three hundred and twenty-five (325) weeks.

For the loss of an eye and a foot, sixty per cent (60%) of the average weekly wages during a period of three hundred (300) weeks.

Where the employee sustains concurrent injuries resulting in concurrent incapacities, he shall receive compensation only for the injury which

produces the longest period of incapacity; but this Section shall not affect liability for the concurrent loss or the loss of the use thereof of more than one (1) member, for which member compensation is provided in this schedule, compensation for specific injuries under this law shall be cumulative as to time and not concurrent.

In all cases of permanent partial incapacity it shall be considered that the permanent loss of the use of the member is equivalent to, and shall draw the same compensation as the loss of that member; but the compensation in and by said schedule provided shall be in lieu of all other compensation in such cases.

In all other cases of partial incapacity, including any disfigurement which will impair the future usefulness or occupational opportunities of the injured employee, compensation shall be determined according to the percentage of incapacity, taking into account among other things any previous incapacity, the nature of the physical injury or disfigurement, the occupation of the injured employee, and the age at the time of the injury. The compensation paid therefor shall be calculated by first determining a basic figure amounting to sixty per cent (60%) of the average weekly wages of the employee, but which basic figure shall not exceed Forty-nine Dollars (\$49); such basic figure shall then be multiplied by the percentage of incapacity caused by the injury, and the result shall be the weekly compensation which shall be paid for such period not exceeding three hundred (300) weeks as the Board may determine. Whenever the weekly payments under this paragraph would be less than Three Dollars (\$3) per week, the period may be shortened, and the payments correspondingly increased by the Board.

(a) In every case of the death of an employee under this Act where there is no person entitled to compensation surviving said employee, the association shall pay to the Industrial Accident Board the sum of Four Thousand Two Hundred Dollars (\$4,200) to be deposited with the Treasurer of the State for the benefit of said Fund and the Board shall direct the distribution thereof.

(b) When the total amount of all such payments into the Fund, together with the accumulated interest thereon, equals or exceeds One Hundred Forty Thousand Dollars (\$140,000) in excess of existing liabilities, no further payments shall be required to be paid to said Fund; but whenever thereafter the amount of such Fund shall be reduced below Seventy Thousand Dollars (\$70,000) by reason of payments from such Fund, the payments to such Fund shall be resumed forthwith, and shall continue until such Fund again amounts to One Hundred Forty Thousand Dollars (\$140,000) including accumulated interest thereon.

Purpose

Sec. 5. It is the purpose of this Act that the compensation herein provided for shall be paid from week to week and as it accrues and directly to the person entitled thereto, unless the liability is redeemed as in such cases provided elsewhere herein.

Examination and treatment of claimants; refusal to submit; effect upon compensation; expenses; summary procedure

Sec. 6. (a) The Board may require any employee claiming to have sustained injury to submit himself for examination before the Board or someone acting under its authority at some reasonable time and place within the state, and as often as may be reasonably ordered by the Board to a physician or physicians, chiropractor or chiropractors, authorized to practice under the laws of this state. If the employee of the city, town, or village requests, he or it shall be entitled to have a physician or physicians, chiropractor or chiropractors, of his or its own selection present to participate in such examination. Refusal of the employee to submit to an examination shall deprive him of his right to compensation during the continuance of such refusal. When a right to compensation is thus suspended, no compensation shall be payable in respect to the period of suspension. If any employee shall persist in insanitary or injurious practices which tend to either imperil or retard his recovery, or shall refuse to submit to such medical, surgical, chiropractic, or other remedial treatment recognized by the state, as is reasonably essential to promote his recovery, the Board may in its discretion order or direct the city, town or village to reduce or suspend the compensation of any such injured employee. No compensation shall be reduced or suspended under the terms of this section without reasonable notice to the employee and an opportunity to be heard.

With the consent of the Association, an employee may at any time have treatment for his injuries or occupational disease by prayer or spiritual means through the application or use of the principles, tenets, or teachings of any established church without the use of any drug or material remedy, provided sanitary and quarantine laws and regulations are complied with; and provided further, that all those so ministering or offering to minister to the injured or sick employee are bona fide members of such

church. An employee having treatment by prayer or spiritual means shall be compensated for his injuries, occupational disease, and time, and allowed payment for treatment and necessary services in connection therewith, as fully as if any other form of treatment had been employed. Such employee, however, shall submit to all physical examinations as required by law or as may be directed by the Board or that may be requested by the Association.

(b) The city, town, or village shall have the privilege of having any injured employee examined by a physician or physicians, chiropractor or chiropractors, of its own choice, at reasonable times, at a place or places suitable to the condition of the injured employee and convenient and accessible to him. The city, town, or village shall pay for the examination and the reasonable expense incident to the injured employee in submitting thereto. The injured employee shall have the privilege to have a physician or chiropractor of his own selection present to participate in the examination. Provided, when the examination is directed by the Board or the city, town, or village, the city, town, or village shall pay the fee of the physician or chiropractor selected by the employee, the fee to be fixed by the Board.

(c) Process and procedure shall be as summary as may be under this Act. The Board or any member thereof shall have the power to subpoena witnesses, administer oaths, inquire into matters of fact, and examine such parts of the books and records of the parties to a proceeding as relate to questions in dispute. All rulings and decisions of the Board relating to disputed claims shall be upon questions of fact and in accord with the provisions of this Act.

Determination of Board; notice not to abide by decision; suit; venue; maximum recovery; failure to comply with Board's order or prosecute suit; penalties

Sec. 7. (a) All questions arising under this Act, if not settled by agreement of the parties interested therein and within the provisions of this Act, shall, except as otherwise provided, be determined by the Board. Any interested party who is not willing and does not consent to abide by the final ruling and decision of the Board shall within 20 days after the rendition of said final ruling and decision by the Board, file with the Board notice that he will not abide by the final ruling and decision. And he shall within 20 days after giving notice bring suit in the county where the injury occurred to set aside the final ruling and decision and the Board shall proceed no further toward the adjustment of such claim, other than hereinafter provided. Whenever suit is brought, the rights and liability of the parties thereto shall be determined by the provision of this Act and the suit of the injured employee or person suing on account of the death of the employee shall be against the city, town or village. If the final order of the Board is against the city, town, or village, then the city, town, or village shall bring suit to set aside the final ruling and decision of the Board, if it so desires, and the court shall in either event determine the issues in the cause instead of the Board upon trial de novo and the burden of proof shall be upon the party claiming compensation. The Board shall furnish any interested party in the claim pending in court upon request, free of charge, with a certified copy of the notice of the city, town, or village becoming an insurer filed with the Board and the same when properly certified to shall be admissible in evidence in any court in this state upon trial of the claim therein pending and shall be prima facie proof of all facts stated in the notice in the trial of the cause unless same is denied under oath by the opposing party therein.

(b) In case of recovery the same shall not exceed the maximum compensation allowed under the provisions of this Act. If any party to any such final ruling and decision of the Board, after having given notice as above provided, fails within 20 days to institute and prosecute a suit to set the same aside, then the final ruling and decision shall be binding upon

For Annotations and Historical Notes, see V.A.T.S.

all parties thereto, and, if the same is against the city, town, or village, it shall at once comply with the final ruling and decision.

(c) In all cases where the Board shall make a final order, ruling, or decision, as provided in the preceding Section and against the city, town, or village and the city, town, or village shall fail or refuse to obey or comply with the same and shall fail or refuse to bring suit to set the same aside as in said Section is provided, then in that event the claimant in addition to the rights and remedies given him and the Board in said Section may bring suit in a court of competent jurisdiction, upon the order, ruling, or decision. If he secures a judgment sustaining the order, ruling, or decision in whole or in part, he shall also be entitled to recover the further sum of 12 percent as damages upon the amount of compensation so recovered in said judgment, together with a reasonable attorney's fee for the prosecution and collection of such claim.

(d) Where the Board has made an award against the city, town, or village requiring the payment to an injured employee or his beneficiaries of any weekly or monthly payments, under the terms of this Act, and the city, town, or village should thereafter fail or refuse, without justifiable cause, to continue to make the payments promptly as they mature, then the injured employee or his beneficiaries, in case of his death, shall have the right to mature the entire claim and to institute suit thereon to collect the full amount thereof, together with 12 percent penalties and attorney's fees as herein provided for. Suit may be brought under provisions of this section, either in the county where the accident occurred, or in any county where the claimants reside, or where one or more of such claimants may have his place of residence at the time of the institution of the suit.

Record of injuries; reports to Board

Sec. 8. The city, town, or village shall hereafter keep a record of all injuries fatal or otherwise, sustained by its employees in the course of their employment. Within eight days after the occurrence of an accident resulting in an injury to an employee, causing his absence from work for more than one day, a written report thereof shall be made to the Board on blanks to be procured from the Board for that purpose. Upon the termination of the incapacity of the injured employee, or if the incapacity extends beyond a period of 60 days, the department shall make a supplemental report upon blanks to be procured for that purpose. The report shall contain the name, age, sex, and occupation of the injured employee and the character of work in which he was engaged at the time of the injury, and shall state the place, date, and hour of receiving such injury and the nature and cause of the injury and other information as the Board may require. The city, town, or village shall be responsible for the submission of the reports in the time specified in this section.

Rules and regulations; forms

Sec. 9. The city, town, or village is authorized to promulgate and publish rules and regulations and to prescribe and furnish forms as may be necessary to the effective administration of this Act, and the city, town, or village shall have authority to make and enforce rules for the prevention of accidents and injuries as may be deemed necessary.

Orders, etc. of Board; admissibility as evidence; certified copies; fees

Sec. 10. (a) Any order, award, or proceeding of the Board when duly attested by any member of the Board or its secretary shall be admissible as evidence of the act of the Board in any court of this state.

(b) Upon the written request and payment of the fees therefor, which fees shall be the same as those charged for similar services in the secretary of state's office, the Board shall furnish to any person entitled thereto a certified copy of any order, award, decision, or paper on file in the office of the Board and the fees so received for such copies shall be

paid into the State Treasury and credited to the general revenue fund. No fee or salary shall be paid to any person on the Board for making the copies in excess of the fees charged for such copies.

Notice of suit to Board; venue; transfer of cases

Sec. 11. Any interested party who is not willing and does not consent to abide by the final ruling and decision of the Board shall, in the manner and within the time provided by Section 7 of this Act file notice with the Board, and bring suit in the county where the injury occurred to set aside said final ruling and decision; however, in the event such suit is brought in any county other than the county where the injury occurred, the court in which same is filed shall upon ascertaining that it does not have jurisdiction to render judgment upon the merit, transfer the case to the proper court in the county where the injury occurred. Provided, however, that notice of the transfer shall be given to the parties and the suit when filed in the court to which the transfer is made, shall be considered for all purposes, the same as if originally filed in that court.

Appropriations for disbursements; separate account; report

Sec. 12. (a) The city, town, or village is hereby authorized to set aside from available appropriations, other than itemized salary appropriations, in an amount not to exceed five percent of the annual employee payroll of the city, town, or village for the payment of all costs, administrative expenses, charges, benefits, insurance, and awards authorized by this Act.

(b) The amount so set aside shall be set up in a separate account in the records of the city, town, or village which account shall show the disbursements authorized by this Act; provided the amount so set aside shall not exceed five percent of the annual employee payroll at any one time. A statement of the amount set aside for the disbursements from the account shall be included in an annual report made to the city, town, or village treasurer and the duly and legally constituted governing body of the city, town, or village.

Suits and proceedings; representation of municipalities; public utilities

Sec. 13. The city, town, or village attorney or his assistants, shall represent the city, town, or village in the bringing of defense or suits and proceedings in connection with workmen's compensation benefits provided by the city, town, or village, as a self-insurer, except in cases where municipal utilities are operated by boards of trustees set up and appointed in accordance with Article 1115, Revised Civil Statutes, 1925, and similar statutes, and in such instances the regularly employed attorneys for the boards of trustees shall represent the city in all cases and proceedings involving workmen's compensation for the employees employed under the jurisdiction of the boards of trustees and for whom benefits have been provided by the Board on a self-insurer basis.

**Appeal to district or county court; notice and copy of judgment to Board;
duty of clerk of court**

Sec. 14. That in every case appealed from the Board to the district or county court, the clerk of such court shall, within 20 days after the filing thereof, mail to the Board a notice giving the style, number, and date of the filing of the suit, and shall, within 20 days after judgment is rendered in the suit, mail to the Board a certified copy of the judgment. The duty devolved upon the district and county clerks under this Act shall constitute a part of their regular duties and for the services they shall not be entitled to any fee. In every case the attorney preparing the judgment shall file the original and a copy of the same with the clerk of the court. However, the failure of the attorney to comply with this provision shall not excuse the failure of the clerk of a district or county court to mail a certified copy of the judgment to the Board as above provided. Any county or district clerk who fails to comply with the provisions of this Act shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than \$250.

(b) If after such examination and reading the court finds no probable cause to believe such material to be harmful to minors, the court shall cause an endorsement to that effect to be placed and dated upon the petition and shall thereupon dismiss the action.

(c) If after such examination and reading the court finds probable cause to believe such material to be harmful to minors, the court shall cause an endorsement to that effect to be placed and dated upon the petition whereupon it shall be the responsibility of the Attorney General or the district or county attorney within the respective jurisdictions, as the case may be, promptly to request the clerk of the court to issue citation and to copy such endorsement upon such number of duplicates of such petition as are needed for the service of citation, to each copy of which citation shall be attached a copy of such petition as so endorsed. Service of such citation and endorsed petition shall be made upon the respondents thereto in any manner provided by law.

Appearance, answer and trial date

Sec. 7. (a) On or before the return date specified in the citation issued pursuant to Section 6, or within ten days after receiving notice of the issuance of such citation, the author, publisher or any person interested in sending or causing to be sent, bringing or causing to be brought, into this state for sale or commercial distribution, or any person in this state preparing, selling, exhibiting or commercially distributing, or possessing with intent to sell or commercially distribute or exhibit, the material exhibited to the endorsed petition, may appear and may intervene as a respondent and file an answer.

(c) Upon the expiration of the time for filing answers by all respondents, the court shall, upon its own motion, or upon the application of any party who has appeared and filed an answer, set a date for the trial of the issues joined.

(a) The public policy of this state requires that all proceedings prescribed in this Act, other than criminal actions under Section 12, be heard and disposed of with the maximum promptness and dispatch commensurate with constitutional requirements, including due process, freedom of the press and freedom of speech. The rules of civil procedure per-

taining to equity cases shall be applicable, except as hereinafter provided, to the trial of the issues framed by the petition and answers.

(b) Every person appearing and answering shall be entitled, upon application and payment of fee or affidavit, to a trial of any fact issue by a jury whose verdict shall have the same effect as in cases at law as to any issue of fact.

Judgment

Sec. 9. In the event that the court or jury, as the case may be, finds the material exhibited to the petition not to be harmful to minors, the court shall enter judgment accordingly and shall dismiss the petition. In the event that the court or jury, as the case may be, finds the material exhibited to the petition to be harmful to minors, the court shall enter judgment to such effect and may, in such judgment or in subsequent orders of enforcement thereof, enter a permanent injunction against any respondent prohibiting him from selling, commercially distributing or giving away the material exhibited to the petition to minors or from permitting minors to inspect the material exhibited to the petition.

(b) No preliminary injunction shall be issued without at least two days' notice to the respondents.

(c) If the court, pursuant to Section 6, finds probable cause to believe the exhibited material to be harmful to minors, and so endorses the petition, the court may, upon the motion of the Attorney General or the district or county attorney within their respective jurisdictions, as the case may be, issue a temporary restraining order against any respondent prohibiting him from selling, commercially distributing or giving away such exhibited material to minors or from permitting minors to inspect such exhibited material. No temporary restraining order shall be granted without notice to the respondents unless it clearly appears from specific facts shown by affidavit or by the verified petition that one or more of the respondents are engaged in the sale of harmful material to minors and that immediate and irreparable injury to the morals and general welfare of minors in this state will result before notice can be served and a hearing had thereon. Every temporary restraining order shall be endorsed with the date and hour of issuance; shall be filed forthwith in the clerk's office and entered of record; shall define the injury and state why it is irreparable and why the order was granted without notice; and shall expire by its own terms within such time after entry, not to exceed three days, as the court fixes unless within the time so fixed the respondent against whom the order is directed consents that it may be extended for a longer period. In the event that a restraining order is granted without notice, a motion for a preliminary injunction shall be set down for hearing within two days after the granting of such order and shall take precedence over all matters except older matters of the same character; and when the motion comes on for hearing, the Attorney General or the district or county at-

Regardless of any other provision of the Texas Liquor Control Act, the Board or Administrator may, for a first offense, cancel, or suspend for a period of time not to exceed sixty (60) days, after notice and hearing, any retail permit or license or any private club registration permit granted under the provisions of the Texas Liquor Control Act upon finding that the Permittee or Licensee, his agent, servant, or employee, has knowingly sold, served, dispensed, or delivered any alcoholic beverages to any person under the age of twenty-one (21) years, or has permitted any person under the age of twenty-one (21) years, who is not accompanied by his parent, legal guardian, or adult spouse, to possess (unless such underaged person is an employee of a Licensee or Permittee as permitted in the Texas Liquor Control Act) or consume any alcoholic beverage on his licensed premises. For the second such offense such permit or license may be cancelled, or suspended for a period of time not to exceed three (3) months. For a third such offense within a period of thirty-six (36) consecutive months, such permit or license may be cancelled or suspended for a period of time not to exceed twelve (12) months.

Provided, however, that if, at a hearing held for such purpose, such Permittee or Licensee establishes to the satisfaction of the Board or Administrator that the violation complained of occurred under such circumstances as could not have reasonably been prevented by such Permittee or Licensee with the exercise of due diligence or that the Permittee or Licensee was entrapped, or that an agent, servant, or employee of such Permittee or Licensee has violated the provisions of this Section without the knowledge of the Permittee or Licensee, then the Board or Administrator shall have the authority to relax the provisions of this Section concerning suspension and cancellation of the permit or license and to assess such sanctions as the Board or Administrator may deem just under the circumstances.

Art. 666—15. Classification of permits

Permits shall be of the following classes:

* * * * *

(21) (a) Nothing in the Texas Liquor Control Act shall be deemed to prohibit the selling or serving of alcoholic beverages in or from any size container on a commercial passenger airplane operating in compliance with a valid license, permit, or certificate issued under the authority of the United States or the State of Texas, notwithstanding the fact that it may, during the course of its flight, traverse an area in which the sale of such alcoholic beverages is prohibited; provided, however, that a

special Airline-Beverage Permit shall be obtained annually from the Board.

(b) The Board or Administrator is authorized to issue an Airline-Beverage Permit to each corporation operating a commercial airline in or through the State of Texas. The annual fee for an Airline-Beverage Permit shall be One Thousand Dollars (\$1,000). The provisions of Sections 15a1 and 18 of this Article shall not apply to Airline-Beverage Permits. Application and payment of the fee shall be made directly to the Board.

(c) Under rules and regulations promulgated by the Board, the holder of an Airline-Beverage Permit may store alcoholic beverages in sealed containers of any size within the boundaries of any airport served by the holder on a regular basis.

(d) As to all alcoholic beverages on board any commercial passenger aircraft departing from any airport in this state, the taxes imposed by the Texas Liquor Control Act shall be paid as prescribed by rules and regulations of the Board.

(e) Neither the preparation nor the serving of alcoholic beverages by the holder of an Airline-Beverage Permit to its passengers shall be considered as a sale for consideration but shall be completely exempt from the provisions of the Limited Sales, Excise and Use Tax Act, as amended. In lieu of that tax, there is hereby imposed a special airline-beverage service fee in the amount of five cents (\$.05) for each individual serving of an alcoholic beverage served by such permit holder within the boundaries of this state. Such fee shall be imposed at the time of the delivery to the passenger of the container containing any alcoholic beverage, and the permit holder may absorb the cost of the fee or may collect the fee from the passenger. The fees shall be remitted monthly by the permit holder to the Board under a reporting system prescribed by rules and regulations of the Board.

(f) Only the holder of a Package Store Permit shall be authorized to sell liquor to the holder of an Airline-Beverage Permit; and for the purposes of this Act, any sale of liquor to the holder of an Airline-Beverage Permit shall be considered a sale at retail to a consumer. Notwithstanding any other provision of the Texas Liquor Control Act, the holder of a Package Store Permit may sell liquor in any size container to holders of Airline-Beverage Permits only, and may purchase liquor in any size container for resale from the holders of a Wholesaler's Permit who may import, sell, offer for sale or possess for purpose of resale liquor in any size container for resale only to holders of Airline-Beverage Permits, subject to any reasonable rules and regulations promulgated by the Board to insure proper enforcement of the Texas Liquor Control Act. Anyone who knowingly violates the provisions of this subsection will forfeit his permit as Package Store Permittee and/or an Airline-Beverage Permittee.

Subsec. 21 added by Acts 1969, 61st Leg., 2nd C.S., p. 61, ch. 1, art. 6, § 3, eff. Oct. 1, 1969.

(e) No person under twenty-one (21) years of age may plead guilty to any offense described in Subdivision (a) of this Subsection except in open court before the judge. No such minor shall be convicted of such an offense or fined as provided in Subdivision (a) except in the presence of his parent or guardian having legal custody of the minor. The court shall cause the parent or guardian residing within its jurisdictional limits to be summoned to appear in court and shall require the parent or guardian to be present during all proceedings in the case. However, the court may waive the requirement of the presence of the parent or guardian in any

case in which, after diligent effort, the court is unable to locate them or compel their presence. The court shall give written notice of such offense to the parent or guardian having legal custody of such minor who resides outside the jurisdictional limits of the court.

(f) Upon attaining the age of twenty-one (21) years, any person who during his minority was convicted of not more than one violation of the Texas Liquor Control Act is eligible to have the conviction expunged from his record upon making application to the judge of the court in which he was convicted. The application shall contain the applicant's sworn statement that during his minority he was not convicted of any violation of the Texas Liquor Control Act other than that sought to be expunged from his record. If it appears to the court that applicant's statement is true and correct, the court shall order the conviction expunged from his record along with all complaints, verdicts, sentences and other documents relating thereto. After the court has entered the order, the applicant is released from all disabilities resulting from the conviction, and the fact of the conviction shall not be shown or inquired into for any purpose. Art. 666—17b. Anti-tied house restrictions; applications for permits; investigation; enforcement; exceptions

(1) In considering any original application or renewal application for any permit authorized to be issued under the terms of Article I of the Texas Liquor Control Act, except such permits as are specifically excluded by subparagraph (4) of this Section, the Board or Administrator may make such investigation or request such additional information as may be deemed necessary to enforce the provisions of this Section and to provide strict adherence to a general policy prohibiting the "tied house" and related practices hereinafter declared to constitute unfair competition and unlawful trade practices. The term "tied house" as used herein shall mean any overlapping ownership or other prohibited relationship between those engaged in the alcoholic beverage industry at different levels, that is, between a manufacturer and a wholesaler or retailer, or between a wholesaler and a retailer, as the words wholesaler, retailer, and manufacturer are generally used and understood, regardless of the specific designations used in Article I of the Texas Liquor Control Act for the various types of permits herein authorized to be issued.

(2) In furtherance of the general anti-tied house and anti-subterfuge policy, it is specifically declared that:

(a) It shall be unlawful for any person owning or having any interest in any permit issued under the terms of Article I of the Texas Liquor Control Act to secure or to hold, either directly or indirectly, any ownership or ownership interest in the business or stocks (including stock options, convertible debentures, or other similar interests) in a permit or the business of a permittee of a different level which maintains licensed premises in Texas.

(b) It shall be unlawful for any person to act or serve as officer, director, or employee of the businesses of permittees of a different level.

(c) It shall be unlawful for any permittee to own the premises, fixtures, or equipment of a permittee of a different level.

(d) It shall be unlawful for any permittee to secure or in any manner to obtain the use of any premises, fixtures, or equipment on the credit of a permittee of a different level.

For Annotations and Historical Notes, see V.A.T.S.

(e) It shall be unlawful for any permittee to loan to, or by means of his credit to secure a loan for, any permittee of a different level. In the event that any permittee secures a loan from any out-of-state source, there shall be a presumption of tied house or subterfuge, and the permittee securing such loan shall have the burden of showing that he has been guilty of no violation of this Section of the Texas Liquor Control Act.

(f) It shall be unlawful for any permittee to enter, with any other permittee of a different level or with any other person or legal entity, into any conspiracy or agreement to control or manage, financially or administratively, directly or indirectly, in any form or degree, the business or interests of any other permittee of a different level.

(g) It shall be unlawful for any permittee to enter, with any other permittee, into any profit-sharing agreement of any kind or any agreement relating to the repurchase of any assets or any agreement attempting to effectuate the shipment or delivery of any alcoholic beverage or beverages on consignment.

(3) The Board or Administrator, upon the finding of any violation of law specified in any subparagraph of Subsection (2) above, shall cancel or suspend for a period of time not less than six (6) months the permit of the permittee or permittees involved. Any person who has held or who has had any interest of any kind in any permit which has been cancelled under the terms of this provision shall thereafter for a period of one (1) year be ineligible to hold or to have any interest of any kind in any permit which is authorized to be issued under the terms of this Act.

(4) The provisions of this Section shall not be applied to any application for the renewal of any permit held by an applicant who was engaged in the legal alcoholic beverage business in this state under charter or permit prior to August 24, 1935, or to any application for renewal of either a Non-Resident Seller's Permit or a Wholesaler's Permit held by an applicant who was the holder of the same type of permit on January 1, 1941, and who has continuously since that date been the holder of such a permit.

Art. 666—18. Qualifications of permittees; scope of permits; subterfuge ownership; premises and control of permittees; package store permits; application to hotels; civil remedies

No person who has not been a citizen of Texas for a period of three (3) years immediately preceding the filing of his application therefor shall be eligible to receive a permit under this Act. No permit except a Brewer's Permit, and such other licenses and permits as are necessary to the operation of a Brewer's Permit, shall be issued to a corporation unless the same be incorporated under the laws of the state and unless at least fifty-one percent (51%) of the stock of the corporation is owned at all times by citizens who have resided within the state for a period of three (3) years and who possess the qualifications required of other applicants for permits; provided, however, that the restrictions contained in the preceding clause shall not apply to domestic or foreign corporations that were engaged in the legal alcoholic beverage business in this state under charter or permit prior to August 24, 1935. Partnerships, firms, and associations applying for permits shall be composed wholly of citizens possessing the qualifications above enumerated. Any corporation (except carrier) holding a permit under this Act which shall violate any provisions hereof, or any rule or regulation promulgated hereunder, shall be subject to forfeiture of its charter and it shall be the duty of the Attorney General, when any such violation is called to his attention, to file a suit for such cancellation in a District Court of Travis County. Such provisions of this section as require Texas citizenship or require incorporation in Texas shall not apply to the holders of agent's,

industrial, medicinal and carrier's permits. No person shall sell, warehouse, store or solicit orders for any liquor in any wet area without first having procured a permit of the class required for such privilege, or consent to the use of or allow his permit to be displayed by or used by any person other than the one to whom the permit was issued. It is the intent of the Legislature to prevent subterfuge ownership of or unlawful use of a permit or the premises covered by such permit; and all provisions of the Texas Liquor Control Act shall be liberally construed to carry out this intent, and it shall be the duty of the Board or the Administrator to provide strict adherence to the general policy of preventing subterfuge ownership and related practices hereinafter declared to constitute unlawful trade practices. No applicant for a Package Store Permit or a renewal thereof shall have authority to designate as "premise" and the Board or Administrator shall not approve a lesser area than that specifically defined as "premise" in Section 3-a(7)¹ of Article I of the Texas Liquor Control Act as enacted by the 44th Legislature, 2nd Called Session, 1935, as amended. Every permittee shall have and maintain exclusive occupancy and control of the entire licensed premises in every phase of the storage, distribution, possession, and transportation and sale of all alcoholic beverages purchased, stored or sold on the licensed premises. Any device, scheme or plan which surrenders control of the employees, premises or business of the permittee to persons other than the permittee shall be unlawful. No person under the age of twenty-one (21) years, unless accompanied by his or her parent, guardian, adult husband or adult wife, or other adult person into whose custody he or she has been committed for the time by some court, shall knowingly be allowed on the premises of the holder of a Package Store Permit. Any Package Store permittee who shall be injured in his business or property by another Package Store permittee by reason of anything prohibited in this section may institute suit in any district court in the county wherein the violation is alleged to have occurred to require enforcement by injunctive procedures and/or to recover threefold the damages by him sustained; plus costs of suit including a reasonable attorney's fee. The provision prohibiting the licensing of only a portion of a building as premise for a package store permit shall not apply to hotels as already defined in the Texas Liquor Control Act.

Art. 666—21¹/₈. Tax payment by reporting system under bond or special order

A. The power granted to the Texas Liquor Control Board by Section 21, Article I, Texas Liquor Control Act, as heretofore amended, the same being that provision codified as Article 666—21 of Vernon's Texas Penal Code, to relax the provisions requiring the affixing of a stamp or stamps on each bottle or container of liquor at the time of "first sale" as means of payment of the taxes levied, is hereby clarified and restricted to the extent that such power shall hereafter be exercised in conformity with the following provisions:

1. Unless the Board by specific order requires the payment of taxes by the affixing of stamps to bottles or containers, any holder of a permit authorizing the importation into this state of any liquor, other than ale or

malt liquor, shall pay the tax or taxes levied thereon by the laws of this state by the reporting system under bond in compliance with the following provisions:

(a) The Board shall require of each holder of a permit authorizing the importation into this state of liquor a bond or bonds executed by the permit holder as principal and a surety company duly qualified and doing business in this state as surety, and said bond or bonds shall be made payable to the State of Texas and conditioned as the Board may require and approved by the Attorney General of Texas as to form. Said bond or bonds shall be in such amount as will adequately protect the State of Texas against the anticipated tax liability of the principal during any six (6) weeks' period.

(b) The tax on liquor, other than ale or malt liquor, imported into this state, shall become due and payable and shall be paid by the permit holder on or before the 15th day of the month following the "first sale," which term, for the purpose of this section, shall mean the first actual sale by the holder of any wholesalers' permit to the holder of any other permit authorizing the retail sale of the beverage to be taxed.

(c) The tax shall be computed in accordance with the applicable provision or provisions in Section 21, Article I, Texas Liquor Control Act, and remittance therefor made payable to the State Treasurer shall be due at the office of the Texas Liquor Control Board in Austin, Travis County, Texas, on or before the 15th day of the month due less two per cent (2%) of the amount due which shall be withheld by the permit holder for the keeping of records, furnishing of bonds, and properly accounting for the remittance of the tax due; provided, however, that no allowance shall be granted or permitted when the tax is delinquent at the time of payment.

(d) Such sworn statements of taxes due as may be required by the Board, and remittances therefor made payable to the State Treasurer, shall be forwarded to the Board each month not later than the due date set out herein. All such remittances shall be turned over by the Board to the State Treasurer for allocation in conformity with the terms of Section 46,¹ Article I, Texas Liquor Control Act.

(e) If any permit holder, in computing and paying the tax due, through oversight, mistake, error, or miscalculation, has paid more tax than is legally due, the permit holder who paid such excess tax shall be entitled to a refund thereof, and a claim for such refund may be made at the time and in the manner prescribed by the Board or Administrator, and such excess tax shall be refunded to the permit holder who has paid the same, or credit may be allowed on future tax payment. Refunds for overpayments of tax may be made by the Board from the revenues derived from the collection of the tax before the same has been allocated, and so much of such funds as may be necessary is hereby appropriated for that purpose.

(f) The permit holder shall report to the Board each receipt of shipment of liquor, other than ale and malt liquor, for sale within this state, under the provisions of this Act, and shall prepare and furnish any such further information and such reports as may be required by rules and regulations of the Board.

(g) In any suit brought to enforce the collection of any tax owed by a permit holder, a certificate by the Board or Administrator showing the deficiency shall be prima facie evidence of the levy of tax or the delinquency of the amount of tax and penalty set forth therein and compliance by the Board with all provisions of this Act in relation to the computation and levy of the tax.

2. It is not intended that the tax levied in Section 21 of Article I of the Texas Liquor Control Act shall be collected on liquor shipped out of this state for consumption outside this state or sold aboard ship for ship's supplies, and the Board shall provide forms for obtaining exemp-

tion from or credit for such taxes and shall provide by rule and regulation for equitable and final disposition of any tax credit brought about by such payment of any such unintended or excess tax.

3. Every Wholesaler's Permit holder converting to payment of taxes by the reporting system under bond as specified in paragraph 1 above, shall on the effective date of this Act or at such date as may be specified by the Board, render and submit to the Texas Liquor Control Board at Austin, Travis County, Texas, a true and correct inventory of all liquors, other than ale or malt liquor, within his possession, setting forth in detail the size of the containers and the quantity thereof and stating therein whether or not stamps have been affixed to the containers. The inventory shall also contain a statement as to the number of stamps which the permit holder may have on hand which have not been affixed to bottles or containers. The sworn inventory shall be rendered upon a form to be prescribed and furnished by the Texas Liquor Control Board. The value of any unused stamps may be refunded by the Board in the same manner as refunds are made under the circumstances specified in Section 45(d)² of Article I of the Texas Liquor Control Act.

B. The Board may, in any situation deemed by it to create an emergency or other circumstance which in its judgment would make it impractical to require the affixing of stamps, by order prescribe special rules for the payment of the tax in the specific situation under consideration.

C. The tax levied and assessed on ale and malt liquor in accordance with the applicable provisions of Section 21, Article I, Texas Liquor Control Act, and as computed under the provisions of Section 33,³ Article II, Texas Liquor Control Act, and the tax levied and assessed in accordance with the applicable provisions of Section 23,⁴ Article II, Texas Liquor Control Act, and as computed under the provisions of Section 23-¹/₄,⁵ Article II, Texas Liquor Control Act, shall be paid by a remittance therefor made payable to the State Treasurer and forwarded to the office of the Texas Liquor Control Board in Austin, Travis County, Texas, on or before the due date, as provided in the Texas Liquor Control Act, less two (2%) per cent of the amount due which shall be withheld by the permit or license holder for the keeping of records, furnishing of bonds, and properly accounting for the remittance of the tax due; provided, however, that no allowance shall be granted or permitted when the tax is delinquent at the time of payment.

Repealed article 666—25b was enacted by Acts 1955, 54th Leg., p. 592, ch. 200, eff. May 12, 1955.

The Article made it unlawful to bring intoxicating beverages into any area where public school athletic events were being held.

Art. 666—26. Sale by and to minors; exception; penalties

(a) It shall be unlawful for the holder of any permit under this Act to employ anyone to sell liquor except malt liquor and ale who is under the age of twenty-one (21) years.

(b) It shall further be unlawful for any person knowingly to sell any liquor or beer to any person under twenty-one (21) years of age, or to any person who is intoxicated, or to any habitual drunkard, or to any insane person. If any person under the age of twenty-one (21) years falsely represents his or her age to be twenty-one (21) years or older at the time of such purchase by displaying an apparently valid Texas Operator's License containing a physical description consistent with the appearance of said person under the age of twenty-one (21) years for the purpose of inducing the sale of such alcoholic beverage, the person making such sale shall not be guilty of a violation under any provision of the Texas Liquor Control Act. Any person who violates any provision of this paragraph shall be deemed guilty of a misdemeanor and upon conviction for a first offense shall be punished by a fine of not less than One Hundred Dollars (\$100) nor more than Five Hundred Dollars (\$500), or by imprisonment in the county jail for not more than one year, or by both such fine and imprisonment, and for a second or subsequent offense shall be punished by a fine of not less than Five Hundred Dollars (\$500) nor more than One Thousand Dollars (\$1,000), or by imprisonment in the county jail for not more than one year, or by both such fine and imprisonment.

Art. 666—30. Sale or destruction of beverages and property seized; ceiling prices during emergency; disposition of proceeds; forfeiture; reports; penalties; illegal seizures; reimbursement

(a) All alcoholic beverages and the containers thereof, and any device in which the alcoholic beverage is packaged, which have been seized by an agent or employee of the Texas Liquor Control Board, or by any peace officer as provided in Section 42,¹ shall be turned over to the Board for immediate public or private sale in such place or manner as it may deem best; provided further, that any bill of sale executed by the Board or Administrator shall convey a good and valid title to the purchaser as to any such property sold. No alcoholic beverages unfit to be sold for public consumption, or of illicit manufacture, may be sold by the Board, but may be destroyed by the Board.

Any property or equipment forfeited to the state as provided in Section 42¹ may also be sold by the Board at public or private sale in such place or manner as it may deem best.

For Annotations and Historical Notes, see V.A.T.S.

Provided, however, any beer, its containers or original packages which may be seized under the terms of the Texas Liquor Control Act shall be disposed of as follows:

Upon being notified that any beer has been seized, the Board shall immediately notify a holder of a General or Local Distributor's or Branch Distributor's License who handles the brand of beer seized and who operates in the county where said beer was seized. If the beer was seized in a dry area, either the Distributor or Branch Distributor operating nearest said area handling the brand or the Manufacturer brewing said beer shall be notified. The Board and the Distributor or Branch Distributor or Manufacturer so notified shall jointly determine and agree as to whether or not said seized beer is in a salable condition. If said beer is determined not to be in a salable condition it shall be immediately destroyed by the Board. If said beer is determined to be in a salable condition it shall be offered for sale to the Distributor or Branch Distributor or Manufacturer so notified. If offered to a Distributor or Branch Distributor, it shall be at the Distributor's or Branch Distributor's cost price less any state taxes if theretofore paid on such beer, F.O.B. its place of business, or if offered to a Manufacturer the price shall be the cost price to its nearest Distributor or Branch Distributor, less any state taxes if theretofore paid on such beer, F.O.B. said nearest Distributor's or Branch Distributor's place of business, but the storage or warehousing charges necessarily incurred as a result of the seizure shall in all cases be added to such cost price.

Should said Distributor or Branch Distributor or Manufacturer not exercise the right to purchase any salable beer or any returnable bottles, containers or packages at their deposit price within ten (10) days, then the Board shall proceed to sell same at public or private sale as hereinabove provided.

Any liquor, its containers or original packages which may be seized under the terms of the Texas Liquor Control Act shall be disposed of as follows:

Upon being notified that any liquor has been seized, the Board shall immediately notify a holder of a Wholesaler's Permit or a General Class B or Local Class B Wholesaler's Permit who handles the brand of liquor seized and who operates in the county where said liquor was seized. If the liquor was seized in a dry area, the Wholesaler operating nearest said area handling the brand shall be notified. The Board and the Wholesaler so notified shall jointly determine and agree as to whether or not said seized liquor is in a salable condition. If said liquor is determined not to be in a salable condition, it shall be immediately destroyed by the Board. If said liquor is determined to be in a salable condition, it shall first be offered for sale to the Wholesaler so notified. If offered to a Wholesaler, it shall be at the Wholesaler's cost price, F.O.B. its place of business, plus any storage or warehousing charges necessarily incurred as a result of the seizure.

Should said Wholesaler not exercise the right to purchase any salable liquor, containers or packages at the price specified above within ten (10) days, then the Board shall proceed to sell same at public or private sale as hereinabove provided.

The provisions hereinabove contained shall not prevent the Board from exercising its discretion in the event that illicit alcoholic beverages have been seized as the result of an accidental shipment or other reasonable mistake; under such circumstances the Board may issue such orders and make such disposition of the alcoholic beverages as to it seems just and reasonable.

In the event the United States Government shall provide any plan or method whereby illicit alcoholic beverages and other property seized or belonging to or forfeited to the state shall be sold at ceiling prices during a national emergency, the Board shall have the right to comply with Fed-

eral law or regulations in the sale or disposal of such illicit alcoholic beverages or other property, even to the extent of partially or wholly abrogating any provisions hereof which may be in conflict with the Federal law or regulations.

(b) The proceeds of the sale of seized alcoholic beverages, containers thereof, and devices in which the alcoholic beverages are packaged shall be placed in escrow in a suspense account set up by the Board for such purpose pending the outcome of the forfeiture suit as provided in Section 42, Article I. Proceeds in escrow which are not forfeited to the state as the result of suit shall be refunded to the alleged violator.

The proceeds from any forfeiture sale and any proceeds held in escrow by the Board upon entry of a judgment forfeiting same to the state shall be disposed of as follows:

Thirty-five percent (35%) of all moneys derived from the sale of alcoholic beverages, containers, any device in which said alcoholic beverages are packaged, or property, as authorized in this Act shall be placed in a separate fund in the State Treasury to be designated as the Confiscated Liquor Fund, and thereafter all moneys in said fund shall be available to the Board to defray the expenses, and it is hereby appropriated for said purpose of purchasing and accumulating evidence as to violations of the provisions of this Act, and to defray the expenses incurred in assembling, storing, transporting, selling and accounting for said confiscated alcoholic beverages, containers, devices and property and for any other purpose deemed necessary by the Board in administering and enforcing the provisions of the Texas Liquor Control Act. Any unexpended portion of said fund at the end of each biennium shall remain in said fund subject to further appropriation for such purposes. Sixty-five percent (65%) of all moneys derived from the sale herein referred to shall be deposited in the General Fund of the State of Texas.

As to liquors confiscated by representatives of the Board, or any peace officer, it shall be incumbent upon the officer making the seizure to list each and every item or items so confiscated and the place and name of owner, operator, or person from whom such seizure is made. Such report shall be made in quadruplicate, two (2) copies of which shall be verified by oath; one (1) verified copy shall be retained in the permanent files of the Texas Liquor Control Board or other agency making the seizure, and one (1) verified copy shall be filed with the Comptroller of the State of Texas, which shall constitute a permanent file, and both of which shall be subject to inspection by any member of the Legislature or any duly authorized law enforcement agency of the State of Texas, and one (1) copy shall be delivered to the owner, operator, or person from whom such seizure is made. A false statement of said confiscated alcoholic beverage, or other personal property shall be punishable as now provided for false swearing. Any failure on the part of the peace officer making such seizures to file said reports shall constitute a misdemeanor and upon conviction thereof he shall be fined not more than One Hundred Dollars (\$100) nor less than Fifty Dollars (\$50) or shall be confined in jail not less than ten (10) days nor more than ninety (90) days or by both such fine and imprisonment. It shall be the duty of the Texas Liquor Control Board and its agents to see that said reports are made by said peace officers. Should the state illegally seize and sell any alcoholic beverages, the person legally entitled to possession of the alcoholic beverages at the time of the illegal seizure shall be entitled to recover from the state the fair market value of the alcoholic beverages illegally seized and sold; such reimbursement shall be paid out of the proceeds held in escrow from the sale of such illegally seized alcoholic beverages, and to the extent further necessary from the Confiscated Liquor Fund.

Art. 666—42. Seizures; replevin; suit for forfeiture; intervention by lienholders; sale; liens on proceeds

(a) All illicit beverages as defined by this Act¹ together with the containers and any device in which the beverage is packaged, and any wagon, buggy, automobile, water or aircraft, or any other vehicle, used for the transportation of any illicit beverage, or any equipment designed to be used or which is used for illicit manufacturing of beverages, or any material of any kind which is to be used in the manufacturing of illicit beverages, may be seized with or without a warrant by an agent or em-

ployee of the Texas Liquor Control Board, or by any peace officer, and any person found in possession or in charge thereof may be arrested without a warrant. No alcoholic beverages, containers, or any device in which such beverage is packaged so seized shall be replevied, but shall be delivered to the Board, to be held for the sale and deposit of proceeds in escrow as provided in Section 30² of Article I. Any such wagon, buggy, automobile, water or aircraft or any other vehicle so seized may be replevied by the owner thereof or lawful lienholder thereon upon execution by him of a good and valid bond with sufficient surety in a sum double the appraised value of the property replevied, which said bond shall be approved by said officer and shall be conditioned to return said property to the custody of said officer on the day of trial of any suit for the forfeiture of such property to abide the judgment of the court. In any such suit where the owner of the vehicle or the lienholder appears and contests the suit, the burden shall be on the state to prove that such owner or lienholder knowingly violated some provision of this Act; otherwise the court shall enter judgment for such owner or lienholder.

(b) It shall be the duty of the Attorney General, the District Attorney, and the County Attorney, or any of them, when notified by the officer making the seizure, or by the Texas Liquor Control Board, that such seizure has been made, to institute a suit for forfeiture of the property seized and of the proceeds of the sale of the alcoholic beverages, containers, and devices in which such alcoholic beverages are packaged (referred to hereinafter as "proceeds in escrow"), such suit to be brought in the name of the State of Texas against such property and proceeds in escrow in any court of competent jurisdiction in the county wherein such seizure was made. Notice of pendency of such suit shall be served on any person found in possession of the beverages or property at the time of seizure in the manner prescribed by law and the case shall proceed to trial as other civil cases. If no person be found in possession of the beverages or property, or if at the time suit is filed the whereabouts of those in possession is unknown, notice shall be posted at the courthouse door in the county wherein the property was seized for a period of twenty (20) days. If upon the trial of such suit it is found that the alcoholic beverages were illicit, or that the vehicle was used for the transportation of illicit beverages, or that the equipment is designed to be used or is used for illicit manufacturing of beverages, or the material is to be used in the manufacturing of illicit beverages, then the court trying said cause shall render judgment forfeiting the property and proceeds in escrow to the State of Texas and ordering the same disposed of as provided for by Section 30 of this Article, or if in the opinion of the Board or Administrator any such property, except the proceeds in escrow, is needed for the use of the Board, then the same may be retained and so used until such time as such property is sold by the Board as provided herein. The costs of such proceedings shall be paid by the Board, out of funds derived under the provisions of said Section 30, or from any other fund available to the Board for such purpose.

(c) As to any property or articles upon which there may be a lien, by a bona fide lienholder, the holder of such may intervene to establish his rights and shall be required to show such lien to have been granted in a bona fide manner and without knowledge of the fact at the time of creation of the lien, that any article or property upon which such lien exists has been used or was to be used in violation of this Act. If the holder of any such lien shall intervene, then the court trying said cause shall render judgment forfeiting the same to the State of Texas, and if such lien is established to the satisfaction of the court, said court shall authorize the issuance of an order of sale directed to the sheriff or any constable of the county wherein the property was seized, commanding such officer to sell said property in the same manner as personal property is sold under execution. The court may order such property sold in whole or in part as it may deem proper and the sale shall be conducted at the

For Annotations and Historical Notes, see V.A.T.S.

courthouse door. The money realized from the sale of such property shall be applied first to the payment of the costs of suit and expenses incident to the sale and after such expenses have been approved and allowed by the court trying the case, then the further proceeds of such sale shall be used to pay all such liens according to priorities, and any remaining proceeds shall be paid to the Board to be allocated as provided in Section 30 hereof. All such liens against property sold under this Section shall be transferred from the property to the proceeds of its sale. In case such lien is not established to the satisfaction of the court the judgment shall be entered ordering same disposed of as provided in Subsection (b) of this Section.

A lien on alcoholic beverages, containers thereof, and devices in which the alcoholic beverages are packaged will attach to the proceeds of their sale, which have been placed in escrow as provided in Section 30 of this Article I. The lien must be established as provided by this Subsection. Upon establishment of liens on the proceeds in escrow to the satisfaction of the court, the proceeds in escrow will be used to pay all such liens according to priorities. The remaining proceeds shall be disposed of as provided in Subsection (b) of Section 30 of this Article I.

The sheriff, constable, or Texas Liquor Control Board executing said sale shall issue a bill of sale or certificate to the purchaser of said property, and such bill of sale or certificate shall convey valid and unimpaired title to such property.

TITLE 13—OFFENSES AGAINST PUBLIC PROPERTY

CHAPTER ONE—HIGHWAYS AND VEHICLES

Art.
802f. Chemical tests for intoxication; im-
plied consent; evidence [New].

Art. 802f. Chemical tests for intoxication; implied consent; evidence

Section 1. Any person who operates a motor vehicle upon the public highways of this state shall be deemed to have given consent, subject to the provisions of this Act, to a chemical test, or tests, of his breath for the purpose of determining the alcoholic content of his blood if arrested for any offense arising out of acts alleged to have been committed while a person was driving or in actual physical control of a motor vehicle while under the influence of intoxicating liquor. Any person so arrested may consent to the taking of any other type of chemical test, or tests, to determine the alcoholic content of his blood, but he shall not be deemed, solely on the basis of his operation of a motor vehicle upon the public highways of this state, to have given consent to any type of chemical test other than a chemical test, or tests, of his breath. The test, or tests, shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving or in actual physical control of a motor vehicle upon the public highways of this state while under the influence of intoxicating liquor.

Sec. 2. If a person under arrest refuses, upon the request of a law enforcement officer, to submit to a chemical breath test designated by the law enforcement officer as provided in Section 1, none shall be given, but the Texas Department of Public Safety, upon the receipt of a sworn report of the law enforcement officer that he had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle upon the public highways of this state while under the influence of intoxicating liquor and that the person had refused to submit to the breath test upon the request of the law enforcement officer, shall set the matter for a hearing as provided in Section 22(a), Chapter 173, Acts of the 47th Legislature, Regular Session, 1941, as amended (Article 6687b, Vernon's Texas Civil Statutes). If, upon such hearing, the court finds that probable cause existed that such person was driving or in actual physical control of a motor vehicle on the highway while under the influence of intoxicating liquor at the time of the arrest by the officer, the Director of the Texas Department of Public Safety shall suspend the person's license or permit to drive, or any nonresident operating privilege for the period ordered by the court, but not to exceed one (1) year. If the person is a resident without a license or permit to operate a motor vehicle in this state, the Texas Department of Public Safety shall deny to the person the issuance of a license or permit for a period ordered by the court, but not to exceed one (1) year. Provided, however, that should such person be found "not guilty" of the offense of driving while under the influence of intoxicating liquor or if said cause be dismissed, then the Director of the Texas Department of Public Safety shall in no case suspend such person's driver's license; or, in the event that proceedings had been instituted resulting in the suspension of such person's driver's license, then the Director of the Texas Department of Public Safety shall immediately reinstate such license upon notification of such acquittal or dismissal by the county clerk of the county in which the case was pending. Notification to the Director of the Texas Department of Public Safety shall be made by certified mail.

For Annotations and Historical Notes, see V.A.T.S.

Sec. 3. (a) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a motor vehicle and while under the influence of intoxicating liquor, evidence of the amount of alcohol in the person's blood at the time of the act alleged as shown by chemical analysis of his blood, breath, urine, or any other bodily substance, shall be admissible.

(b) Chemical analysis of the person's breath, to be considered valid under the provisions of this section, must be performed according to methods approved by the Texas Department of Public Safety and by an individual possessing a valid certificate issued by the Texas Department of Public Safety for this purpose. The Texas Department of Public Safety is authorized to approve satisfactory techniques or methods, to ascertain the qualifications and competence of individuals to conduct such analysis, and to issue certificates certifying such fact. These certificates shall be subject to termination or revocation, for cause, at the discretion of the Texas Department of Public Safety.

(c) When a person shall submit to a blood test at the request of a law enforcement officer under the provisions of this Act, only a physician, qualified technician, chemist, registered professional nurse, or licensed vocational nurse under the supervision or direction of a licensed physician may withdraw blood for the purpose of determining the alcoholic content therein. The sample must be taken by a physician or in a physician's office or hospital licensed by the Texas Department of Health. This limitation shall not apply to the taking of breath specimens. The person drawing blood at the request of a law enforcement officer under the provisions of this Act, or hospital where that person is taken for the purpose of securing the specimen, shall not be held liable for damages arising from the request of the law enforcement officer to take the specimen as provided herein, provided the blood was withdrawn according to recognized medical procedures, and provided further that the foregoing shall not relieve any such person from liability for negligence in the withdrawing of any blood sample. Breath specimens must be taken and analysis made under such conditions as may be prescribed by the Texas Department of Public Safety, and by such persons as the Texas Department of Public Safety has certified to be qualified.

(d) The person tested may, upon request and within a reasonable time not to exceed two hours after the arrest, have a physician, qualified technician, chemist, or registered professional nurse of his own choosing administer a chemical test, or tests, in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test, or tests, taken at the direction of the law enforcement officer.

(e) Upon the request of a person who has submitted to a chemical test, or tests, at the request of a law enforcement officer, full information concerning the test, or tests, shall be made available to him or his attorney.

(f) If for any reason the person's request to have a chemical test for intoxication is refused by the officer or any other person acting for or on behalf of the state, such fact may be introduced into evidence on the trial of such person.

Sec. 4. Appeals from all actions of the department under this Act in suspending, denying, or refusing to issue a license shall be governed by Chapter 173, Acts of the 47th Legislature, Regular Session, 1941, as amended (Article 6687b, Vernon's Texas Civil Statutes).

Sec. 5. If any provision of this Act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the Act which can be given

effect without the invalid provision or application, and to this end the provisions of this Act are declared to be severable.

Art. 821. Inscription on State vehicle

There shall be printed upon each side of every automobile, truck or other motor vehicle owned by the State of Texas the word "Texas," followed in letters of not less than two (2) inches high by the title of the department, bureau, board, commission or official having the custody of such car, and such inscription shall be in a color sufficiently different from the body of the car so that the lettering shall be plainly legible at a distance of not less than one hundred (100) feet, and the official having control thereof shall have such wording placed thereon as prescribed herein, and whoever drives any automobile, truck or other motor vehicle belonging to the state upon the streets of any town or city or upon a highway without such inscription printed thereon shall be fined not less than Twenty-five Dollars (\$25.00) nor more than One Hundred Dollars (\$100.00). Provided, however, state-owned vehicles under control and custody of the Texas Department of Mental Health and Mental Retardation, the Department of Public Safety, the Department of Corrections, and the Texas Youth Council may be exempt from the requirements of this Act by rule and regulation of the governing bodies of these state agencies. Such rules and regulations shall specify the primary use to which vehicles exempt from the requirements of this Act are devoted, the purpose to be served by not printing on them the inscriptions required by this Act and such rules and regulations shall not be effective until filed with the Secretary of State. Whoever drives a vehicle exempted from the requirements of this Act as authorized by this provision shall not be subject to the penalties prescribed in this Act.

Commission to prescribe dipping materials; method of testing by inspectors

Sec. 8. (a) The Texas Animal Health Commission shall prescribe in its rules and regulations the dipping materials to be used in the dipping of cattle, horses, mules, jacks and jennets, under the provisions of this Act, and the same shall be recognized official dipping materials for the dipping of such livestock, under the provisions of this Act, and no other dipping materials shall be used for such purposes.

(b) If the dipping solution is designated as a solution using dipping materials of the kind that are ordinarily known as arsenical dipping materials used for the dipping of livestock for the eradication of the fever-carrying tick, the Commission shall also prescribe in its rules and regulations the manner and method by which its inspectors shall test such arsenical dipping solution after the same has been mixed with water in the dipping vat for the purpose of determining the arsenical contents of the solution. The testing of said dipping solution shall be by the use of testing outfits, testing materials and testing fluids furnished to inspectors by the Texas Animal Health Commission or by the United States Department of Agriculture, Animal Health Division, in cooperation with said Commission, for the purpose of ascertaining said arsenical contents. When a test is made of said dipping solution by the use of the testing outfit, testing materials and testing fluid furnished by said Commission or Bureau, as herein provided, the same shall be accepted as the official test of said dipping solution. In the dippings of cattle, horses, mules, jacks and jennets in regular tick eradication, other than for official movement of said livestock, the test of said dipping solution after being mixed with water in the vat ready for dipping shall be not less than eighteen cubic centimeters or not more than twenty cubic centimeters, as shown by the test made with said testing outfits, testing material and testing fluid. By the term "not less than eighteen cubic centimeters and not more than twenty cubic centimeters" is meant that in making said test with said testing outfit, testing material and testing fluid in accordance with the directions contained in the rules and regulations of the Texas Animal Health Commission, the inspector who makes said test secures the results described in said rules and regulations, to-wit: a decided change of color of said dipping material to a light purple, as showing the completion of said test, by mixing not less than eighteen cubic centimeters nor more than twenty cubic centimeters of testing fluid with twenty-five cubic centimeters of said dipping solution into which has been dissolved a test tablet furnished with said testing outfit by said Texas Animal Health Commission or Animal Health Division, United States Department of Agriculture. In the trial of any case in connection with the dipping or failure to dip livestock under any provision of this Act, it shall be presumed that the dipping vat in question contained a sufficient amount of said dipping solution for dipping said livestock and that said dipping solution had been properly tested and that it showed the above test, or that said dipping solution could have and would have been put into said vat and tested to show the above test if the owner or caretaker had brought his livestock to said dipping vat for the purpose of dipping; and it shall not be necessary for the state to allege and prove in any criminal prosecution for failure to dip livestock under any provision of this Act, that said vat contained said dipping solution showing said test. If it becomes necessary in any court proceeding to prove the test of said dipping solution, it shall only be necessary to prove that the dipping material used was one of the official dipping materials prescribed in the rules and regulations of the Texas Animal Health Commission, and that the inspector tested said dipping solution in accordance with the pro-

For Annotations and Historical Notes, see V.A.T.S.

visions of this Section and of the rules and regulations of the Texas Animal Health Commission and that the test showed not less than eighteen cubic centimeters or not more than twenty cubic centimeters, as defined and explained in this Section and in said rules and regulations. When said dipping material is mixed with water in the dipping vat and is tested by an inspector of said Commission and shows a test at any strength of not less than eighteen cubic centimeters or not more than twenty cubic centimeters, it shall be the duty of all owners and caretakers of livestock which are subject to dipping to dip said livestock in said dipping solution at said strength, as shown by said test. The twenty-two cubic centimeter test elsewhere referred to in this Act shall be made in the same manner herein described by securing said change in color by mixing twenty-two cubic centimeters of said testing fluid in said dipping solution in which has been dissolved said test tablet.

(c) The Texas Animal Health Commission shall have the authority to prescribe by rule or regulation other dipping materials for use in the dipping of cattle, horses, mules, jacks and jennets under the provisions of this Act. The rules and regulations prescribing other dipping materials shall also set forth the purpose for which each dipping material is to be used and the manner in which each dipping solution shall be prepared.

Sec. 8 amended by Acts 1969, 61st Leg., p. 14, ch. 6, § 1, emerg. eff. March 4, 1969.

Said petition shall state the amount of the proposed minimum salary aforesaid, and when it is filed with the governing body of a city said governing body shall call an election within ninety (90) days after said petition has been so filed to determine whether said proposed minimum salary shall be adopted. If at said election a majority of the votes cast shall favor the adoption of said proposed minimum salary, said governing body shall put such salary into effect on or before the first day of the next fiscal year of said city. No other issue shall be

joined on the same ballot with the proposition submitted at the election as herein provided. The question shall be submitted for the vote of the qualified electors and the ballot shall be printed to provide for voting for or against the proposition: "The proposed minimum salary of \$_____ per month for Firemen and Policemen." The requested salary set forth in the petition mentioned above shall be inserted in lieu of the blank space in the proposition. When an election has been held in a city pursuant to the provisions of this Act, a petition for another election in said city shall not be filed for at least one year subsequent to the election so held. Nothing herein shall be construed to prevent the city concerned from adopting under the provisions of this Act without an election the minimum salary set forth in the petition filed with the governing body of said city.

TRIAL AND ITS INCIDENTS

CHAPTER THIRTY-FIVE—FORMATION OF THE JURY

Art. 35.12 [612] [687] [668] Mode of testing

In testing the qualification of a prospective juror after he has been sworn, he shall be asked by the court, or under its direction:

1. Except for payment of poll tax or registration, are you a qualified voter in this county and state under the Constitution and laws of this state?

2. Have you ever been convicted of theft or any felony?

3. Are you under indictment or legal accusation for theft or any felony?

Art. 35.16 [616] [692] [673] Reasons for challenge for cause

(a) A challenge for cause is an objection made to a particular juror, alleging some fact which renders him incapable or unfit to serve on the jury. A challenge for cause may be made by either the state or the defense for any one of the following reasons:

1. That he is not a qualified voter in the state and county under the Constitution and laws of the state; provided, however, the failure to pay a poll tax or register to vote shall not be a disqualification;

2. That he has been convicted of theft or any felony;

3. That he is under indictment or other legal accusation for theft or any felony;

4. That he is insane or has such defect in the organs of seeing, feeling or hearing, or such bodily or mental defect or disease as to render him unfit for jury service;

5. That he is a witness in the case;

6. That he served on the grand jury which found the indictment;

7. That he served on a petit jury in a former trial of the same case;

8. That he has a bias or prejudice in favor of or against the defendant;

9. That from hearsay, or otherwise, there is established in the mind of the juror such a conclusion as to the guilt or innocence of the defendant as would influence him in his action in finding a verdict. To ascertain whether this cause of challenge exists, the juror shall first be asked whether, in his opinion, the conclusion so established will influence his verdict. If he answers in the affirmative, he shall be discharged without further interrogation by either party or the court. If he answers in the negative, he shall be further examined as to how his conclusion was formed, and the extent to which it will affect his action; and, if it appears to have been formed from reading newspaper accounts, communications, statements or reports or mere rumor or hearsay, and if the juror states that he feels able, notwithstanding such opinion, to render an impartial verdict upon the law and the evidence, the court, if satisfied that he is impartial and will render such verdict, may, in its discretion, admit him as competent to serve in such case. If the court, in its discretion, is not satisfied that he is impartial, the juror shall be discharged;

10. That he cannot read or write.

No juror shall be impaneled when it appears that he is subject to the second, third or fourth grounds of challenge for cause set forth above, although both parties may consent. All other grounds for challenge may be waived by the party or parties in whose favor such grounds of challenge exist.

Par. (a) amended by Acts 1969, 61st Leg., p. 1364, ch. 412, § 3, eff. Sept. 1, 1969.

RULES OF THE COURT OF CRIMINAL APPEALS

Revised and Adopted September 16, 1968

I. Wednesday of each week, as heretofore, is set apart for the submission of cases and the delivery of opinions and orders.

II. The Court will, in its discretion, from time to time, set all cases for submission in the order of their filing so nearly as practicable, and the Clerk will be directed to use all reasonable diligence to notify counsel of record of such setting, though failure to receive notice will not necessarily prevent, or defeat the submission of the case on the day which it is set.

Within fifteen (15) days after receipt of notice of the setting counsel of record for the appellant or the petitioner will acknowledge receipt of such notice and advise the Clerk whether or not oral argument is desired.

III. When set for submission, cases will not be postponed or re-set by agreement of counsel or for other reasons except upon request for good cause shown.

Postponed cases and cases in which oral argument has not been requested prior to submission day will follow cases that have been previously set for the day.

IV. Habeas corpus cases will have precedence and be assigned as set by the Court for such time and dates as may be convenient.

For Annotations and Historical Notes, see V.A.T.S.

V. Cases of general interest, where the public good demands, may be advanced on written motion under the direction of the Court.

VI. Any party desiring a rehearing of any matter determined by the Court of Criminal Appeals may, within fifteen (15) days after the opinion is handed down, file with the Clerk of said Court his motion in writing for a rehearing thereof, distinctly specifying the grounds relied upon for the rehearing.

If the Court hands down an opinion in connection with the overruling of a motion for rehearing, a further motion for rehearing may be filed by the losing party within fifteen (15) days after such opinion is handed down; but a further motion for rehearing shall not be made as a matter of right in any other case.

Any motion for rehearing may be amended any time before the expiration of the fifteen-day period allowed for filing it, and with leave of the Court any time before its final disposition.

All motions and other matters filed in the Court of Criminal Appeals and not disposed of at the end of the term shall be automatically continued to the next succeeding term of said Court.

VII. It is ordered by the Court that the time of oral arguments (unless extended in special matters) shall be limited as follows:

Felony cases with penalty fixed at five (5) years or more, forty (40) minutes opening; ten (10) minutes rejoinder.

Felony cases with penalty fixed at less than five (5) years, thirty (30) minutes opening; five (5) minutes rejoinder.

Misdemeanor, revocation of probation and habeas corpus cases, thirty (30) minutes opening; five (5) minutes rejoinder.

On motion for rehearing, the unsuccessful party may consume one-half of that allowed on original hearing, and the prevailing party shall not be permitted to orally reply.

VIII. Cases in which the record on appeal is not accompanied by defendant's appellate brief filed in the trial court are submitted as soon as possible after being filed. Where the proceedings are found regular and no question of law is raised in such cases, they will be disposed of by per curiam opinion not citing authorities. Such per curiam opinions shall not be published, and the Clerk of the Court shall not certify any such opinions for publication.

Should such an opinion be cited in any future case before the Court, it shall not be deemed an authority.

IX. The Court of Criminal Appeals meets at 9:30 A.M. each Wednesday during the term.

MISCELLANEOUS PROCEEDINGS

CHAPTER FORTY-SIX—INSANITY AS DEFENSE

Art. 46.02 [932b] Insanity in defense or in bar

Trial of insanity issue in advance of trial on merits

Section 1. The issue of present insanity shall be tried in advance of trial on the merits, upon written application on behalf of the accused. Status of patient acquitted; post-commitment procedures

Sec. 3. (a) A person committed to a State Mental Hospital or to a mental hospital operated by the United States or the Veteran's Administration under this Article upon a jury finding of insanity at the time of

For Annotations and Historical Notes, see V.A.T.S.

trial who has been acquitted of an alleged offense because of insanity at the time the alleged offense was committed is not by reason of that offense a person charged with a criminal offense. The procedures set forth in this Section, and no others, shall apply to all post-commitment determinations of the sanity of a person committed to a mental hospital upon a jury finding of insanity at the time of trial who has been acquitted of an alleged offense because of insanity at the time the alleged offense was committed and thereby is not a person charged with a criminal offense.

(b) If the head of mental hospital to which a person has been committed upon a finding of insanity at the time of trial who has been acquitted of the alleged offense, is of the opinion that the person is sane, the head of the mental hospital shall so notify the court which committed the person to the mental hospital. Upon receiving such notice, the judge of the committing court shall within a reasonable length of time impanel a jury to determine whether the person is sane or insane. If the jury finds the person is sane, he shall be ordered released as soon as the judgment on the jury verdict becomes final. If the jury finds the person is insane, the judgment on the jury verdict shall order the person returned to the mental hospital until adjudged to be sane at a subsequent jury trial in the committing court. When the person is so ordered returned to the mental hospital, the head of the mental hospital shall not again notify the committing court that he is of the opinion the person is sane for at least 180 days from the date the judgment of the committing court ordering him returned to the mental hospital on a previous jury finding of insanity has become final.

(c) When a person has been committed to a mental hospital upon a finding of insanity at the time of trial who has been acquitted of the alleged offense, and the person has been so committed for at least one year from the date of the original order so committing the person, and the head of the mental hospital to which he is committed fails or refuses to notify the court which committed the person to the mental hospital that he is of the opinion that the person is sane, then the person so committed may seek a post-commitment determination of his sanity by submitting a written request to the head of the mental hospital to which the person is committed requesting a determination of his sanity by the committing court.

Upon receipt of such a request, the head of the mental hospital shall, provided the person has been committed for at least one year from the date of the original order committing the person to the mental hospital, immediately cause the person to be examined by one or more staff physicians, and shall then immediately certify to the committing court the person's written request, the reports and findings of any examining physicians, and his own findings, if any.

Upon receipt from the head of the mental hospital of the person's written request and accompanying papers certified to the committing court, the judge of the committing court shall immediately cause the same to be filed with the clerk of the committing court and the judge shall examine such written request and accompanying papers to determine if they reflect probable merit. In the event the judge of the committing court does not believe that the written request and accompanying papers reflect probable merit, the judge shall enter an order denying the person's request, which order shall be appealable to determine whether there was an abuse of discretion in denying the person's request. The committing court may, at its discretion, appoint disinterested qualified experts to examine the person as to the person's mental condition and requirements for hospitalization, in a mental hospital, to report their findings to the committing court, and to testify thereto, and the committing court may, at its discretion, direct the hospital to forward to the court any hospital records pertaining to such person.

If the person's request, accompanying papers and other records or reports, reflect probable merit, the judge of the committing court shall with-

in a reasonable length of time impanel a jury to determine whether the person is sane or insane. If the jury finds the person sane, he shall be ordered released as soon as the judgment on the jury verdict becomes final. If the jury finds the person is insane, the judgment on the jury verdict shall order the person returned to the mental hospital until adjudged to be sane at a subsequent jury trial in the committing court. When a person is so ordered returned to the mental hospital, the person shall not again be permitted to request a post-commitment determination of his sanity for at least one year from the date the judgment of the committing court ordering him returned to the mental hospital on a previous jury finding of insanity has become final.

(d) Whenever a post-commitment jury trial is had in the committing court, whether occasioned by notice from the head of the hospital to which the person is committed as set forth in Section 3(b) hereof, or whether occasioned by the written request of the person committed as set forth in Section 3(c) hereof, the same shall be conducted under the following rules:

(1) The State of Texas shall be represented by the District Attorney or County Attorney of the county from where the person was originally committed. Whenever the committing court determines that the person committed is too poor to employ counsel, the court shall appoint one or more practicing attorneys to represent him and counsel so appointed shall be compensated according to the schedule set forth in Article 26.05, Code of Criminal Procedure.

(2) The Rules of Civil Procedure shall apply to the selection of the jury, the court's charge to the jury and to all other aspects of the proceedings and trial except when inconsistent with the provisions of this Section.

(3) Both parties to such proceedings and jury trial shall have the right to appeal the judgment of the committing court to the appropriate Court of Civil Appeals, and such appeals, if any, shall be controlled by the Rules of Civil Procedure, and the Rules of Civil Procedure shall determine when the committing court's judgment is final.

(4) The burden of proof shall rest on the person committed, by a preponderance of the evidence, and the jury shall be instructed by the court that a person is sane if they believe from a preponderance of the evidence that the person's mental condition is such that the person does not require hospitalization in a mental hospital for the person's own welfare and protection or for the welfare and protection of others.

(5) Both parties to such proceedings and jury trial shall have the same right of subpoena as in criminal cases to compel the attendance of out of county witnesses and such out of county witnesses shall be paid by the state in the same manner and amounts as provided for in Article 35.27 Code of Criminal Procedure.

Sec. 3 amended by Acts 1967, 60th Leg., p. 717, ch. 299, § 1, eff. Aug. 28, 1967; Acts 1969, 61st Leg., p. 2474, ch. 833, § 1, emerg. eff. June 18, 1969.

CHAPTER FORTY-NINE—INQUESTS UPON DEAD BODIES

Art. 49.01 [968] When held

It is the duty of the justice of the peace to hold inquests, with or without a jury, within his county in the following cases:

* * * * * * * * * * *

7. When a person dies who has been attended by a duly licensed and practicing physician or physicians, and such physician or physicians are not certain as to the cause of death and are unable to certify with certainty the cause of death as required by Rule 40a, Sanitary Code of Texas, Article 4477, Revised Civil Statutes, Chapter 41, Acts, First Called Session, 40th Legislature, 1927, page 116. In case of such uncertainty the attending physician or physicians, or the superintendent or general manager of the hospital or institution in which the deceased shall have died, shall so report to the justice of the peace of the precinct in which the death occurred, and request an inquest.

The inquests authorized and required by this Article shall be held by the justice of the peace of the precinct in which the death occurred, but in event the justice of the peace of such precinct is unavailable, or shall fail or refuse to act, then such inquest shall be conducted by the nearest available justice of the peace, corporation court judge, county judge or judge of the county court at law of the county in which the death occurred.

Art. 49.03 [970] [1060] Autopsies and Tests

The justice of the peace may in all cases call in the County Health Officer, or if there be none or if his services are not then obtainable, then a duly licensed and practicing physician, and shall procure their opinions and their advice on whether or not to order an autopsy to determine the cause of death. If upon his own determination he deems an autopsy necessary, the justice of the peace shall, by proper order, request the County Health Officer, or if there be none or if it be impracticable to secure his service, then some duly licensed and practicing physician who is trained in pathology to make an autopsy in order to determine the cause of death, and whether death was from natural causes or resulting from violence, and the nature and character of either of them. The county in which such autopsy and inquest is held shall pay the physician making such autopsy a fee of not more than \$300, the amount to be determined by the Commissioners Court after ascertaining the amount and nature of the work performed in making such autopsy. In those cases where a complete autopsy is deemed unnecessary by the justice of the peace to ascertain the cause of death, he may by proper order, order the taking of blood samples or any other samples of fluids, body tissues or organs in order to ascertain the cause of death or whether any crime has been committed. In the case of a body of a human being whose identity is unknown, the justice of the peace may, by proper order, authorize such investigative and laboratory tests and processes as are required to determine the identity as well as the cause of death.

Amended by Acts 1969, 61st Leg., p. 1845, ch. 618, § 1, emerg. eff. June 11, 1969.

The commissioners court shall pay to such expert or specialist such fee as it may determine reasonable not to exceed \$300.

(c) Except for agreements entered into by the governing board of a state university or college, the Central Education Agency shall be the sole agency of the State of Texas empowered to enter into agreements with respect to education undertakings, including provision of school lunches and the construction of school buildings, with an agency of the federal government. No county board of education or board of trustees of a school district shall enter into contracts with, or accept money from, an agency of the federal government except under rules and regulations prescribed by the Central Education Agency.

§ 11.03. Supervision of the Texas School for the Deaf

The Central Education Agency shall have exclusive jurisdiction and control over the Texas School for the Deaf, and it shall be the duty of the commissioner of education to appoint a superintendent for that school, subject to approval by the State Board of Education. Such jurisdiction shall extend but not be limited to the physical assets of the school, and appropriations made for its benefit shall be administered and expended by the agency.

§ 11.04. Superintendent of the Texas School for the Deaf

(a) The superintendent of the Texas School for the Deaf shall be a graduate of an accredited university or college, shall have a minimum of one school year of full-time classroom teaching, shall have at least a total of five years' experience in educating the deaf with at least two of those years acquired in some supervisory capacity in training the deaf, and shall have special training in the education of the deaf in a duly certified school granting such special training.

(c) The superintendent may be removed from office by the State Board of Education on recommendation of the commissioner of education for the commission of any felony or any other offense involving moral turpitude, or for failure to carry out the duties of his office.

§ 11.05. Printing at the Texas School for the Deaf

(a) The art of printing, in all its branches, shall be among the subjects of study offered at the Texas School for the Deaf.

(b) A competent, practical printer shall be employed as instructor.

(c) Any public printing for the state may be performed at the Texas School for the Deaf without regard to any contract with an individual, firm, or corporation for public printing.

§ 11.06. Supervision of the Texas School for the Blind

The Central Education Agency shall have exclusive jurisdiction and control over the Texas School for the Blind. It shall be the duty of the commissioner of education to appoint a superintendent for that school, subject to approval by the State Board of Education. § 11.08. Skilled Oculist for the Texas School for the Blind

A skilled oculist shall be employed to examine regularly all students at the Texas School for the Blind and to administer treatment to all cases of curable blindness among such students.

§ 11.09. Preschool Program for Children With Hearing Loss

(a) The Central Education Agency shall develop a special program for preschool children who have a hearing loss sufficiently severe to prevent adequate progress in speech development.

(b) The purpose of the program shall be to prepare such children for entry in the first grade of the Texas School for the Deaf or the Texas public schools by providing them with a command of some form of communication with others.

(c) Any child three years of age or older on his last birthday, who has a hearing loss sufficiently severe to prevent adequate speech development, shall be eligible for such a program.

(d) The Central Education Agency shall establish the academic requirements for teachers who teach in this program and shall issue certificates to teachers who meet such standards.

(e) The cost of operating this special program shall be borne by the state and each participating district on the same percentage basis applicable to financing the Foundation School Program within the district. The cost of the program shall include a salary—not to exceed the prevailing local salary scale—as well as a maintenance and operational allotment of \$50 per month for each teacher. The state's share of the cost will be paid from the foundation school program fund and shall be considered by the Foundation School Fund Budget Committee in estimating the funds needed for Foundation School Program purposes.

§ 11.10. Countywide Special Day Schools for the Deaf

(a) The Central Education Agency is authorized to approve the establishment and operation of countywide special day schools for the deaf in

all counties having a population of 300,000 or more inhabitants, according to the last preceding federal census. Such schools shall be administered by a centrally located school district designated by the Central Education Agency in each such county, and the school districts accepting the designation shall provide appropriate physical facilities, buildings, equipment, supplies, materials, and transportation to all eligible children residing in the county without regard to school district boundaries.

(b) The provisions in this section may apply to any two contiguous counties whose cumulative population exceeds 300,000 but does not exceed 335,000 inhabitants, according to the last preceding federal census, provided that such bi-county day schools shall be administered by one school district designated by the Central Education Agency.

(c) School districts in counties contiguous to those authorized to operate a bi-county day school for the deaf may participate in the day school for the deaf program upon approval by the Central Education Agency of requests from a school district in a county contiguous to those counties authorized to operate the bi-county day school and the school district designated to conduct the school. Participation of school districts in counties contiguous to those authorized to operate the bi-county day school for the deaf shall be on the same basis as for school districts within the counties authorized to operate the school.

(d) All deaf children between the scholastic ages of 6 and 21, inclusive, residing in the county providing a day school program herein authorized for such scholastics, shall be eligible to attend the school designated by the operating district.

(e) Deaf children between the scholastic ages of 6 and 13, inclusive, in such counties (heretofore eligible for admission in the Texas School for the Deaf) shall not be eligible for admission to the Texas School for the Deaf except upon recommendation of the superintendent of the operating district with the concurrence of the superintendent of the Texas School for the Deaf.

(f) Students between the scholastic ages of 6 and 13, inclusive, enrolled in the Texas School for the Deaf prior to August 28, 1961, from counties herein authorized to provide and which do provide countywide day schools shall have the option of continuing their program at Texas School for the Deaf or returning to their homes to attend the designated day schools authorized by this code.

(g) Children enrolled in the countywide day schools in such counties, who become 14 years of age on or before December 31, shall be eligible for admission to the Texas School for the Deaf or to continue their academic training and program of vocational planning, guidance, and training in the special day school.

(h) Total cost of operating countywide day schools authorized by this section shall be borne entirely by the state and shall be paid from the foundation school program fund. Such costs shall be considered and included by the Foundation School Fund Budget Committee in estimating the funds needed for purposes of the Foundation School Program and such countywide day school program. No part of the operating costs herein provided for shall be charged to any of the school districts of this state.

(i) Operating costs for the program in each county shall be determined and paid on the basis of the following factors:

- (1) one teacher unit shall be allocated for every eight eligible deaf pupils or major fraction of eight;

(2) schools with 15 or more teacher units shall be allocated a full-time principal unit;

(3) one supervisor shall be allocated for every 10 teacher units but not to exceed three supervisors; provided, however, that each approved school shall have at least one supervisor;

(4) salaries of the teacher, supervisor, and principal shall be determined, respectively, in accordance with the official salary schedule of the district where the day school is established;

(5) an operation expense allotment, including transportation, of \$500 per each eligible deaf pupil enrolled in the program each current school year; and

(6) one initial allotment in the amount of \$2,000 per each teacher unit approved for the first year of operation only shall be allowed for the acquisition of transportation vehicles, auditory and other classroom equipment, and other aids and adjustments needed for training the deaf pupils in this program.

(j) No state funds provided for in Subsection (i) of this section shall be used for any other purpose than for the countywide special day schools for the deaf program herein referred to.

(k) The Central Education Agency shall approve the educational program for the countywide day schools, and the program shall be comparable to that of the Texas School for the Deaf.

§ 11.11. Program for Non-English Speaking Children

(a) The Central Education Agency shall develop a special program for non-English speaking children.

(b) The purpose of the program shall be to prepare such children for entry in the first grade of the Texas public schools by providing them with a command of essential English words which will afford them a better opportunity to complete successfully the work assigned them.

(c) The program for non-English speaking children shall cover a period of three months.

(d) Any non-English speaking child who is at least five years of age and who will be eligible to enter the first grade in the ensuing school year may be enrolled.

(e) The Central Education Agency shall establish the academic requirements for teachers who teach in this program and issue certificates to those who meet such standards.

(f) The cost of operating this program shall be borne by the state and each participating district on the same percentage basis applicable to financing the Foundation School Program within the district. The state's share of the cost of the program shall include a salary—not to exceed \$200 per month—as well as a maintenance and operational allotment of \$50 per month for each teacher. The state's share of the cost shall be paid from the foundation school program fund, and shall be considered by the Foundation School Fund Budget Committee in estimating the funds needed for Foundation School Program purposes.

(g) This program shall not be set up in any school district, or combination of school districts, unless at least 15 children qualify. The extent to which any school district shall participate in the foundation school program fund over and above the first unit shall be based on an average daily attendance of 20 eligible pupils. No state funds provided for in this section shall be used by the school district for any purpose other than for the non-English speaking program.

§ 11.12. Involvement With School Bus Regulations

The Central Education Agency and the State Board of Control, by and with the advice of the director of the Department of Public Safety, shall have joint and complete responsibility to adopt and enforce regulations governing the design, color, lighting and other equipment, construction, and operation of all school buses for the transportation of school children when owned and operated by any school district or privately owned and operated under contract with any school district in this state, and the regulations shall by reference be made a part of any such contract with a school district. The State Board of Control shall coordinate and correlate all specification data, finalize and issue the specification so adopted as provided for by Section 10, Chapter 304, Acts of the 55th Legislature, 1955 (Article 664—3, Vernon's Texas Civil Statutes). In the regulations, emphasis shall be placed on safety features and long-range, maintenance-free factors, and requiring that all school buses shall be purchased on competitive bids as provided by Section 3, Article V, Chapter 334, Acts of the 51st Legislature, 1949 (Article 634(B), Vernon's Texas Civil Statutes). Every school district, its officers, employees, and every person employed under contract by a school district shall be subject to these regulations. The State Board of Control shall purchase equipment to conform to these standards.

§ 11.13. Appeals

(a) Persons having any matter of dispute among them arising under the school laws of Texas or any person aggrieved by the school laws of Texas or by actions or decisions of any board of trustees or board of education may appeal in writing to the commissioner of education, who, after due notice to the parties interested, shall hold a hearing and render a decision without cost to the parties involved, but nothing contained in this section shall deprive any party of any legal remedy.

(b) The decisions of the commissioner of education shall be subject to review by the State Board of Education.

(c) Any person, county, or school district aggrieved by any action of the Central Education Agency may appeal to a district court in Travis County, Texas. Appeals shall be made by serving the commissioner of education with citation issued and served in the manner provided by law for civil suits. The petition shall state the action from which the appeal is taken, and if the appeal is from an order of the State Board of Education, shall also set out the order, or relevant portion thereof. Upon trial the court shall determine all issues of law and fact.

§ 11.14. Right Denied to Close or Consolidate Any Public School District

(a) The provisions of this chapter shall not be construed to give the State Board of Education, the commissioner of education, the State Department of Education, or anyone whomsoever, the power to close, to consolidate, or cause by regulation or rule to be closed or consolidated, any public school district in this state.

(b) The provisions of this code regarding and applicable to the consolidating, annexing, or otherwise closing of school districts of this state shall govern in all such matters.

§ 11.15. Advisory Council for Language-Handicapped Children

(a) The Advisory Council for Language-Handicapped Children shall consist of 12 members appointed by the governor, each member to serve

at the pleasure of the governor from the date of his appointment until August 31, 1970.

(b) The governor shall designate the chairman of the council. A majority of the appointed members, at the call of the chair, shall organize and elect the other officers that the council deems necessary.

(d) A majority of the council is a quorum for the conduct of business.

(e) The duty of the council is to study the problems of language-handicapped children and to advise the commissioner and the Central Education Agency in the development of programs designed to diagnose and treat the problems of language-handicapped children.

(f) The council shall report to the 62nd Legislature its findings and recommendations concerning the establishment of statewide diagnostic and treatment facilities for language-handicapped children.

(g) The governor shall appoint the members of the council as soon after the effective date of this act as possible. Because of the diverse nature of the problem of language-handicapped children, the governor is hereby encouraged by the legislature to make some appointments from the fields of psychology, medicine, and education.

(h) The Central Education Agency shall:

(1) develop programs, with the advice of the council, designed to diagnose and treat the problems of language-handicapped children; that is, a child who is deficient in the acquisition of language skills due to language disability where no other handicapping condition exists;

(2) establish, with the advice of the council, at least three regional experimental diagnostic facilities;

(3) develop rules, regulations, and guidelines governing the operation of the experimental diagnostic facilities;

(6) seek and may accept grants from public and private sources to finance research and to develop a program designed to diagnose and treat language-handicapped children; and

(7) provide necessary staff, offices, and facilities for the council to conduct its business.

(i) The commissioner of education shall transmit to the 61st Legislature an interim report on the status of the research into the problem of diagnosing and treating language-handicapped children. (e) The board of trustees shall have the authority of transferring any school children who cannot be provided for by the district of their residence to any public school district maintaining adequate facilities and standards for elementary, junior, or senior high schools.

(f) The State Board of Education may make such special regulations and orders for the government of the district as it may deem expedient, but the laws pertaining to independent school districts, where the district is not otherwise ordered, shall govern such district.

(g) On the written request signed by a majority of the board of trustees of the district, the State Board of Education may abolish the district, in which event the State Board of Education shall give written notice to the board of trustees of the district and to the board of county school trustees or county board of education of the county in which the district is located. (h) Any military reservation territory which is subject to the same post or base command as a military reservation used to house dependents of military and civilian personnel and which wholly contains an independent school district, whether or not such reservations are contiguous, may be annexed to that reservation independent school district by the State Board of Education pursuant to a petition by that post or base commander.

(i) When any military reservation territory has been annexed to an independent school district of the same post or base command under Subsection (h) of this section, and the territory is no longer used to house dependents of military and civilian personnel, the State Board of Education, on petition of the post or base command, or on petition of a majority of the trustees of the school district from which the territory was originally detached, shall be authorized to detach such territory from the military reservation constituting an independent school district and to annex it to the school district from which it was originally detached.

(b) Expenses eligible for payment in whole or in part from federal and special funds shall be designated in the budget.

(c) Expense items budgeted which are not eligible for payment from federal or special funds shall be paid from the foundation school program fund.

(d) The State Board of Education shall budget annually from the foundation school program fund for the operation of the Central Education Agency an amount not to exceed four-tenths of one percent of the total cost of the Foundation School Program as estimated for purposes of the foundation School Program Act by the board at its March meeting immediately prior to the adoption of the budget at the July meeting.

(e) The budget cost of operating the Central Education Agency which is paid from the foundation school program fund shall be included in the estimated cost of the Foundation School Program which is computed by the State Board of Education in March of each year for the determination of the local fund assignment to be charged to each school district.

(f) On or before August 15 of each year, a copy of the approved operating budget for the Central Education Agency showing total funds budgeted by sources of funds shall be filed with the state comptroller of public accounts. Thereafter, vouchers submitted by the state commissioner of education shall be paid from the appropriate fund.

§ 11.30. Authority to Enter Into Contracts for Grants

For the maintenance and improvement of state educational programs and activities in the public schools, the State Board of Education may enter into contracts for grants from both public and private organizations and may expend such funds under the terms and for the specific purposes contracted.

§ 11.31. Teacher-Training Programs

(a) The State Board of Education shall develop and publicize a program specifically designed to encourage and facilitate the entry into public-school teaching and into teacher-training programs of a corps of intelligent, mature, and concerned persons who have received bachelor's degrees from accredited institutions of higher education.

(b) The State Board of Education and the institutions of higher learning in this state that are approved for teacher education shall cooperate to develop procedures for the individual evaluation and appraisal of the training and training needs of persons applying for teacher certification who have possessed a bachelor's degree from an accredited institution of higher learning for a period of three years or longer and who are eligible under the laws of Texas to be certified, and to provide to these persons teacher-training programs that are appropriate to their needs and that can be completed in a reasonable time.

(c) The president or chancellor of each college or university in this state approved for teacher training shall appoint a three-member evaluation team to perform the individual evaluation and determine the individual training needs referred to in Subsection (b) of this section. The evaluation team shall be comprised of two members of the faculty of the department or school of education and

(1) one member from the school or college of arts and sciences if the individual is applying for evaluation for elementary certification; or

(2) one member from the teaching field of the individual if the applicant is applying for evaluation for secondary certification.

(d) More than one team as described in Subsection (c) of this section may be appointed at an institution when needed.

(e) When an applicant meeting the requirements in Subsection (b) of this section seeks to become certified to teach in the public schools of Texas, he shall present his transcript and any information covering any work experience or additional qualifications to an institution of higher learning approved for teacher education. The institution's evaluation team shall evaluate the applicant's transcript and work experience and, when practicable, interview the applicant to determine any deficiencies in either professional or content preparation, in the area of teaching specialization chosen by the applicant. The evaluation team shall give due consideration to the applicant's work experience, as well as to his academic record, and to any other evidence bearing upon his qualification as a teacher. The evaluation team shall then recommend what additional course work or other preparation is needed by the applicant to qualify for certification under standards established by the State Board of Education. While the applicant is pursuing the study and preparation recommended by the evaluation team, he will remain under its general guidance. His training may be reevaluated by the team when necessary, as when any teaching experience is acquired by the applicant either in student teaching or under emergency permit. When the team finds the applicant has satisfactorily met the requirements for certification, the team shall recommend him for a provisional certificate.

(f) The State Board of Education, with the advice and assistance of the state commissioner of education, shall develop a pattern of minimum standards for the certification of persons under this section. The pattern shall recognize the role and responsibility of the evaluation teams. As far as the training of persons under this section is concerned, the board shall allow the waiver of any current requirements for the provisional certificate not stipulated or implied by the standards developed for the guidance of institutions for this particular program. However, nothing in this section shall be construed as permitting more requirements of an applicant under this section than would be made in an undergraduate program of teacher preparation; to the contrary, the legislative intent of this section is that, in recognition of the maturity, experience, and level of achievement of applicants in this program, course requirements would more likely be reduced, compressed, or combined, and would be more freely interchangeable with similar courses.

(g) The Central Education Agency is hereby authorized and directed to prepare, or have prepared, publicity materials, and to make these materials available for use to television and radio stations, newspapers and other periodicals, and any other appropriate communications media, to encourage qualified persons to enter the teaching profession and to publicize the training program directed in this section, as well as other teacher-training programs. The Central Education Agency is hereby authorized to use for this purpose any funds that have been or may be appropriated to it, and to accept and spend for this purpose any gifts or donations of funds made for this purpose.

(h) When the commissioner of education shall so direct, in the case of applicants seeking to enter this program to qualify to teach in trade or industrial courses, the requirement herein for a bachelor's degree may be waived.

(i) The State Board of Education, with the advice and assistance of the state commissioner of education, is hereby authorized to establish such rules and regulations as are not inconsistent with the provisions of this section and which may be necessary to implement and carry out the legislative policy expressed herein.

§ 11.32. Regional Education Media Centers

(c) Regional centers shall be located throughout the state so that each school district has the opportunity to be served and to participate in an approved center, on a voluntary basis. No center shall be approved unless it serves an area having 50,000 or more eligible scholastics in average daily attendance for the next preceding school year, except that the Central Education Agency may make an exception for sparsely populated areas.

(d) A Regional Education Media Center is an area center, composed of one or more Texas school districts, that is approved to house, circulate, and service educational media for the public schools of the participating districts.

(e) Each center shall be governed by a five- or seven-member board. The board size shall be determined locally and recommended in the initial application for center approval. The State Board of Education shall adopt uniform rules and regulations to provide for the local selection, appointment, and continuity of membership for regional center boards. Vacancies shall be filled by appointment by the remaining members of the regional board for the unexpired term. All members shall serve without compensation.

(f) The Regional Media Board is authorized to employ an executive director for its respective center and such other personnel, professional and clerical, as it deems necessary to carry out the functions of the center, and to do and perform all things which it deems proper for the successful operation thereof, and to pay for all operating expenses by warrants drawn on proper funds available for such purpose.

(g) Any school district which is a participant member of a Regional Education Media Center may elect to withdraw its membership in the center for a succeeding scholastic year, electing not to support nor to receive its services for any succeeding year. Title to and all educational media and property purchased by the center shall remain with and in the center.

(h) The Central Education Agency, through its audit and accreditation divisions, shall review for purposes of continuity and standardization the services of the centers.

(i) The cost incident to setting up the centers, their operation, and the purchase of education media supplies and equipment shall be borne by the state and each participating district to the extent and in the manner provided in this section.

(j) The state shall allot and pay to each approved center annually an amount determined on the basis of not to exceed \$1 per scholastic in average daily attendance for the next preceding school year in the district or districts that are participants in an approved center. The funds or amount provided by the state shall be used only to purchase educational media or equipment for the center which have had prior approval of its Regional Media Board and the Central Education Agency through its budgetary system.

(k) School districts as participant members in the center shall provide and pay to the proper center a proportionate amount determined on its ADA for the next preceding school year matching the amount provided by the state. The matching funds provided by the participant districts, including any donated or other local-source funds, may be used to pay for costs of administration of and/or servicing by the center and to purchase supplemental educational media. A center shall not enter into obligations which shall exceed funds available and/or reasonably anticipated as receivable for the current school year.

(l) Annually, pursuant to such regulations and procedure as may be prescribed by the agency, the governing board of each center shall determine the rate per pupil based on ADA the next preceding school year, not to exceed the \$1 limit prescribed in this section, which shall constitute the basis for determination of total amount to be transmitted by participant districts to the center and as matching funds from the state's contribution to this program.

(m) The state's share of the cost in the Regional Education Media Centers program herein authorized shall be paid from the minimum foundation school program fund, and this cost will be considered by the Foundation Program Committee in estimating the funds needed for foundation program purposes. Nothing in this section shall be construed to prohibit a center from receiving and utilizing matching funds in any amount for which it may be eligible from federal sources.

§ 11.33. Regional Education Service Centers

(a) The State Board of Education may provide for the establishment and a procedure for the operation of Regional Education Service Centers by rules and regulations adopted under this section and the provisions of Section 11.32, to provide educational services to the school districts and to coordinate educational planning in the region.

§ 12.16. Other Provisions

(a) In the event as many as three suitable textbooks are not offered for adoption on any one subject, the board may select fewer than three textbooks.

(b) Specific rules as to the manner of selection for all books on the multiple lists provided for in this section shall be made by the State Board of Education.

(c) Textbooks adopted in accordance with the provisions of this section are adoptions for every public school in this state and no public school in the state shall use any textbook unless it has previously been approved and adopted by the State Board of Education. The board shall prescribe rules under which such textbooks adopted and approved shall be introduced or used by or in the public schools of the state.

(d) Textbooks on physiology and hygiene shall contain at least one chapter on the effect of alcohol and narcotics.

§ 12.17. Public Notice of Adoptions to be Made

(a) When textbooks are to be selected and adopted under the provisions of this code, or where a contract for a textbook then in use is about to expire, two months in advance of the meeting of the State Board of Education at which the adoptions may be made, the chairman of the State Board of Education shall give public notice—

- (1) by having printed in the public press a notice to the effect that the meeting will be held and that adoptions will be made; and
- (2) by sending written notices to all persons, firms, or corporations in whose behalf the notices shall have been requested.

(b) The notices required by Subsection (a) of this section shall contain:

- (1) the time and place of the meeting of the State Board of Education at which the adoptions may be made;
- (2) the subjects on which textbooks may be adopted;
- (3) the last date on which sample copies of books offered for textbook adoption may be submitted;
- (4) the amount of cash deposit required;
- (5) the time to be allowed for signing contract and filing bond after the award is made; and
- (6) a statement that formal proposals will be received on the date of the meeting.

§ 12.18. Filing of Bids and Sample Copies

(a) At least 30 days prior to the date of the meeting of the State Board of Education at which adoptions are to be made, sample copies of each book on which a bid will be submitted shall be filed with the commissioner of education.

(b) Every person, firm, or corporation desiring to submit a bid on a book for adoption shall make the bid, by filing with the commissioner of education five copies of each book offered for consideration, and such additional copies as thereafter may be requested by the commissioner. Publisher's price information as required in this section and as may be requested on regular and special editions shall be printed, stamped, or pasted in each copy of each book filed with the commissioner of education.

(c) The bid shall state the prices at which the book is offered to Texas, f.o.b. the publisher's Texas depository and the terms and conditions upon which the book will be furnished. The terms and conditions shall not be in conflict with other provisions of this chapter.

(d) The bids shall be submitted in two forms, one in which is stated the allowance made for books then in use and the property of the state when offered in exchange for the new books to be adopted under this code; the other without stating the allowance for presently owned books, which would remain the property of the state. The allowance and condition for exchange, if agreed to and accepted by the state, shall be enforced only during the two scholastic years following a change in books.

(e) Information which shall also be printed, stamped, or pasted in each copy of each book filed with the commissioner of education shall be:

(1) a statement of the price at which the book or special editions are sold in other places under state or county adoptions, and the minimum quantities in which it will be sold at such prices;

(2) a statement of the publisher's catalogue price of the book or special editions, together with trade discounts and the conditions under which, and the purchasers to whom, such discounts are allowed, and the place of delivery; and

(3) a statement of the minimum wholesale price at which the book or special editions are sold f.o.b. the shipping point of the publisher and the name of the shipping point.

§ 12.19. Deposits With the Treasurer of the State

(a) In compliance with the published notice of adoptions to be made, each person, firm, or corporation submitting a bid or bids on a book or books for adoption shall deposit with the treasurer of the State of Texas such sum of money as the State Board of Education may require, but not less than \$500 nor more than \$2,500 according to the value of the books each bidder may propose to supply.

(b) Such deposits shall be returned to the unsuccessful bidders on certificate of the commissioner of education that no contract has been awarded on the bid for which the sum was deposited.

(c) When any successful bidder has been awarded a contract and has filed his bond and contract with the State Board of Education and they have been approved, the State Board of Education shall make an order on the treasurer of the state reciting such facts, and the treasurer shall return the deposit of such bidder to him.

(d) If any successful bidder fails to make and execute the contract and bond as provided in this subchapter, the deposit made by the successful

bidder shall be forfeited to the state absolutely and the treasurer shall place the deposit of the bidder in the state treasury to the credit of the available school fund, and the State Board of Education may readvertise for other bids to supply the book or books.

§ 12.20. Affidavit of Eligibility and Agency

(a) Each person, firm, or corporation submitting a bid on any book or books for adoption shall file with the commissioner of education on the day that the State Board of Education meets or within the last five days just preceding the date on which the board meets, an affidavit executed by the individual bidder or a member of the firm or the president and secretary of the corporation bidding, setting forth all of the facts with reference to the eligibility of the bidder to make a proposal.

(b) Each affidavit filed must contain the following:

(1) the names of all persons employed to act for the bidder, directly or indirectly, in any way whatsoever in securing the contract or in the preparation of the bid or bids and supporting documents, together with the addresses of such individuals and the capacity in which each served;

(2) the names of any persons who may have at any time during the preceding year received, either directly or indirectly, any money or other thing of value from the bidder by way of emolument for services rendered in this state, either directly or indirectly, in securing or attempting to secure contracts for the sale of books of the publisher or in promoting the sale of such books to the State of Texas;

(3) a statement that no member of the State Board of Education or of the State Textbook Committee is in any way interested, directly or indirectly, in the individual, firm, or corporation bidding; and

(4) a statement that the antitrust affidavits and other materials required by Section 12.22 of this code have been filed.

(c) In the event any publisher, after filing the affidavit, shall employ an attorney or other representative to assist in securing the award of a contract by the State Board of Education, he shall disclose such employment to the board by filing a supplementary affidavit before any contract in which he is interested shall be awarded.

(d) A publisher who cannot or does not comply with the provisions of this section shall not be eligible to bid.

§ 12.21. Affidavit as Warranty

The statements made in all affidavits filed by a publisher shall be considered warranties and, if found to be untrue, shall subject the contract to forfeiture and authorize a recovery on the bond to the full amount thereof, as liquidated damages, unless it is shown that such misstatement or nondisclosure of fact was unintentional or an oversight on the part of the publisher.

§ 12.22. Antitrust Regulations

(a) No book or books shall be purchased from any person, firm, or corporation who is a member of or connected with any trust.

(b) The affidavits (as shall be applicable to the bidder) which the State Board of Education shall require all persons, firms, and corporations bidding for a contract to file with the board, on or before the date selected by the board for receiving sealed bids for textbook adoptions,

and in order to carry out the requirement of Subsection (a) of this section, are as follows:

(1) Each person, firm, or corporation shall file a sworn affidavit that said person, firm, or corporation is not a trust and is not connected either directly or indirectly with a trust.

(2) Each person, firm, or corporation shall file a sworn affidavit stating whether the person, firm, or corporation is interested, or whether the person, firm, or any member thereof, or any individual stockholder of such corporation is interested or acting as a director, trustee, or stockholder, either directly or indirectly or through a third party, or in any manner in any other textbook publishing house. This statement shall be sworn to by the person, a member of such firm, or the president, secretary, and each of the directors of a corporation.

(3) Each firm bidding for a contract supplying books shall present a sworn statement signed by all its members, showing the names of all members of the firm, and stating whether any other person, firm, or corporation has any financial interest in the firm, and also whether any individual members of the firm have any financial interest in any other textbook publishing firm or corporation or textbook publishers.

(c) The State Board of Education shall also require the corporations, persons, or firms to file attested copies of all written agreements entered into and existing between them and others engaged in the textbook publishing business.

§ 12.23. Consideration of Bids

(a) The State Board of Education shall meet at the time and place mentioned in the public notice of adoptions to be made, as specified in Section 12.17 of this code. The board shall then and there open and examine the sealed proposals received.

(b) No bid shall be considered from, and no contract shall be made with, any publisher who has failed to establish his eligibility in compliance with the terms of Section 12.20 of this code;

(c) No bid shall be considered and no book or books shall be purchased from any person, firm, or corporation who is a member of or connected with any trust, or if, in the opinion of the State Board of Education, the affidavit, written agreements, or other facts presented in compliance with the terms of Section 12.22 of this code are violations of the anti-trust laws of the State of Texas or opposed to public policy.

(d) No person, not the author or publisher or the bona fide permanent and regular employee of the publisher, shall appear before the State Board of Education in behalf of any book submitted to the board for adoption or seek to influence the members thereof.

§ 12.24. Selection and Adoption

(a) The State Board of Education shall make a full and complete investigation of all books and accompanying bids. The textbooks shall be selected and adopted after a careful examination and consideration of all books presented.

(b) The books selected and adopted shall be those which in the opinion of the board are most acceptable for use in the schools. Quality, mechanical construction, paper, print, price, authorship, literary merit, and other relevant matters shall be given such weight in making the decisions as the board may deem advisable.

(c) No textbook shall be adopted until it has been read carefully and examined by at least a majority of the State Textbook Committee.

(d) The State Board of Education shall proceed without delay to adopt for use in the public schools of this state textbooks on all branches authorized by this chapter; but if the bids submitted are not satisfactory, the board may postpone the selection of the books or a part of them to such time as the board may select, and after readvertising, new bids may be received and acted on by the board in the same manner as original bids.

(e) If no texts on any prescribed subject are submitted by any particular publisher or publishers that meet the requirements of the schools, as may be determined by the board, then it shall be the duty of the board to instruct the commissioner of education to investigate the book market for the purpose of securing bids with a view of providing at the most reasonable price or prices possible, the best available texts on subjects that are to be adopted by the board for the schools of Texas.

§ 12.25. Maximum Price

The maximum price which the State Board of Education shall contract to pay, f.o.b. the Texas depository of the publisher, for any books to be used in the public schools of this state shall not exceed the minimum price at which the publisher sells the book in wholesale quantities, f.o.b. the publisher's publishing house, after all discounts have been deducted. Any contract made for the purchase of books for use in the public schools of Texas at a higher price than the maximum price fixed by the preceding sentence of this section shall be void.

§ 12.26. Bond

(a) The bidder to whom any contract may have been awarded shall execute a good and sufficient bond payable to the State of Texas. The bond shall be in an amount which the State Board of Education deems advisable but not less than \$2,500 for each textbook adopted by the State Board of Education for use in the public schools of the state. The bond shall be approved by the State Board of Education and shall be conditioned that the contractor shall faithfully perform all the conditions of the contract.

(b) For the purpose of securing satisfactory bond a series of pamphlet writing books shall be considered as one textbook, a series of pamphlet drawing books shall be considered as one textbook, and a series of band, chorus, or orchestra pamphlet-type books shall be considered as one textbook.

(c) The bond shall not be exhausted by a single recovery thereon, but may be sued on from time to time until the full amount is recovered.

(d) The State Board of Education may, at any time, on 20 days' notice, require a new bond to be given and in the event the contractor, shall fail to furnish new bond, the contract of the contractor may at the option of the State Board of Education, be forfeited.

§ 12.27. Preparation and Execution of Contract and Bond

(a) The contract and bond shall be prepared by the attorney general, and be payable in Travis County, Texas, and shall be deposited in the office of the secretary of state.

(b) Each contract shall be duly signed by the publishing house or its authorized officers and agents; and if it is found to be in accordance with all the provisions of this chapter, and if the bond required by this

chapter is presented and duly approved, the State Board of Education shall approve the contract and order it to be signed on behalf of the board by the chairman.

(c) All contracts shall be made in duplicate, one copy to remain in custody of the secretary of state and be copied or appear reproduced in full in the minutes of the meeting of the State Board of Education in a well-bound book, and the other copy to be delivered to the company or its agent.

§ 12.28. Provisions for Updating Books

(a) Every contract shall contain a provision that the State Board of Education may, during the life of the contract, on giving one year's previous notice to the publishers of the book or books, order the changes, amendments, and additions to the book or books so selected and adopted as in the discretion of the board shall keep them up-to-date and abreast of the times. Such revisions shall not be made more often than at two-year intervals.

(b) If in the judgment of the State Board of Education changes or revisions make it impractical for the revised books to be used in the same class with the old books, the publishers shall be required to give the same exchange terms as were given when the books were first adopted, and the exchange period shall extend two years from the time the revised books are first put into use in the schools.

(c) Nothing in this section shall be construed to give the State Board of Education power or authority to abandon any book or books originally contracted for.

§ 12.29. Other Contract Provisions

(a) The State Board of Education shall specify the duration of time of all adoption contracts, which shall be for a period the board may determine but not to exceed six years.

(b) The right to exclusive use of new books during the first three years of the term of any contract shall be waived by the contracting publishers to provide for the gradual introduction of new books.

(c) No contract shall ever be made that binds the state to buy a specific number of a specific quantity of textbooks, but all contracts shall be for such books as the state may need.

(d) Each contract shall provide or be construed to authorize that any book adopted in the contract by the State Board of Education may be sold by the publisher designated depository to any person, or to private and/or parochial schools, or state institutions of this state at the same rate and discount as those granted to the state, provided advance payment accompanies the purchase.

(e) Each contract shall contain a clause to the effect that, if the contract is cancelled by reason of fraud, collusion, or material breach, the full amount of the bond given by the contractor shall be considered as liquidated damages to be recovered out of the bond by the state at the suit of the attorney general.

§ 12.30. Announcement of Adoption

(a) As soon as the State Board of Education has entered into the contract for the furnishing of books for the public schools of this state under the provisions of this chapter, it shall be the duty of the board to issue its proclamations of such facts to the people of the state.

(b) As soon as practical after the adoption of the textbooks provided for in this chapter, the commissioner of education shall address to the county superintendents and to the presidents of the school boards in independent school districts and to the presidents of school boards in common school districts having 300 or more scholastic population a circular letter which shall contain a list of all the books and such other information as he may deem advisable.

§ 12.31. Central Depositories

All parties with whom book contracts have been made shall establish and maintain in some city in the state a depository where a stock of their goods to supply all immediate demands shall be kept; all contractors not maintaining their own individual or separate state agencies or depositories shall maintain a joint agency or depository to be located at some suitable and convenient distributing point. At the general depository each contractor joining in the agency shall keep on hand a sufficient stock of books to supply the schools of the state.

§ 12.32. Enforcement of Contracts

(a) Any person, firm, or corporation with whom a contract has been entered into under the provisions of this chapter, shall designate the secretary of state of Texas as its agent, on whom citation shall be served, and all other writs and processes, in the event any suit shall be brought against the person, firm, or corporation.

(b) The commissioner of education shall carefully label and file away the copies of books adopted as furnished for examination to the State Board of Education; the copies shall be securely kept and the standard of quality and mechanical excellence of the books so furnished under contract shall be maintained during the continuance of the contract.

(c) Complaints regarding textbook service or quality shall be made both to the commissioner of education and to the state depository designated by the contractor of the books. In the event a complaint does not receive reasonable prompt attention, the complaint shall be taken to the county judge, who shall report the fact to the attorney general. The attorney general shall bring suit on account of the failure in the name of the State of Texas in a district court of Travis County, and shall recover on the bond given by the contractor for the full value of the books not furnished as required, and an additional sum of \$100. Each day of failure to furnish the books shall constitute a separate offense. The amounts so recovered shall be placed to the credit of the state textbook fund.

§ 12.33. Cancellation of Contracts

(a) Any contract entered into under the provisions of this chapter may be cancelled by the state in a suit instituted by the attorney general for fraud, or collusion, or material breach of the contract on the part of either party to the contract or any member of the State Board of Education or any person, firm, or corporation, or their agents making the bond or contract.

(b) For the cancellation of any such contract the attorney general is authorized to bring suit in the proper court of Travis County.

(c) In case of the cancellation of any contract as provided for, the damages shall be fixed at not less than the amount of the bond, to be recovered as liquidated damages in the same suit canceling contract. Because of the difficulty of determining the damages that might accrue by

reason of fraud, collusion, or material breach, and cancellation of a contract, the full amount of the bond given by the contractor shall be considered as liquidated damages to be recovered by the state at the suit of the attorney general.

(d) In the event it is established that any antitrust regulation as specified in Section 12.22 of this code has been violated, the violation shall be held to be fraud and collusion, and the attorney general shall bring suit on the bond of that person, firm, or corporation, and on proof of violation shall recover the liquidated damages as provided for in this section.

§ 12.34. Continuing or Discontinuing Textbooks

(a) It shall be the duty of the State Board of Education to meet annually on the second Monday in November and at such other times as it may deem necessary for the purpose of considering the advisability of continuing or discontinuing, at the expiration of each current contract, any or all of the state-adopted textbooks in use in the public schools of Texas and for making such adoptions as are provided for in this chapter.

(b) Adoptions for the total number of different texts shall be so arranged that contracts on not more than one-sixth of the total number of different basal subjects shall expire in any one year or shall be changed in any one year. The series of pamphlet books referred to in Section 12.26(b) of this code shall each be considered as one book.

(c) Before making any change in the adopted series, the board shall, on thorough investigation, satisfy itself that a change is necessary for the best interest of the school children and that such change is consistent with financial economy.

(d) Before the board shall determine to displace any book on which the contract is expiring, it shall, before making a new contract for a new text, ascertain through the office of the commissioner of education the number of usable books of the kind on which the contract has expired or is about to expire, there are on hand, and also the estimated number of books that would be required to supply the needs of the schools of the state using the books for the first, second, and third years immediately succeeding the expiration of the contract on the books. The purpose of furnishing such an estimate of the number of books needed shall be to give the textbook publishers only an approximation as to the possible quantity of books which the state may need, but the state shall not be bound to any specific quantity.

(e) At the time the commissioner of education undertakes to secure a statement of the number of usable books on hand, as provided above, he shall also secure from the superintendents of independent school districts and of common school districts having 300 or more scholastic population and from county superintendents an expression as to whether or not they believe the existing text should be readopted or a new text adopted, and such information shall be for the use of the State Board of Education, but the board shall not be bound to readopt the old text or to adopt a new text by reason of such expression of preference by the superintendents.

(f) The board shall then secure from the publisher of the book on which the contract has expired or is about to expire a bid or offer for the furnishing of such textbooks to meet the actual necessities of the schools of the state during the first-, second-, and/or third-year period, allowing the state, however, a margin of 25 percent over, or 25 percent under, the estimated number to be required.

(g) If, upon consideration of the cost of the books required to supply such needs for such a period, it appears to the board that it will be economical to do so, it may make a contract with such publishers to furnish such books during said first-, second-, and/or third-year period with a view to using up the entire supply of such books on hand instead of wasting the same at the expiration of the original contract. At the expiration of the period, the board shall then make a contract for a textbook on the subject.

(h) Unless new textbooks better suited to the requirements of the schools are offered to supplant existing textbooks at a price and in quality satisfactory to the board, the board shall renew the existing contracts for such period as may be deemed advisable not to exceed a period of six years.

()¹ Whenever the contractor supplying any book agrees to renew the contract on the same terms for a period of not less than two years nor more than six years, the members of the State Board of Education shall give preference to the offer of the company holding the contract if they shall thereby secure as good or better books at a lower price than by making a different contract.

(j) It shall always be lawful for the board to renew a contract on such terms that in its judgment may be for the best interest of the state.

1. So in enrolled bill.

§ 12.35. Purchase and Distribution

(a) The purchase and distribution of free textbooks for the state shall be under the management of the commissioner of education, subject to the approval of the State Board of Education.

(b) One copy of each textbook used in the work taught by the teacher shall be issued by the school trustees, or their representatives, to each teacher as a desk copy. These books shall be returned to the trustees or their representatives at the close of the session.

(c) Books purchased in accordance with the terms of this chapter shall be delivered to the school districts f.o.b. the Texas depository of the publisher and shall be shipped by freight, parcel post, or express, as may be set out in the requisition.

(d) If it is necessary for the publisher or the depository to prepay any shipping charge, it shall be repaid by the state, in the same manner that the books are paid for, and in addition to the bill for books.

(e) The State Department of Education may direct the route by which books shall be shipped.

(f) Bills for textbooks purchased by the state on requisitions as provided for in this chapter shall be paid by warrants on the state treasury made by the state comptroller of public accounts on receipt of bills approved by the commissioner of education. The payment shall be made within 90 days from date of delivery, and if payment is delayed thereafter, a six percent per annum shall be added until date of payment.

(g) Any person, school not controlled by the state, state institution, or dealer in any county in the state may order books from the state depository designated by the publisher, and the books so ordered shall be furnished at the same rate and discount as are granted to the state, but in that case the designated depository may require that the price of books so ordered shall be paid in advance.

[Sections 12.36–12.60 reserved for expansion]

SUBCHAPTER C. LOCAL OPERATIONS

§ 12.61. Requisitions

(a) On the first school day of April each teacher shall report the maximum attendance of each of his grade levels taught, to the school principal or superintendent, if any, or to the county superintendent.

(b) Within one week subsequent to the first school day in April compiled reports as to the maximum attendance for the school shall be made by the principal to the superintendent or, if there is no district superintendent, the report shall be made to the county superintendent having jurisdiction of the district.

(c) Each superintendent of an independent school district, and each principal of a school district classified as common having a scholastic population of 300 or more and electing to have its books requisitioned and distributed directly to the district, shall compile maximum attendance reports and make such reports to the commissioner of education.

(d) Each county superintendent shall compile reports of the schools classified as common and under his jurisdiction (except for those electing to requisition directly as provided in Subsection (c) of this section), and make a report to the commissioner of education.

(e) Books needed as reported in Subsection (d) of this section shall be requisitioned and distributed entirely through the office of the county superintendent. However, any school district classified as common with a scholastic population of 300 or more may elect to have its books requisitioned and distributed in the same manner as are those for independent school districts. The duties of the county superintendent with reference to the care and distribution of textbooks shall be subject to the approval of the county school board and the commissioner of education.

(f) Reports as to the maximum attendance of each school shall be made to the commissioner of education as prescribed in Subsections (c) and (d) of this section not later than April 25 of each year. Blank forms for such reports and for the requisition of textbooks shall be prepared and furnished by the State Department of Education.

(g) Requisition for textbooks for a subsequent session shall be based on the reports of the maximum number of scholastics in attendance during the preceding school session, plus an additional 10 percent, except as otherwise provided. Requisitions shall be made through the commissioner of education and furnished by him to the state depository designated by contractors of books not later than June 1 of each year; but in cases of unforeseen emergency the designated state depository shall fill orders for books on requisition approved by the State Department of Education.

(h) Requisitions for textbooks shall be delivered to the county superintendent by each principal or superintendent of those school districts whose books are requisitioned and distributed through the county superintendent.

(i) Requisitions for supplementary readers and other textbooks may be made at convenient times during the session and should be made within one month in advance of the time the books will be needed.

§ 12.62. Local Adoptions

(a) No public school in the state shall use any textbook unless it has been previously adopted and approved by the State Board of Education.

(b) In each subject of the elementary and high school grades, one or more of the several textbooks of each multiple list adopted may be select-

ed by local school officials; but all of the schools in any one district, or all districts under the supervision of any one county school system (county school board and/or superintendent) must select the same book or books for all of the schools within the system.

(c) Once textbooks are selected from the multiple lists, they shall be continued in use in that school system for the entire period of the adoption or for a minimum period of not less than five years.

(d) Supplementary readers for pre-primer, primer, first, second, and third grades shall be distributed on a quota of not more than 300 percent of the enrollment for each of the grades to which the book is assigned.

(e) Supplementary readers for the fourth through the eighth grades shall be distributed on a quota basis not in excess of 200 percent of the grade enrollment to which the books are assigned.

(f) Agriculture and homemaking textbooks for grades 9 through 12 shall be distributed on a quota basis not in excess of 220 percent of the subject enrollment.

(g) All other books not specified in this section shall be supplied on the basis of one book for each pupil enrolled in the subject for which the book is adopted and not to exceed the total enrollment for the subject plus the teachers' copies.

§ 12.63. Title, Custody, and Disposition

(a) After purchase according to the provisions of this chapter, all textbooks are and shall remain the property of the State of Texas.

(b) Specific rules as to the requisition, distribution, care, use, and disposal of books may be made by the commissioner of education, subject to the approval of the State Board of Education. Such rules shall not conflict with the provisions of this code.

(c) Textbooks shall be subject to inspection by any agent or inspector authorized by those having charge of the local textbook service or authorized by the commissioner of education subject to approval of the State Board of Education.

(d) The commissioner of education with the approval of the State Board of Education may provide for the disposition of those textbooks which are no longer in fit condition to be used for instruction purposes, or for the disposition of discarded books remaining the property of the state. In case of the disuse of books in fair condition, inspectors of the State Department of Education may require continuance of their use.

(e) The school trustees of each district shall be designated as the legal custodians of the books and shall have the power to make such arrangements for the distribution of books to the pupils as they may deem most effective and economical.

§ 12.64. Bond

(a) One or more members or employees of each district board of trustees shall enter into bond in the sum of 15 percent of the value of the books consigned to the district by the state, payable in Austin, Texas, to the governor of the state, or his successors in office. All money accruing from the forfeiture of the bonds shall be deposited by the governor to the credit of the state textbook fund.

(b) The bond shall be approved by the county judge of the county in which the school is situated and by the commissioner of education; deposited with the commissioner; and conditioned on the faithful discharge by the member or employee of his duties under his employment and under

this section and on his faithfully accounting for all books coming into his possession and for all money received from the sale thereof.

§ 12.65. Distribution; Handling

(a) The district school trustees may delegate, under such terms as they deem best, to their employees power to requisition and distribute books and to manage books, but such delegations of authority shall not be at variance with the provisions of this code or with the rules for free textbooks formulated by the commissioner of education and approved by the State Board of Education.

(b) All books shall have on one inside cover a printed label stating that the book is the property of the state. Schools shall number all books, placing the number on the printed label. Teachers shall keep a record of the number of all books issued to each pupil. Books must be covered by the pupil under the direction of the teacher. Books must be returned to the teacher at the close of the session or when the pupil withdraws from school.

(c) Each pupil, or his parent or guardian, shall be responsible to the teacher for all books not returned by the pupil, and any pupil failing to return all books shall forfeit his right to free textbooks until the books previously issued but not returned are paid for by the parent or guardian.

(d) Teachers and school officers must make such reports as to the use, care, and condition of free textbooks as may be required by the local trustees or by the State Department of Education. The salary for any month of any teacher or employee who neglects to make the report at the proper time may be withheld until each report is received in a condition satisfactory in form and content.

(e) No teacher or employee of the school engaged in the distribution of textbooks under this code as the agent or employee of the state, or of any county or district in the state, shall, in connection with this distribution, sell or distribute, or in any way handle, any kind of school furniture or supplies, such as desks, stoves, blackboards, crayons, erasers, pens, ink, pencils, tablets, etc.

(f) Local boards of trustees shall make provision for the fumigation of books before the reissue of the books. Covers of all books shall be removed before reissue, and the pupils to whom the books are issued shall replace covers under the direction of the teacher.

§ 12.66. Sale of Books

The local boards of school trustees may sell books to pupils or parents attending the public schools of this state, at the state contract price. All money accruing from sales of textbooks by boards of school trustees shall be forwarded to the commissioner of education as directed, and deposited in the state textbook fund.

§ 13.10. Emergency Teaching Permits

Such persons as are eligible therefor shall receive, on application, the certificate or certificates authorized in Subsections (c), (d), (e), (f), (g), (h), and (j) of this section.

(c) A non-degree teacher who, on September 1, 1955, held a valid permanent teacher certificate issued upon prior certification laws of this state, and who is employed as a teacher in any scholastic year, on application, shall be issued a provisional certificate marked permanent.

(d) A non-degree teacher who, on September 1, 1955, held a valid temporary certificate issued under prior certification laws of this state, and who is employed as a teacher in any scholastic year thereafter, on application, shall be issued a provisional certificate marked temporary. This certificate shall be good for the remaining years of validity of his previous temporary certificate, but on expiration may be revived and continued by complying with the certification laws in effect at the time the temporary certificate was issued. Upon the holder's completion of the requirements entitling him to a permanent certificate, as prescribed by law pursuant to which his temporary certificate was issued, the provisional certificate shall be marked permanent.

(e) Any person who, prior to September 1, 1955, had established his eligibility for any teacher certificate under the then-existing certification laws of this state may apply for and receive the state certificate to which he was entitled under such laws on payment of the fees prescribed. On application, such person may also receive the class of certificate to which the provisions of this chapter entitle him.

(f) Any teacher who has a bachelor's degree, holds a valid Texas teacher certificate, has five years or more of teaching experience, and is employed as a teacher in any scholastic year following September 1, 1955, shall, on application, be issued a professional certificate. Such a teacher may, however, substitute six semester hours of college credit earned in a college or university approved for teacher education, and acquired after the conferring of his bachelor's degree for a year of teaching experience, but no more than three years (a total of 18 semester hours) of college credit may be substituted in order to qualify for a professional certificate.

(g) Any teacher who has a bachelor's degree, holds a valid Texas teacher certificate, but has less than five years of teaching experience (and cannot meet the requirements in Subsection (f) of this section for college credit in lieu of teaching experience), and who is employed as a teacher in any scholastic year following September 1, 1955, shall, on application, be issued a provisional certificate marked "permanent."

(h) Any teacher who has a master's degree, holds a valid Texas teacher certificate, and is employed as a teacher in any scholastic year following September 1, 1955, shall, on application, be issued a professional certificate.

(i) Any person who, prior to September 1, 1955, was enrolled in a program leading to a bachelor's degree in a college or university approved

for teacher education may continue to pursue the program established or altered by the college. On completion of the program and acquisition of the bachelor's degree, he shall be issued, on application and payment of fee prescribed therefor, the kind of certificate for which such preparation entitled him under the previous certification law when his college program was begun.

(j) Any person who held a valid permanent teaching certificate prior to September 1, 1955, shall, on application, be issued a professional certificate. If any part of this chapter is in conflict with this subsection, then this subsection shall control.

(k) There shall be no fee charged for the issuance of either class of new transitional certificates authorized under this section.

(l) The new classes of transitional certificates authorized to be issued under this section shall have designated on their face the area(s) of specialization corresponding to those specializations authorized by the applicable provisions of the previous certification laws.

§ 13.12. Certificates and College Credentials From Other States

(a) A person who holds a bachelor's or higher degree from another state and who desires a Texas certificate shall present such out-of-state certificate and official college transcript to the state commissioner of education, who shall require the State Board of Examiners for Teacher Education to make investigation as to the value of the transcript or certificate, as measured by the standards for certificates in Texas. The commissioner of education shall have the power to issue to the holder of a valid certificate or bachelor's or higher degree from another state a Texas certificate which in his judgment the holder merits when the value of his degree or certificate is measured by the standards required for Texas certificates. But no certificate may be issued if the degree or certificate presented is not deemed to meet the requirements for a Texas provisional certificate.

(b) No Texas teacher certificate shall be issued to a person from another state, as provided in Subsection (a) of this section, until that person has secured credit from a college or university in this state in a course or courses which give special emphasis on the Texas Constitution and has secured credit from a college or university in a course or courses which give special emphasis on the United States Constitution, or shall have passed examination(s), administered under the direction of the Central Education Agency, in one or both, as the situation demands. The course or courses may be taken by correspondence, extension classes, or in residence.

(c) Any person who applies for a Texas teacher certificate on credentials from another state, as provided in Subsection (a) of this section, may be issued by the state commissioner of education an emergency permit, which will indicate on its face the area of specialization and the class of certificate which the applicant shall be entitled to receive upon completion of the requirement set out in Subsection (b) of this section. The emergency permit shall entitle the applicant to teach in the area of specialization appearing on its face and shall be valid for a period not exceeding one scholastic year. No more than one emergency permit authorized in this subsection shall be issued to any applicant. The applicant shall be required to pay a fee of \$2 for the issuance of the emergency permit as well as an additional fee, prescribed in this chapter, for the issuance of a valid Texas teacher certificate when he qualifies and makes application therefor.

§ 13.13. Certificates for Teaching in the Texas School for the Deaf or the Texas School for the Blind

(a) A provisional certificate to teach the deaf or blind shall be issued, on application and payment of fees, to any person who is 18 years of age; has satisfactorily completed a four-year course of study in an accredited college, professional or technical school, or a university or college approved for teacher education; and has graduated with a degree including 10 semester hours of education (with not less than five of these covering principles and methods of teaching the type of handicapped children he is being certified to teach).

(b) Applicants for certificates to teach industrial and special subjects may substitute four years of trade or professional experience or successful teaching experience for college work, but the certificates issued for these industrial and special subjects shall authorize the holder to teach only such subjects in the Texas School for the Deaf or the Texas School for the Blind.

(c) Any teacher, who prior to 1935 had five years of successful teaching experience of particular types of handicapped children or of industrial and special subjects in the School for the Deaf or the School for the Blind, shall be granted a permanent provisional certificate entitling him to teach those types of children or subjects in the Texas School for the Deaf or the Texas School for the Blind.

(d) Any person now holding a valid teacher certificate, or who may hereafter be granted a certificate, may be deemed qualified to teach in the Texas School for the Deaf or the Texas School for the Blind.

§ 13.14. Alien Teachers

(a) No certificate of any type shall be issued to an alien unless proper evidence is produced showing his intention to become a naturalized citizen of the United States of America.

(b) It shall be unlawful for any board of trustees of any public school district of this state to contract with any person who is an alien to teach, unless the person has declared his intention to become a citizen of the United States. Except as provided in Subsection (c) of this section, any contract in violation of this provision shall be void and of no effect.

(c) If a like privilege is currently granted by any nation to any teacher designated by the governing body of a school district in this state, Subsection (b) of this section shall not apply to any alien teacher, a subject of that nation, who has been regularly designated by proper authority to serve as an exchange teacher in the United States and to teach in the public schools of Texas for not more than one year.

§ 13.15. Presentation and Recording of Certificates

(a) The county superintendent shall keep a record of all certificates held by persons teaching in the public schools of all common school districts, rural high school districts, and independent school districts having less than 150 scholastics (according to the last scholastic census approved by the Central Education Agency) and administered by the laws applicable to common school districts under the jurisdiction of his county.

(b) Any person who desires to teach in a public school of a district as above designated shall present his certificate for record before his contract with the board of trustees of the district shall become binding.

(c) Any person who desires to teach in a public school of an independent school district having 150 or more scholastics or in an independent school district having less than 150 scholastics but which has elected not to be governed by laws applicable to common school districts shall present his certificate for filing with the employing district before his contract with the board of trustees of the district shall become binding.

(d) A teacher or superintendent who does not hold a valid certificate or emergency permit shall not be paid for teaching or work done before the effective date of issuance of a valid certificate or permit.

§ 13.16. Cancellation of Certificates

(a) Any teacher's certificate issued under the provisions of this code or under any previous statute relating to the certification of teachers may be cancelled by the state commissioner of education under any one or more of the following circumstances:

(1) on satisfactory evidence that the holder is conducting his school or his teaching activities in violation of the laws of this state;

(2) on satisfactory evidence that the holder is a person unworthy to instruct the youth of this state; or

(3) on complaint made by the board of trustees that the holder of a certificate after entering into a written contract with the board of trustees of the district has without good cause and without the consent of the trustees abandoned the contract.

(b) Before any certificate shall be cancelled the holder shall be notified and shall have an opportunity to be heard. Any person whose certificate is cancelled by the state commissioner of education shall have the right of appeal to the State Board of Education.

(c) The state commissioner of education shall have the authority, upon the presentation of satisfactory evidence, to reinstate any teacher's certificate cancelled under the provisions of this section. On a refusal of the commissioner so to reinstate a certificate, the applicant shall have the right of appeal to the State Board of Education.

Section 14.01. Definition

All children over six and under 18 years of age on September 1, the beginning of any scholastic year, shall be included in the scholastic census.

§ 14.02. Census Trustee

The county superintendents for school districts under the general administration of their office and the boards of trustees of independent

school districts, on each November 1, or as soon as practicable thereafter, shall appoint one trustee of each school district, or some other qualified person, to take the scholastic census who shall be known as the census trustee of the district. Assistants may be appointed if necessary.

§ 14.03. Taking the Census

(a) The scholastic census shall be taken between January 1 and February 1 of each year and shall include all then resident children of the district who on the following September 1 will be over six years of age and under 18 years of age.

(b) In taking the census, the census trustee or designated assistant shall visit each home, residence, habitation, and place of abode within his district and shall by actual observation and interrogation enumerate the children thereof.

(c) He shall use for each parent or guardian or person having control of any such children a prescribed form showing:

(1) the name, color, and nationality of the person controlling such children;

(2) the name and number of the school district in which the children reside;

(3) the name, sex, and date of birth of each such child; and

(4) the street and house number or location of the house or place in which each child resides.

(d) Only the children of the same family shall be listed on one form; and if one person has under his control children of different family names, the census trustee shall use a separate form for each family name.

(e) The census trustee shall require such forms to be subscribed and sworn to on the date of the enumeration by such person rendering the children; the census trustee or his assistant is authorized to administer oaths for this purpose.

(f) When the census trustee (or his assistant) visits any home or house or place of abode of a family and fails to find either the parent or any person having legal control, he shall leave there the prescribed census blank with a note requiring the parent or any person having legal control of any child or children to complete the form, sign and swear or affirm to it, and deliver it to the census trustee.

§ 14.04. Further Duties of the Census Trustee

(a) The census trustee shall arrange the census forms in alphabetical order, according to the family name of the children reported thereon.

(b) He shall also make, on a prescribed form, census rolls for his district showing:

(1) the name, age, sex, and race of each child enumerated; and

(2) the name of the parent, guardian, or person having control of the child.

(c) He shall also make a summary of his rolls showing the number of such children of each race in each scholastic age.

(d) He shall swear to all his rolls and summaries and to the faithful and accurate discharge of his duties.

(e) He shall deliver the rolls, with the forms arranged in alphabetical order, to the county superintendent on or before April 1 after his appointment.

§ 14.05. Supplemental Census

(a) Upon certified request of the county superintendent, the state commissioner of education, at district expense, shall require a supplemental scholastic census to be taken whenever an unusual increase in the scholastic population of any school district is caused by the location therein or proximity thereto of camps, reservations, building or dam projects, shipyards, flying fields, training stations, munition works, or other agencies sponsored by federal or state government; or by the production of oil, gas, or other natural resources necessary in the program of the national defense.

(b) In the event this supplemental census shows a substantial increase in scholastic population, the state commissioner of education may approve a supplemental census roll, adding the names of additional eligible scholastics to the rolls of the district.

(c) This supplemental census roll shall be deemed a part of the original census as if it were taken in the last preceding January of the school year and the scholastic apportionment shall be paid in accordance therewith.

(d) Such supplemental census shall be taken not later than January 15 of any fiscal year, and shall include only additional eligible scholastics enrolled and in actual attendance.

(e) No adjustment in scholastic apportionment to a district shall be in an amount more than necessary for the additional expenditure needs of such districts approved by the State Department of Education.

(f) Only one supplemental census annually in any one district shall be authorized by the commissioner of education.

§ 14.06. Census in County-Line Districts

(a) The scholastic census of certain county-line districts that are under the general administration of county school authorities shall be taken under the supervision of the county superintendent of the county having jurisdiction of such district; it shall be reported by such county to the State Department of Education as provided by the general law governing the taking of the scholastic census. However, the census trustee taking the census of a county-line district shall make a separate roll of the scholastic population contained in the territory of each county in such district. The separate rolls shall be returned with the general census roll to the county superintendent as provided in Section 14.04 of this code.

(b) The county superintendent of such county having jurisdiction of the county-line district shall make duplicates of these separate census rolls and send appropriate copies to the county superintendent and county treasurer of each such county having territory in the county-line school district to be used by them for the purpose of apportioning the county available school funds.

(c) If a county-line school district, classified as common, has voted a special tax for school maintenance or the payment of interest and sinking fund on school bonds, the county superintendent of each county a part of which is included in the district shall, from time to time as such taxes are collected by his county, draw his warrant in favor of the county treasurer or county depository of the county having jurisdiction of the county-line district and against the county treasurer or county depository of his county for whatever amount of county available school funds accountable to the district and/or special tax, as the case may be, is in the hands of his treasurer or depository. Upon presentation of the warrant,

his treasurer or depository shall pay over to the treasurer named as depository of the county having jurisdiction of such county-line district the sum called for in the warrant, to be credited to the proper account or accounts, as the case may be, of the district. This sum shall be used only as the law provides for different kinds of school funds.

(d) All funds derived from the income of the county permanent school fund of each county embracing territory of any county-line district as apportioned under the provisions of paragraph (b) of this section shall be deposited to the credit of such district and shall be used for such purposes as are provided by law.

§ 14.07. Duty of the County Superintendent

(a) The rolls and summaries of the census trustee shall be preserved by the county superintendent in his office for three years after they are filed.

(b) The county superintendent shall make on prescribed forms separate, consolidated rolls for the white and colored children of his county, showing:

- (1) the names of the children arranged in alphabetical order, according to their family names;
- (2) the age and sex of each child, together with the number of the district in which he lives; and
- (3) the name of the parent or guardian.

(c) In making the consolidated rolls, the county superintendent shall scrutinize carefully the work of the census trustees and shall have power to summon witnesses, take affidavits, and correct any errors he may find in any census trustee's rolls.

(d) The county superintendent:

- (1) shall carefully exclude any and all duplication of names;
- (2) may investigate for possible omissions by referring to the forms of the previous years which have been preserved for that purpose; and
- (3) may reject, if he deems it necessary, any roll and appoint or direct to be appointed another census trustee to take the census for the district, but in that case he shall not approve the warrant to pay the census trustee whose work has been rejected.

(e) When the county superintendent has prepared his consolidated census rolls, one for each race, he shall make a duplicate of each and shall make affidavit to the correctness of both originals and duplicates.

(f) On or before May 1 of each year the county superintendent shall forward the originals of the consolidated census rolls to the Central Education Agency along with an abstract, on a prescribed form and under oath, showing:

- (1) the number of children of each race of different years of school age;
- (2) the total number of children of each race; and
- (3) the total of both races in the county.

(g) The duplicates of the consolidated census rolls shall be filed with the county clerk and become permanent records of his office.

§ 14.08. Authority of State Commissioner

The state commissioner of education shall have authority to investigate the census of any county and correct errors. In extreme cases where he believes gross errors have occurred or that fraud has been practiced, he

may, with approval of the State Board of Education, reject any county roll and require the census of the county be retaken.

§ 14.09. Compensation for Census Reports

(a) Census trustees shall be compensated for their services on the basis of the number of children of scholastic age listed by them at the rate of:

- (1) 10 cents per capita in county districts;
- (2) 3 cents per capita in towns of 2,500 to 5,000 inhabitants; and
- (3) 2 cents per capita in towns of 5,000 or more inhabitants.

(b) The county superintendent shall receive one cent per capita for the scholastic population reported by him.

(c) Neither the census trustee nor the county superintendent shall be paid until the census of the county is accepted by the state commissioner of education.

(d) The trustee's compensation shall be forfeited if his work is rejected by the county superintendent and the census of the district ordered retaken.

(e) Both the trustee's and the county superintendent's compensation shall be forfeited if the census of the county is rejected by the state commissioner of education and the census is ordered to be retaken.

(D) Not more than 50 percent of the permanent school fund shall be invested at any given time in corporate stocks and bonds;

(E) Not more than one percent of the permanent school fund may be invested in securities issued by one corporation nor shall more than five percent of the voting stock of any one corporation be owned;

(F) At the discretion of the State Board of Education, corporate securities of the permanent school fund may be sold and the proceeds reinvested for the fund under the terms of this code; and

(7) notwithstanding any other law or provisions in this code, first lien real estate mortgage securities insured by the Federal Housing Administration under the National Housing Act of the United States,¹ as amended from time to time, or in any other first lien real estate mortgage securities guaranteed in whole or in part by the United States Government or any agency thereof.

(b) A 10-day option to purchase must be given to the State Board of Education when any bonds of a public school district of Texas are offered for sale. The State Board of Education must be given a like option to purchase any refunding securities issued in lieu of outstanding securities held for the account of the permanent school fund, which may be redeemed before maturity and which have been called for redemption.

(c) The authorized officer of the offering school district must notify the State Board of Education of all bids received for its offered bonds,

either as first issue or as securities issued in lieu of outstanding bonds held for the account of the permanent school fund.

(d) Before the option to purchase or exchange is exercised, the offered school district bonds must be carefully examined by the State Board of Education and must be found to be safe and proper investment for the fund, and unless satisfied, the board may decline to purchase same. Such offered securities must fulfill the following requirements:

(1) No school district bonds nor other bonds designated in Subsection (a)(5) of this section, shall be purchased unless the annual interest rate is two and one-half percent or more;

(2) No bonds issued by any political subdivision designated in Subsection (a)(5) of this section, shall be purchased if the bond indebtedness, including the security so offered, of the issuing political subdivision exceeds seven percent of the assessed value of all taxable property therein; and

(3) If default is made in the payment of interest due on bonds designated in Subsection (a)(5) of this section, the State Board of Education, at any time prior to the payment of the overdue interest, may elect to treat the principal as also due, and the principal shall, at the option of the board, become due and payable as follows:

(A) Payment of both principal and interest in such cases shall be enforced in any manner provided by law; and

(B) The right to enforce such collection shall never be barred by any law or limitation.

(e) The commissioner of education shall have authority, subject to the approval of the State Board of Education to exercise the option provided for in this section and to exercise a waiver of purchase when the securities offered do not meet eligibility requirements. When and if the commissioner of education exercises the option given by law for the purchase of securities, such exercise shall prevent the sale of the securities to any other party until the State Board of Education, at its next meeting, has had opportunity either to approve or to disapprove such purchase.

(f) If the State Board of Education elects to exercise its option to purchase, it shall order purchase of securities at the price offered by the best bona fide bidder and shall notify and direct the state comptroller to purchase the securities as an investment for the permanent school fund.

(g) If the State Board of Education shall refuse or shall have refused to purchase all or any part of the bonds offered by any such political subdivision, or from the parties to whom the bonds were issued, the offering authority shall sell the bonds to the best bona fide bidder; but the State Board of Education may thereafter purchase such bonds or obligations, subject to the same restrictions provided governing the purchase of such from the political subdivision. When so purchased, such obligations shall be subject to all rights and powers provided by law governing the same when purchased by the State Board of Education from the issuing authority.

1. 12 U.S.C.A. § 1701 et seq.

§ 15.03. Sale or Exchange of United States Treasury Bonds and Securities, and Municipal Bonds

(a) The State Board of Education may authorize the sale or exchange of any United States Treasury bonds, notes, certificates of indebtedness, or other securities issued by the United States Treasury, and may authorize the sale of any municipal bonds issued by any county, city, precinct,

district, or other political subdivision at any time held by the state treasurer for the account of the permanent school fund, in compliance with the following rules:

(1) None may be sold for a price less than the actual amount of money of the permanent school fund invested in it;

(2) None may be exchanged for a public security having a principal value less than the principal value of the security exchanged; and

(b) In making each and all of such sales the State Board of Education shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as the probable safety of their capital.

(c) When any obligations are sold or exchanged as provided in Subsection (a) of this section, the state treasurer shall make delivery of the obligations sold or exchanged in accordance with the directions of the State Board of Education.

§ 15.04. Treatment of Premium and Discount

(a) If the State Board of Education authorizes the payment of a premium out of the permanent school fund in the purchase of any bond, obligation, or pledge as an investment for that fund, then the principal of such securities and an amount of the interest first accruing thereon equal to the premium so paid shall be treated as principal in such investment, and when the first interest is collected, the amount of the premium shall be returned to the permanent school fund.

(b) If the State Board of Education authorizes the purchase of a public security at less than par, the discount received in the purchase shall be paid to the available school fund when the bonds, obligations, or pledges are paid off and discharged.

§ 15.05. Prepayment of Certain Bonds Held by the Permanent School Fund

(a) The State Board of Education may authorize the governing body of any school district or political subdivision in Texas to pay off and discharge, at any interest paying date whether the bonds are matured or not, all or any part of any outstanding bond indebtedness now owned or hereafter to be owned by the permanent school fund, under the rules and regulations of this section.

(b) The governing body of the respective political subdivision desiring to pay off and discharge any such bonded indebtedness owned by the fund shall make such desire known by direct application in writing to the State Board of Education, at least 30 days before any interest paying date on the bonds, describing the bonds or part thereof it desires to pay off and discharge. The application shall be accompanied by an affidavit stating that only such tax money as may be collected by virtue of tax levy made for the specific purpose of providing a sinking fund and paying interest on the particular bonds to be redeemed shall be expended in the redemption, taking up, or paying off the bonds.

(c) The State Board of Education upon receipt of such application and affidavit shall take action on them in such manner as it may deem best and notify the applicant whether the application is refused or granted in whole or in part.

(d) It shall be unlawful for any person on whom any duty rests in carrying out the provisions of this section to give or receive any commission, premium, or compensation for the performance of such duty.

(e) Only such tax money as had been collected by virtue of tax levies made for the specific purpose of providing a sinking fund and paying interest on the particular bonds to be redeemed shall be expended in the redemption, taking up, or paying off of such bonds as provided in this section, unless such bonds are being redeemed for the purpose of being refunded.

§ 15.06. Default of School District Securities Held by the Permanent School Fund

(a) If interest and/or principal has not been paid for two years or more on any bonds issued by any school district (city controlled or otherwise) and held by the permanent school fund, the State Board of Education shall have the authority described in this section.

(b) The State Board of Education may compel any such school district to levy a tax sufficient to meet the interest and principal payments as then or later due.

(c) If any such district furnishes to the State Board of Education satisfactory proof that its taxing ability is insufficient, the State Board of Education may require the district to exhaust all legal remedies in collecting taxes then delinquent, and to levy a tax at the maximum lawful rate on the bona fide valuation of taxable property located in the district.

(d) Revenue collected by either method specified in Subsections (b) and (c) of this section shall be distributed proportionately to all owners of the defaulted securities and shall be in compliance with the following rules:

(1) The proportionate share for each owner will be based on the interest and principal requirements of the original security before authorized refunding; and

(2) Prior acceptance of refunding securities will not reduce an owner's proportionate share.

(e) As long as any such school district is delinquent in its payments of principal and/or interest on any of its bonds owned by the permanent school fund, the State Board of Education shall have the authority to specify the method of crediting payments to the state made by the district as to principal and interest.

(f) The comptroller of public accounts shall not issue any warrant from the foundation school fund to or for the benefit of any district which has been for as long as two years in default in the payment of principal or interest on any security owned by the permanent school fund unless and until the State Board of Education certifies that the district has satisfactorily complied with the appropriate provisions of this section, in which event the comptroller shall resume making payments to or for the benefit of the district, including the making of pretermitted payments.

§ 15.07. Authorized Refunding of Defaulted School Bonds

(a) In compliance with the provisions of this section, the State Board of Education is authorized to revise, readjust, modify, refinance, or refund defaulted bonds issued by any school district in Texas and owned by either the permanent school fund or the available school fund.

(b) Application must be made to the State Board of Education by the district which issued the bonds and must show that:

(1) delinquent interest totals at least 50 percent of the principal amount of the bonds; and

(2) taxable valuation has decreased to such an extent that a full application of the proceeds of the voted authorized tax authorized to be levied on the \$100 taxable property valuation will not meet interest and principal annually maturing on the bonds.

(c) The State Board of Education may effect a refunding of the debt due and to become due only if the board finds that:

(1) the district is unable to pay the sums already matured and the sums contracted to be paid as they mature by paying annually to the State Board of Education the full proceeds of a 50-cent tax levy on the \$100 of all taxable valuation of property within the district;

(2) the taxable valuation of property in the district has decreased at least 75 percent since the bonds were issued and that the decrease was not caused by the district or any of its officials;

(3) the district for a period of at least five years before applying to the State Board of Education for refunding has levied a tax of 50 cents on the \$100 of taxable valuation of property in the district, and that despite such levies, the aggregate amount due the State Board of Education exceeds the aggregate amount due at the beginning of the period;

(4) no additional bonds of the district have been authorized and sold during the five-year period immediately preceding the application; and

(5) the district has in good faith endeavored to pay its debt in accordance with the contract evidenced by the bonds held for the account of the permanent school fund or the available school fund.

(d) If the conditions specified in Subsection (c) of this section are found to exist, the district shall, for the purposes of this section, be deemed to be insolvent, and the State Board of Education may exchange the bonds, interest coupons, and other evidences of indebtedness for new refunding bonds of the district issued in compliance with the following regulations:

(1) The principal amount of the refunding bonds shall not be less than the total amount of the bonds, matured interest coupons, accrued interest, and interest on delinquent interest then actually due to the permanent school fund and/or the available school fund;

(2) The rate of interest to be borne by the refunding bonds may be lower than that borne by the bonds to be refunded if in consideration of the interest reduction the district agrees to levy a tax each year for a period of 40 years at a rate sufficient to produce annually a sum equal to 90 percent of the amount that can be calculated by the levy of a tax at the rate of 50 cents on the \$100 of taxable valuation of property as determined by the latest approved tax roll of the district, and in determining the rate of interest to be borne by the refunding bonds, the State Board of Education shall be governed by the following:

(A) The State Board of Education is authorized to require the rate to be such percent per annum as in its judgment will represent the maximum rate that can be paid by the district and still permit an orderly and certain retirement of the refunding bonds within 40 years from their date;

(B) The interest rate of refunding bonds to be received in exchange for bonds owned by the permanent school fund shall not be less than the minimum rate at which bonds may then be purchased as investments for the permanent school fund; and

(C) The rate of interest of refunding bonds to be received in exchange for bonds owned by the available school fund may be set by the State Board of Education at any rate which it deems feasible, and such refunding bonds may, at the discretion of the State Board of Education, be made non-interest bearing to such date as may be fixed by the board.

(e) No revision, readjustment, modification, refinancing, or refunding shall be made by the State Board of Education that will release or extinguish any debt or obligation then due and payable to the permanent school fund or to the available school fund.

(f) Except as otherwise provided or permitted by this section, the refunding of the bonds of school districts herein authorized shall be in compliance with the general provisions with regard to the refunding of school district bonds as specified in this code.

§ 15.08. Refunding Other Defaulted Obligations

(a) Defaulted obligations (other than bonds of school districts as provided in Section 15.07 of this code) due the available school fund may be refinanced or refunded with the approval of the State Board of Education in compliance with the provisions of this section.

(b) "Defaulted obligations," as used herein, shall include delinquent interest whether represented by coupons or not, interest on delinquent interest, and any other form of obligation due the available school fund.

(c) The obligor must make application to the State Board of Education and show:

(1) that the obligations due the available school fund have been in default in whole or in part for a continuous period of at least 15 years; and

(2) that the obligor is not in default in the payment of the principal of any bonds owned by the permanent school fund.

(d) If the State Board of Education finds that the above-specified requirements have been met, it may approve a refinancing or the issuance of refunding bonds on the conditions:

(1) that the refunding bonds must mature serially in not exceeding 40 years from the date of issuance;

(2) that the principal amount of the refunding bonds shall be not less than the total amount of the obligations then in default and due the available school fund;

(3) that the refunding bonds shall bear interest at such rate or rates as may be determined by the State Board of Education to be for the best interest of the available school fund.

(e) The State Board of Education in its discretion is authorized to accept refunding bonds in lieu of either matured or unmatured bonds held for the benefit of the permanent school fund, provided that the rate of interest on the new refunding bonds is at least the same rate as that of the bonds being refunded.

(f) Refunding bonds issued with the approval or pursuant a refunding agreement with the State Board of Education in compliance with either this section or Section 15.07 shall, on the order of the State Board of Ed-

ucation, be exchanged by the state treasurer for the defaulted obligations they have been issued to refund.

§ 15.09. Jurisdiction

The district courts of Travis County shall have jurisdiction of any suit on bonds or obligations belonging to the permanent school fund, or purchased therewith, concurrent with that of any other court having jurisdiction in said case.

§ 15.10. Duties of the State Comptroller of Public Accounts

(a) On or before July 1 of each year, the comptroller of public accounts shall estimate the amount of the available school fund receivable from every source during the coming scholastic year and report this estimate to the State Board of Education.

(b) On or before the meeting of each regular session of the legislature, the comptroller of public accounts shall report to the legislature an estimate of the amount of the available school fund to be received for the succeeding two years, and the several sources from which the same accrues, and which may be subject to appropriation for the establishment and support of public schools.

(c) On or before the first working day of each month, the comptroller shall certify to the state commissioner of education the total amount of money collected from every source during the preceding month and on hand to the credit of the available school fund.

(d) On receipt of certificates issued to him by the commissioner of education, the comptroller shall draw his warrants on the state treasurer and in favor of the treasurer (depository) of the available school fund of each school district for the amounts stated in the certificates. All such warrants shall be registered and transmitted to the state treasurer.

§ 15.11. Duties of the State Treasurer

(a) At least 30 days before each regular session of the legislature and 10 days before any special session at which there can be legislation respecting the public schools, the state treasurer shall report to the governor the condition of the permanent school fund and the available school fund, the amount of each and the manner of its disbursement.

(b) The treasurer shall provide the State Board of Education with the reports specified in Subsection (a) of this section, and with such additional reports as to those funds which the State Board of Education may request.

(c) The treasurer shall see to it that no portion of either the permanent school fund or the available school fund is used to pay any warrant drawn against any other fund.

(d) The treasurer shall receive and hold in a special deposit and keep account for all properties belonging to the available school fund. All warrants drawn on this fund by the comptroller of public accounts pursuant to certificate of the state commissioner of education must be registered by the state treasurer and then transmitted to the commissioner of education; and when properly endorsed shall be paid by the treasurer in the order of their presentation.

(e) On order of the State Board of Education, the treasurer shall exchange or accept refunding bonds in lieu of:

(1) either matured or unmatured bonds held for the benefit of the permanent school fund, which are being refunded under the terms of this chapter;

(2) defaulted obligations held for the benefit of the available school fund, provided that the refunding bonds are issued in compliance with Section 15.08 of this code;

(3) defaulted obligations of any school district of Texas held for the benefit of the permanent school fund or the available school fund, provided the refunding bonds are issued in compliance with Section 15.07 of this code;

(4) refunding bonds of any school district of Texas for school bonds not matured held by the state treasurer for the permanent school fund, when such new refunding bonds are issued by the school district in compliance with this code.

(f) The state treasurer shall be the custodian of all securities in which the school funds of the state have been or may hereafter be invested, and shall keep the securities in his custody until paid off, discharged, or otherwise disposed of by the proper authorities of the state, and on the proper installment of any interest or dividend, shall see that the proper credit is given, and the coupons on bonds, when paid, shall be properly separated therefrom and cancelled by the treasurer.

§ 15.12. Use of Available School Fund

(a) All available public school funds of Texas shall be appropriated in each county for the education of its children.

(b) No part of the permanent school fund or the available school fund shall be appropriated or used for the support of any sectarian school.

(a) The total number of professional units allotted to each district shall be the sum of the professional units, hereinafter prescribed, for classroom teachers, vocational teachers, special service teachers, teachers

of exceptional children, supervisors and/or counselors, full-time and/or part-time principals, and superintendents.

(b) Such professional unit allotments shall be contingent upon the employment of qualified personnel and upon the payment of not less than the minimum salary as prescribed in this chapter.

(c) No district will be required to employ professional personnel for the full number of professional units for which it is eligible, but where a fewer number are employed, grants shall be based upon the number actually employed during the current school year; and

(e) Separate allotments may be made for whites and Negroes.

(f) Where a school district is consolidated or contracted with another district, or annexed in whole or part to another district or districts, or where the number of grades taught has been reduced, or where the scholastics are transferred to another district, or where there is an annual fluctuation in the attendance in the district, or where for any reason there is a marked increase or decrease in the attendance of any school district, adjustments in professional allotments shall be made by the state commissioner of education subject to the applicable rules and regulations of the State Board of Education.

(g) Attendance in grades not classified to be taught by the county school board shall not be included in determining professional unit eligibility.

The state commissioner of education shall consider in making such allotments the density and distribution of population in the district, road conditions, and the proximity of the school to another four-year accredited high school.

(k) In determining the number of professional units allotted to each school district in the foundation school program, the attendance of orphan, dependents, or neglected children who are wards of the state shall be considered eligible average daily attendance in the receiving school district or districts to which these children are transferred after approval by the county school board and the state commissioner of education.

(b) Districts which have 20 or more approved classroom teacher units shall be eligible for one special service teacher unit for each 20 classroom teacher units, no credit to be given for fractions.

(c) Districts not eligible for a full special service teacher unit may enter by vote of their respective boards of trustees, into one cooperative agreement to provide special service teachers, as prescribed in subsection (b) of this section, to be recommended and supervised by the county school superintendent, and employed by the county school board. The state commissioner of education shall, upon the county superintendent's certification of such agreement, allot to each district party thereto a fractional part of a special service teacher unit, said fraction to be not greater than the number of approved classroom teacher units for that district divided by 20.

(d) School districts may choose from the five types of special service teacher units listed in Section 16.07(1)(C) of this code the number of each classification that it desires, to the extent of total eligibility for such units, but the allocation of special service teacher units shall not preclude the assignment of classroom teachers to special service duties. The state commissioner of education shall establish qualifications for special service teachers which shall be subject to regulations made by the State Board of Education.

§ 16.16. Exceptional Children Teacher Units

(a) Exceptional children teacher units, special or convalescent, for each school district, which may be separate for whites and Negroes, shall

be allotted, in addition to other professional unit allotments, as prescribed by this section.

(b) The purpose of this allotment of exceptional children units is to provide competent educational services for the exceptional children in Texas between and including the ages of six and 21 (except as otherwise provided in this section for emotionally disturbed children) for whom the regular school facilities are inadequate or not available.

(c) As used in this chapter:

(1) "Exceptional children" means physically handicapped, mentally retarded and/or emotionally disturbed children.

(2) "Physically handicapped child" means any child or educable mind whose body functions are so impaired that he cannot be safely or adequately educated in the regular classes of the public schools without the provision of special services.

(3) "Mentally retarded child" means any child whose mental condition is such that he cannot be adequately educated in the regular classes of the public schools without the provision of special services.

(4) "Emotionally disturbed child" means any child 17 years of age or under, whose emotional condition is medically determined and psychologically determined to be such that he cannot be adequately educated in the regular classes of the public schools without the provision of special services; but no such child shall receive special services provided herein without the consent of his parent or guardian.

(5) "Special services" means transportation, special teaching in the public school curriculum, corrective teaching (such as lipreading, speech correction, sight conservation, and corrective health habits), the provision of special seats, books and teaching supplies, equipment, and like services required for the instruction of exceptional children.

(d) The state wide total of all classroom teacher units allotted for emotionally disturbed children each year shall be limited to 20 classroom teacher units per year. It is the intention of the legislature that these 20 classroom teacher units per year be allocated as a pilot study only, to ascertain the most practical and effective means of educating emotionally disturbed children.

(e) In any school district where the parents of the required number of any type of exceptional children, or types which may be taught together, petition the governing board of that district for a special class, it shall be the duty of such board to request the state commissioner of education to cooperate in the establishment of such class or classes. The state commissioner of education shall allot to such district a number of exceptional children teacher units to operate special or convalescent classes for exceptional children within the district pursuant to rules and regulations adopted by the State Board of Education.

(f) Districts not eligible for a full exceptional children teacher unit may enter, by vote of their respective governing boards, into one cooperative agreement to provide exceptional children teacher units approved by the county superintendent. The teacher for an exceptional children teacher unit shall be employed by the governing board of the district in which the class is to be taught, and such unit shall be administered solely and exclusively by the superintendent of such district. The state commissioner of education, upon the county superintendent's certification of the agreement, shall allot to each district party thereto a fractional part

of an exceptional teacher unit, provided that the sum of such units so allotted shall not be greater than the number of units for which said district would be eligible if no cooperative agreement existed.

(g) Whenever property has been donated to a district or whenever a district has been granted the right to use certain property for the education of exceptional children as provided in this chapter, the benefits of this law shall be extended to such exceptional children educated on such property under the supervision of the school district owning or having the right to use such property whether or not such property is located within the confines of the district. In no event, however, shall a district operate such schools on property located more than one mile beyond the boundary lines of the district whether the schools are located within this state or not.

(h) No person shall be employed to teach any class for exceptional children unless he possesses a valid teacher certificate and such training as the state commissioner of education may require.

§ 16.17. Supervisor and/or Counselor Units

(a) The state commissioner of education shall establish, subject to regulations by the State Board of Education, qualifications for supervisors and counselors. Supervisor and/or counselor professional units for each school district, which may be separate for whites and Negroes, shall be determined and supervisor and/or counselor units allotted, in addition to other professional unit allotments, as prescribed by this section.

(b) The basic allotment shall be one supervisor or counselor unit for the first 40 classroom teacher units and one supervisor or counselor unit for each additional 50 classroom teacher units, or major fractional part thereof. If a district is eligible for one such unit, the district may employ for such unit either a supervisor or a counselor, but not both. If a district is eligible for two or more such units, the district may employ supervisors only, counselors only, or a combination of the two to the extent of total eligibility.

(c) Districts having fewer than 40 classroom teacher units may enter, by vote of their respective governing boards, into one cooperative agreement to provide supervisors and/or counselors to be recommended and supervised by the county superintendent and employed by the county school board. Under such agreements the combined classroom teacher units of the cooperating districts shall be used in calculating eligibility for supervisor and/or counselor units, but if the county employs a supervisor from the county administrative funds, 40 classroom teacher units shall be deducted from the combined total. The state commissioner of education shall, upon the county superintendent's certification of such agreement, allot to each district party to such agreement a fractional part of a supervisor or counselor unit, said fraction to be not greater than the number of approved classroom teacher units for that district divided by 40.

§ 16.18. Principal Units

(a) Principal units shall be of two types: full-time principal units and part-time principal units. A part-time principal unit shall entitle a district to assign a classroom teacher to serve as a part-time principal and to receive an additional salary allowance as hereinafter provided in this chapter.

(b) The principal unit allotment as hereinafter provided shall be based upon the number of approved classroom teacher units and shall be made in addition to other professional unit allotments. Principal units for each school district, which may be separate for whites and Negroes, shall be determined and allotted as prescribed in this section.

(c) No district having fewer than three approved classroom teacher units shall be eligible for a principal allotment.

(d) To districts having from three to 19 classroom teacher units and not having an accredited four-year high school, one part-time principal unit shall be allotted.

(e) To districts having from nine to 19 classroom teacher units and having a four-year accredited high school, two part-time principal units shall be allotted. Additional part-time principal units shall be allotted, if necessary, to the extent that at least one part-time principal will be available for each campus on which a school with more than two classroom teachers is operated in the district.

(f) To districts having 20 or more approved classroom teacher units there shall be allotted one full-time principal unit for the first 20 classroom teacher units and one full-time principal unit for each additional 30 classroom teacher units, but fractions shall not be considered in computing principal allotments.

(g) Part-time principal units, in addition to full-time principal unit allowances provided above, shall be allowed as follows: one from the first 20 classroom teachers, and one from each additional 30 classroom teachers. Service as part-time principal shall be in addition to part-time classroom duties. Those so designated shall receive an additional allowance as hereinafter provided in this chapter. Additional part-time principal units shall be allotted, if necessary, to the extent that at least one full-time or part-time principal will be available for each campus on which a school with more than two classroom teachers is operated in the district.

§ 16.19. Superintendent Unit

(a)¹ Superintendents shall serve the entire school district. Allotments for superintendent units as provided for herein shall be made in addition to other professional unit allotments. Superintendent units for each district shall be determined and allotted in the following manner: A district having one or more four-year accredited high schools shall be eligible for one superintendent allotment. A district which does not have a four-year accredited high school shall not be eligible for a superintendent allotment.

1. There is no paragraph (b) in the enrolled bill.

§ 16.20. Professional Units, Combined ADA

For purposes of determining professional units allotment under provisions of this chapter, the Central Education Agency may combine a district's average daily attendance upon request being made by the district timely pursuant to agency instructions.

§ 16.21. Professional Units, Current ADA

(a) In addition to the allocation of professional units as otherwise prescribed in this chapter, there shall be allotted to any district, which

desires to and does report current-year increases in average daily attendance, additional units on such increase basis provided:

(1) the district submits its request-report with the Central Education Agency on or before July 1 of each school year; and

(2) the request shows the average daily attendance earned during the then current year.

(b) Adjustments in classroom teacher and other professional units and the attendant operational allotments shall be made to such districts on the basis of the formulas set out in this Chapter.

1. There is no paragraph (b) in the enrolled bill.

[Sections 16.46–16.50 reserved for expansion]

SUBCHAPTER F. TRANSPORTATION SERVICES

§ 16.51. Transportation Services

Transportation services shall be provided and allotments therefor shall be determined according to the provisions of this subchapter.

§ 16.52. Public School Transportation System

(a) The county school boards of the several counties of this state, subject to approval by the state commissioner of education, are authorized to establish and operate an economical public school transportation system within their respective counties.

(b) In establishing and operating such transportation systems, the county school boards shall:

- (1) requisition buses and supplies from the state board of control as provided for in this subchapter;
- (2) prior to June 1 of each year, with the commissioner's approval, establish school bus routes within their respective counties for the succeeding school year;
- (3) employ school bus drivers; and
- (4) be responsible for the maintenance and operation of school buses.

(a) State warrants for transportation, payable to the county school transportation fund in each county, shall be for the total amount of transportation funds for which the county is eligible under the provisions of this subchapter.

(b) When requested by the board of trustees of an independent school district, the county school board shall authorize such independent district to:

- (1) employ its school bus drivers;
- (2) be responsible for the maintenance and operation of its school buses; and
- (3) receive transportation payments directly from the state.

(c) When the county superintendent reports such authorization to the state commissioner of education, state warrants for transportation funds for which the district is eligible shall be made payable to the district transportation fund, which is hereby created.

§ 16.54. Use of Buses for Extracurricular Activities, Etc.

The county school boards and the state commissioner of education shall promulgate regulations in regard to the use of school buses, for other than transporting eligible children to and from school. Under rules and regulations of the State Board of Education, the appropriate district allocation in the county transportation fund, when approved by the county school board, or the district transportation fund, when approved by the board of trustees of the independent school district operating its own transportation system, may be used for school bus transportation of its pupils and necessary personnel on extracurricular activities and field trips sponsored by the respective district.

§ 16.55. Approved School Bus Routes

School buses shall be operated to and from school upon approved school bus routes and no variations shall be made therefrom. The penalty for varying from authorized routes and for unauthorized use of buses shall be the withholding of transportation funds from the offending county or school district. In the event the violation is committed by a district which receives no Foundation School Program Funds, the penalty provisions of Section 4.18 of this code shall be applied.

§ 16.56. Calculation of Allotment

(a) The total annual regular transportation cost allotment for each district or county shall be based upon the rules and formulas of this section.

(b) A typical bus route is defined as being from 45 to 55 miles of daily travel and composed of 60 percent surfaced roads and 40 percent dirt roads, over which 15 or more pupils who live two or more miles from school are transported.

(c) Allowable total base costs of maintenance, operation, salaries, depreciation, etc., for each bus shall be:

72 capacity bus	\$2,730 per year
60-71 capacity bus	\$2,630 per year
49-59 capacity bus	\$2,530 per year
42-48 capacity bus	\$2,430 per year
30-41 capacity bus	\$2,330 per year

A bus that makes two or more routes or serves two or more schools shall be considered as having a capacity equal to the largest number of eligible children on the bus at any one time.

(e) For each one percent increase of dirt road above 40 percent, one-half of one percent shall be added to the allowable total cost.

(f) For each five miles (or major fraction thereof) increase in daily bus travel above 55 miles, one percent shall be added to the total cost of operation. For each five miles (or major fraction thereof) less than 45

miles daily travel, one percent shall be deducted from the total cost of operation.

(g) The state commissioner of education may grant not to exceed \$75 per pupil per year for private or commercial transportation for eligible pupils from isolated areas. The need for this type of transportation grant shall be determined on an individual basis and the amount granted shall not exceed the actual cost. Such grants shall be made only in extreme hardship cases, and no such grants shall be made if the pupils live within two miles of an approved school bus route or city public transportation service.

§ 16.57. Routes and Systems: Evaluation and Approval

(b) The commissioner shall evaluate all transportation systems as rapidly as possible.

(c) No new bus routes or extensions shall be approved prior to the survey of the transportation system of the district or county requesting them.

(d) In cities having a public transportation service, no child residing within the city limits shall be eligible for transportation at state expense unless he resides more than two miles, measured by the nearest practical route, from the service.

(e) Extension of a city's boundaries for city purposes only, after June 8, 1949, so as to include within the city boundaries part of a school district into which public transportation lines or facilities are then operated shall not affect the district's eligibility for transportation aid. Rather, all such districts shall be entitled to receive transportation aid under the provisions of this chapter, if otherwise qualified, to the same extent as if no part thereof had been annexed by the city and its public transportation lines had not operated therein.

(f) In approving a transportation system for a district or county, consideration shall be given to providing transportation for only those pupils who live two or more miles from the school they attend, but no consideration shall be given to providing transportation for pupils transferred from one district to another when their grades are taught in their home district unless transferred as provided by law and transportation has been approved by the county school board as provided by law.

(g) There shall be no duplication of bus routes and services within sending districts by buses operated by two school districts and/or counties except upon approval by the state commissioner of education.

The Legislature may appropriate out of any money in the state treasury not otherwise appropriated a sum not exceeding \$250,000, or so much thereof as necessary, for the state board of control to be used for such purposes.

(b) Any such sum appropriated shall be known as the school bus revolving fund. When motor vehicles and school buses are delivered to the various schools coming within the provisions of this chapter, the governing bodies of such schools shall reimburse the state board of control for the money expended for such school buses including their chassis and/or bodies and the money shall be deposited by the state board of control in the school bus revolving fund.

§ 16.62. Transportation Allotment for Exceptional Children Program

(a) An annual transportation cost allotment for each district operating an approved exceptional children program shall be computed and paid from the Foundation School Program Fund on a per capita basis as provided by this section.

(b) For physically and/or orthopedically handicapped children, visually handicapped children with conditions making impractical the use of public transportation, deaf children, and/or trainable mentally retarded children, the transportation allotment shall be \$150 per exceptional child receiving such transportation, provided the district locally determines and certifies subject to the approval of the state commissioner of education that the pupil:

- (1) is unable to utilize existing regular transportation services;
 - and
 - (2) would be unable to attend the exceptional children class unless such special transportation is provided.
- (c) Allotments granted under this section shall be:
- (1) used only for transportation purposes of children enrolled in a district-operated exceptional children program;
 - (2) deposited in the district's exceptional transportation fund;
 - and
 - (3) accounted for separately from regular transportation funds.

§ 16.63. Contract With Public Transportation Company

(a) As an alternative to maintaining and operating a complete public school transportation system under this subchapter, and if the respective governing board is able to obtain an economically advantageous contract, a county school board for its transportation system or a board of trustees of an independent school district which has been authorized to be responsible for the maintenance and operation of its school buses may contract with public transportation companies for all or any part of its public school transportation.

(b) A contract is economically advantageous if the cost of the service contracted for is less than the projected cost of the same service as otherwise provided in this subchapter.

(c) The state commissioner of education, subject to the approval of the State Board of Education, shall make rules for the administration of this section.

(d) Contracts for public school transportation may include provisions for transporting students to and from approved school activities.

(e) Upon approval of the contract by the State Board of Education, the contract price for the service shall be included in the annual transportation cost allotment for the respective county or district.

[Sections 16.64–16.70 reserved for expansion]

SUBCHAPTER G. FINANCING THE PROGRAM

§ 16.71. Financing—General Rule

The sum of the approved salaries for professional positions, the current operating cost other than professional salaries and transportation, and cost of transportation service of each district, computed and determined in accordance with the provisions of this chapter, shall constitute the total cost of the Foundation School Program, which program shall be financed by:

(1) an equalized, local school district effort to the extent hereafter provided for the support of this program;

(2) distribution of the state and county available school funds based on the number of scholastics; and

(3) allocation to each local district a sum of state money appropriated for the purposes of public school education and sufficient to finance the remaining costs of the Foundation School Program in that district, which sum shall be computed and determined in accordance with the provisions of this subchapter.

§ 16.72. Total Amount Chargeable to Districts

The sum of the amounts to be charged for the 1967–1968 school year to local school districts for the support of the Foundation School Program shall be \$154,800,000. For the 1968–1969 school year, and for each year thereafter, the sum of the amounts to be charged to local school districts for the support of the Foundation School Program shall be 20 percent of the estimated total cost of the Foundation School Program for the immediately preceding school year, plus an amount equal to the difference between the gross local fund assignment and the net local fund assignment for the immediately preceding school year.

§ 16.73. Estimate of Total Cost of Program; Local Assignment

At its regular meeting in March, the State Board of Education, after receiving the recommendation of the state commissioner of education, shall estimate the total cost of the Foundation School Program for the current school year, based upon laws and approved school budgets then effective. Within 30 days after this estimate has been made, the state commissioner of education, subject to approval by the State Board of Education, shall assign to each school district, according to its taxpaying ability as determined in this subchapter, its proportionate part of the es-

timated cost to be raised locally for the next school year and applied in financing its Foundation School Program.

§ 16.74. County Economic Index

(a) The state commissioner of education, subject to approval by the State Board of Education shall, not later than the first week in March of each year, calculate an economic index of the financial ability of each county to support the Foundation School Program. This index shall be calculated to approximate each county's percentage of statewide taxpaying ability and shall constitute for the purpose of this subchapter a measure of that county's ability, in relation to that of other counties in the state, to support schools.

(b) The economic index for each county shall be based upon and determined by the following weighted factors:

- (1) assessed property valuation of the county, weighted by twenty;
- (2) scholastic population of the county, weighted by eight; and
- (3) income for the county as measured by value added by manufacture, value of minerals produced, value of agricultural products, payrolls for retail establishments, payrolls for wholesale establishments, and payrolls for service establishments, all weighted collectively by seventy-two.

(c) The commissioner of education, subject to approval by the State Board of Education, shall annually recompute not later than the first week in March, a new economic index using an average of data for a three-year period which shall be taken from the most recently available official publications and reports of state and federal agencies.

§ 16.75. County Assignment

For the school year beginning 1968-1969 and each school year thereafter, the state commissioner of education shall calculate the total local funds that the school districts of a county shall be assigned to contribute toward the total cost of the Foundation School Program by multiplying 20 percent of the estimated program cost for the immediately preceding school year, plus an amount equal to the difference between the gross local fund assignment and the net local fund assignment for the immediately preceding school year, by the economic index determined for each county. The product shall be regarded as the local funds available in each county for support of the Foundation School Program and shall be used in calculating the portion which shall be assigned to each school district in the county.

§ 16.76. School District Assignment

(a) The amount of local funds to be charged to each school district and used therein for support of the Foundation School Program shall be calculated and determined by the state commissioner of education as follows: Divide the state and county assessed valuation of all property in the county subject to school district taxation for the next preceding school year into state and county assessed valuation of the district for the next preceding school year, finding the district's percentage of the county valuation. Multiply the district's percentage of the county valuation by the amount of funds assigned to all of the districts in the county. The product shall be the amount of local funds that the district shall be assigned to raise toward the financing of its Foundation School Program.

(b) In any district containing state university-owned land, state-owned prison land, federal-owned military reservations, or federal-owned Indian reservations, the amount assigned to a school district shall be reduced in the proportion that the area included in the above-named classification bears to the total area of the district. For purposes hereof, state university-owned land is defined to mean and include also state-owned land located in Brazos County and devoted to the use of Texas A & M University.

(c) No local fund assignment shall be charged to the Boy's Ranch Independent School District in Oldham County, the Bexar County School for Boys Independent School District in Bexar County, or the Bexar County School for Girls Independent School District in Bexar County.

(d) Beginning with the school year 1967-1968, and thereafter, in any school district having three percent or more of its total scholastic population for the preceding school year composed of scholastic residents and transfers of tax-exempt institutions in the district for orphan, dependent, and/or neglected children, the amount assigned to such a district shall be reduced for the current school year by an amount equal to the product of the total average daily attendance of students who were residents and/or transfers of such tax exempt institutions during the preceding school year multiplied by \$151.50. The superintendent of any district desiring to receive such a reduction in assignment and qualifying therefor shall certify to the Central Education Agency, not later than December 1 of each year, the following information:

(1) the total average daily attendance of the school district determined for students residing in the district for the preceding school year;

(2) the average daily attendance for the preceding school year determined for the scholastic residents of the tax exempt institutions in the district for orphan, dependent, and/or neglected children; and

(3) a list showing the name of each such institution scholastic, the total daily attendance earned for such students in the preceding school year, and the name and address of the institution.

(e) If the revenue that would be derived from the legal maximum local maintenance school tax is less than the amount assigned to a school district according to its economic index, and if the district's property valuation is not less than the same property's valuation for state and county purposes, the lesser amount shall be assigned to be raised by such school district.

(f) Failure of a school district to collect local maintenance school funds equal to its assigned amount will not make the district ineligible for full state per capita apportionment and full foundation school fund grants, but the assigned amount shall be charged against the district as budgetary receipts whether or not actually collected.

(g) The amount of local funds assigned to a contract district, as provided for in Section 16.11(i) of this code, shall be assigned to the receiving district and all local taxes, except those required for the interest and sinking fund, shall be credited as collected to the receiving school district.

(h) If a district other than a contract district has no school, the amount of local funds assigned to, and local taxes collected from, such district shall be transferred for the current year to the receiving district in which such children attend school. But if its pupils attend schools in more than one receiving district, local fund assignments and local taxes

shall be apportioned for the current year between such receiving districts according to the number of transfers to each.

(i) If any school district has a budgetary income, as provided above in Section 16.71(1) and (2) of this code, in excess of the amount needed to operate a minimum Foundation School Program and transfers pupils to another district, it shall pay to the receiving district a proportionate part of such excess, based upon the ratio of the number transferred to its enumerated scholastic population, and this excess portion shall be charged to such receiving district.

(j) The sum of the amounts assigned to the several parts of a county-line school district shall be the amount assigned to be raised by such district for financing its Foundation School Program.

§ 16.77. Notification of Local Fund Assignment

The county tax assessor collector in each county, in addition to his other duties prescribed by law, shall certify to the state commissioner of education, not later than December 1 of each year, the following information:

(1) The assessed valuation, on a state and county valuation basis, of all property subject to school district taxation in each school district, or portion of a school district in such county, and the total assessed valuation of all property subject to school district taxation in the county;

(2) the total area of each school district; and

(3) the area within each school district comprised of state university-owned land, state-owned prison land, federal-owned forestry land, federal-owned military reservations, and/or federal-owned Indian reservation.

(b) Should any county tax assessor collector fail to submit such certificates, to the state commissioner of education, the state comptroller of public accounts is directed to do so, estimating when necessary.

(c) As soon after the receipt of such certificates as practicable, and prior to setting the respective tax rates for the school districts of the county, the state commissioner of education shall notify each school district of the amount of local funds that such district is assigned to raise for the succeeding school year.

(d) If there has been a marked increase or decrease in the assessed valuation of a school district within a county, and if the county school board, after certifying that the use of the preceding year's county and school district valuations for determining local fund assignments would be inequitable, recommends a different distribution of the county total than that made by the state commissioner of education, then such recommendations, subject to the commissioner's approval, shall become and be the lawful local fund assignments for such district.

§ 16.78. Excess of Local Funds Over Amount Assigned

Any local maintenance funds in excess of the amount assigned to a district may be expended for any lawful school purpose or carried over into the next school year.

§ 16.79. Administration of Foundation School Program

(a) It shall be the duty of the State Board of Education, State Board for Vocational Education, and the state commissioner of education to take such action, require such reports, and make such rules and regula-

tions consistent with the terms of this chapter as may be necessary to carry out its provisions.

(b) The state commissioner of education shall determine annually:

(1) the amount of money necessary to operate a Foundation School Program in each school district;

(2) the amount of local funds to be assigned and charged to each school district; and

(3) the per capita apportionment from state and county available school funds available to each school district.

(c) The commissioner of education shall then grant to each school district from the foundation school fund appropriation the amount of funds necessary to provide the difference between subdivision (1) and the sum of subdivisions (2) and (3) of Subsection (b) of this section.

(d) The commissioner shall approve warrants to each school district equaling the amount of its grant. Warrants for all money expended according to the provisions of this chapter shall be approved and transmitted to treasurers or depositories of school districts in the same manner as warrants for state apportionment are now transmitted.

§ 16.80. Dormant School Districts

(a) The county school boards of all counties of the state are authorized and required to consolidate by order of said board each dormant school district within the county with an adjoining district or districts.

(b) The term "dormant school district" means any school district that fails for any two successive years to operate a school in the district.

(c) The governing board of the district with which a dormant school district is consolidated shall continue to be the governing board for the new district.

(d) In each case, the consolidation order of the county school board shall define by legal boundary description the territory of the new district as so enlarged and shall be recorded in the minutes of the county school board as provided by law.

(e) Elections shall be held when required by law in such consolidated districts for the assumption of outstanding bonds, if any, for the levying of taxes therefor, and for the levying of a local maintenance tax.

(f) If a county-line district is or becomes dormant, the consolidation provisions of this section shall apply to all counties affected to the extent of territory in each.

§ 16.81. Territory Not in School District

(a) All property subject to school district taxation in the state must be included within the limits of a school district and a proper and proportionate tax paid thereon for school purposes. Therefore, at any time it may be determined there is territory located in a county but not within the described limits of a school district, the county school board is authorized and required to add such territory to an adjoining district or districts.

(b) In each case, the order of consolidation shall define by legal boundary description the territory of the new district and shall be recorded in the minutes of the county school board as provided by law.

(c) Elections shall be held as provided by law in such new districts for the assumption of outstanding bonds, if any, for the levying of taxes therefor, and for the levying of a local maintenance tax.

§ 16.82. Cumulative Effect

The provisions of Sections 16.80 and 16.81 of this code shall not be construed to repeal, supercede or limit any existing law providing other methods for school district consolidation and annexation.

§ 16.83. Falsification of Records, Report

(a) When, in the opinion of the director of school audits of the Central Education Agency, audits or reviews of accounting, enrollment, or other records of a school district reveal deliberate falsification of such records, or violation of the provisions of this chapter, whereby the district's share of state funds allocated under authority of this chapter would be, or has been, illegally increased, said director shall promptly and fully report such fact direct to the State Board of Education and to the state auditor.

(b) In the event of overallocation of such funds, as determined by the State Board of Education or the state auditor by reference to the director's report, the Central Education Agency shall, by withholding from subsequent allocations of state funds, recover from such district an amount, or amounts, equal to the overallocation.

**SUBCHAPTER H. QUARTERLY SEMESTER
PILOT PROGRAMS****§ 16.91. Pilot Program**

For purpose of exploring the feasibility of operating quarterly semester pilot programs, public school districts of this state are hereby authorized to operate (in lieu of the usual nine-month program) a twelve-month school year program and to receive allocation of state aid toward financing the extended three-month operation from the Foundation Program Fund, determined in the manner prescribed in this subchapter. Provided, however, that the district shall operate such twelve-month program under its proposed plan submitted to the Central Education Agency and subject to approval of the agency as meeting policy and regulations established and adopted by the State Board of Education applicable thereto.

§ 16.92. Limitation

Quarterly semester pilot programs, annually approvable under this subchapter, shall be restricted in number to involve a maximum of 10 programs not to exceed 100,000 pupils, based on average daily attendance in the preceding school year, and the attendance of eligible pupils shall be restricted to three quarterly semesters.

§ 16.93. Cost Basis

The cost of operating such approved quarterly semester pilot programs shall be borne by the state and each participating district on the same percentage basis that applies to financing the Foundation School Program Act within the respective district.

§ 16.94. Calculation of Costs

For purpose of computing authorized state aid and allocations under this subchapter, the cost of the program shall be ascertained as follows:

(1) The district's average daily attendance for classroom teacher unit eligibility and allocations shall be determined on a quarter semester basis, limiting eligible pupil attendance to three quarters within each scholastic year. Eligibility for special service teachers, supervisors and/or counselors, head teachers, part-time principals, and full-time principals shall be determined by dividing the total aggregate days of attendance in the pilot program by the number of days that instruction is offered during three semesters, determined to the best advantage of the district.

(2) An additional three-month salary adjustment, based on the state minimum salary schedule, shall be added for classroom teacher units occasioned by a twelve-month operation. Provided further that the number of months and salary, based on the state minimum salary schedule, for eligible special service teachers, supervisors and/or counselors, head teachers, part-time principals and full-time principals shall be allowed for 12 months.

(3) The total current operating costs of each pilot program as herein described, other than professional salaries and transportation, shall be determined by multiplying the number of classroom teacher units and exceptional teacher units times the number of months employed times \$67.

(4) An additional transportation allotment shall be added not to exceed the amount of one-third of the transportation allotment as normally computed for a nine-month operation.

§ 16.95. State's Share of Cost

The state's share of the cost shall be paid from the Minimum Foundation Program Fund, and this cost shall be considered by the Foundation Program Committee in estimating the funds needed for Foundation School Program purposes.

**SUBCHAPTER I. SUPPLEMENTAL STATE SALARY
AID TO SCHOOL DISTRICTS****§ 16.98. Supplemental State Salary Aid**

(c) Entitlement of each district for supplemental state aid authorized herein shall be determined by adding the number of classroom, vocational and exceptional teacher units allocated only to districts eligible under those provisions of foundation school program described under Sections

16.13, 16.14 and 16.16 of this code, and multiplying the sum of all such classroom teachers as herein defined by \$50.

(d) A school district may establish eligibility to receive funds to the amount determined under Subsection (c) of this section by submitting to the Central Education Agency a plan which shall meet the following conditions:

(1) State funds to be utilized as salary from amount determined under Subsection (c) of this section shall constitute not more than the same percentage of the total amount disbursed as supplemental salary to classroom teachers as the state share of the foundation school program in each participating school district; and

(2) All funds received as supplemental salary aid shall be paid as supplemental salary to persons who qualify as classroom teachers and of districts as defined in above Subsections (b) and (c) of this section; and

(3) Supplemental salary paid to any such classroom teacher shall be in addition to the salary to which such teacher is entitled under the regularly established salary policy of the school district; and

(4) Not less than ten percent of such classroom teachers employed by the school district shall participate in the state-aid supplemental salary funds disbursed to any district, and no classroom teacher shall receive less than \$100 or in excess of \$1000 in any school year.

(e) On or before its first meeting day of each fiscal year, the State Board of Education shall certify to the comptroller of public accounts the amount of money required to meet the provisions of this salary aid program. Upon receipt of the certification or as soon thereafter as possible, the comptroller shall cause to be set aside from funds collected or to be collected and credited to the general revenue fund a sum sufficient to meet such certification, and such sum(s) as so certified are hereby appropriated therefor. Any funds remaining unexpended and unencumbered in this salary program account on the last working day of each fiscal year shall be credited to the general revenue fund.

§ 17.57. Fiscal Accounting System

(a) The county superintendent shall select and install a standard school fiscal accounting system for each common and rural high school district in his jurisdiction. This system must meet at least the minimum requirements prescribed by the State Board of Education and be approved by the state auditor; it shall not, however, relieve any board from keeping any other accounting records. It shall also be keyed to and correlated with the classifications in the budget regarding the purposes of disbursements and sources of receipts.

(b) The county superintendent shall cause to be kept in his office for each district a record of expenditures made and income received during the fiscal year for which the budgets were approved. (c) He shall confer with the teachers and trustees and give them advice when needed, visit and examine schools, and deliver lectures promoting interest in public education.

(d) He shall distribute all school blanks and books to the officers and teachers of the public schools under his jurisdiction and shall make such reports to the Central Education Agency, or any division thereof, as may be asked of him.

(e) He shall, if possible, spend at least four days each week visiting the schools while they are in session.

(f) He shall approve the reports of independent school districts, except such as have a scholastic population of 500 or more, to the Central Education Agency, and shall have jurisdiction over appeals from decisions of independent school districts of fewer than 500 scholastics.

§ 17.60. Teachers' Meetings

(a) The county superintendent or ex officio county superintendent may call the teachers of the county together for one or more meetings, but not to exceed three in any one school year, the number to be determined by the county governing board and county superintendent. These meetings may be held on Saturday for one or more hours, but not to exceed three hours on any one day, as the program arranged may demand.

(b) The county superintendent may require teachers' attendance at these meetings but they shall not be paid therefor.

(c) The trustees of any independent district having 500 or more scholastic population may authorize the superintendent of schools in the district to hold district teachers' meetings in lieu of county meetings.

§ 17.61. Administer Oaths

The county superintendents are empowered to administer oaths necessary in transacting any business relating to school affairs, but they shall receive no compensation therefor.

Notice of election of either further appeal route must be given to the county governing board within five days after its final decision.

§ 17.64. Abolition of Office

(a) Upon a petition of 25 percent of the qualified voters who cast a vote in the governor's race at the preceding general election in counties of less than 100,000 population according to the last federal census; or

upon a petition of 20 percent of the qualified voters who cast a vote in the governor's race at the preceding general election in counties of 100,000 or more population according to the last federal census, the county judge shall within 90 days of the receipt of such petition call an election to determine by majority vote whether the office of county superintendent (or ex officio county superintendent and the county school board in counties having an ex officio county superintendent) shall be abolished. At such an election all ballots shall have printed to provide for voting for or against the proposition:

"The abolishment of the office of county superintendent" or "the abolishment of the office of an ex officio county superintendent and the county school board" (as the case may be).

(b) Where the majority of the qualified electors approve the abolition of the office of county superintendent, the duties of such abolished office as may still be required by law shall vest in the county judge in ex officio capacity upon expiration of the current term of that office.

(c) Where the majority of the qualified electors approve the abolition of the office of the ex officio county superintendent and county school board, the duties of such abolished offices as may still be required by law shall be and become the duties of the office of county judge of said county upon the expiration of the current term of office of the ex officio county superintendent, and said county judge shall not be entitled to nor receive any additional compensation as a result of these additional duties.

(d) Not more than one such election may be called during any term of office of the incumbent county superintendent or ex officio county superintendent and that not during the year that a regular election for the office is being held.

Section 18.01. Definition

The county unit system is a method by which the voters of a county may, without affecting the operation of any existing school district within the county, create an additional countywide school district which may exercise in and for the entire territory of the county the taxing power conferred on school districts by Article VII, Section 3, of the Texas Constitution, for the purpose of adopting a countywide equalization tax for the maintenance of the public schools.

§ 18.02. Validation and Conversion to Present Law

(a) All actions heretofore taken in establishing in any county a countywide equalization fund or a county-unit system of any sort, whether established, organized, and/or created by the vote of the people residing in such counties or by the action of the county school trustees or the county board of education, as the case may be, and whether authorized or created by general or special law in this state, are hereby validated in all respects, regardless of whether or not such actions were duly and legally taken in the first instance; and all such county equalization funds and/or county-unit systems resulting from such action and heretofore collecting and distributing countywide equalization funds or functioning as county-unit systems are hereby in all things validated.

(b) All facts of county judges, county school trustees, or county boards of education in such counties in ordering an election or elections, declaring the results of such election, levying, attempting, or purporting to levy county equalization taxes or taxes for or on behalf of a countywide district or a county equalization fund are hereby in all things validated.

(c) All county-unit systems heretofore created and hereby validated are hereby authorized and empowered to levy, assess, and collect the same rate of tax, or not to exceed the rate of tax heretofore authorized or attempted to be authorized by any act of the county governing body or by any election of the taxpaying voters of said county or by any act, whether general or special, by the legislature, or the same rate as is being levied, assessed, and collected therein and heretofore authorized or attempted to be authorized by any act or acts of said counties or by any act, whether general or special, of the legislature.

(d) All counties in which an equalization fund has heretofore been created are hereby authorized to levy, assess, and collect the same rate of tax or not to exceed the rate of tax heretofore authorized or attempted to be authorized by any election of the taxpaying voters of the county or by any act, whether general or special, by the legislature, or the same rate as is being levied, assessed, and collected therein any heretofore authorized or attempted to be authorized by any act or acts of said counties or by any act, whether general or special, of the legislature.

(e) All future administrative procedures, elections, and tax levies in those counties which now have an equalization fund or which are now operating under a county-unit system, shall be controlled by the provisions of this chapter.

§ 18.03. Authorization

(a) Any county in this state may, at an election called for that purpose under the provisions of this chapter and to the extent herein provided, adopt a county-unit system of education for the purpose of levying, as-

sessing, and collecting a school equalization tax and for such other administrative purposes as are authorized in this chapter.

(b) Any county in which the county-unit system has been adopted may, if further authorized by a majority of the qualified property taxpaying voters residing therein at an election held for that purpose as provided in this chapter exercise in and for the entire territory of the county, to the extent in this chapter prescribed, the tax power conferred on school districts by Article VII, Section 3, of the Texas Constitution.

§ 18.04. Petition for Election to Adopt County-Unit System

(a) An election to adopt the county-unit system shall be ordered by the county judge of any county upon the presentation of a petition praying for the formation of a countywide school district and signed by the number of qualified voters specified below:

(1) In any county having a population of fewer than 100,000, according to the last federal census, the petition must be signed by at least 100 qualified voters; and

(2) In any county having a population of 100,000 or more, according to the last federal census, the petition must be signed by at least 500 qualified voters.

(b) Upon the receipt of a petition fulfilling the applicable requirements of subsection (a) of this section, the county judge shall order, in compliance with the applicable provision below, an election to determine whether or not the county-unit system shall be adopted in the county.

(c) In these counties with a population of fewer than 100,000, the county judge shall, within 30 days, order an election to be held throughout the county and give notice of the date of the election by publication of the order in some newspaper published in the county for 20 days prior to the date set for the election.

(d) In those counties with a population of 100,000 or more, the county judge shall, within 90 days, order an election to be held throughout the county and give notice by posting, in each precinct for at least 20 days prior to the election, notice of the date of the election and the question to be determined.

§ 18.05. Election to Adopt the County-Unit System

(a) All legally qualified voters in the county shall be allowed to vote at the election to determine whether or not the county shall adopt the county-unit system.

(b) The form of ballot shall be substantially as follows: "For Equalization District" and "Against Equalization District."

(c) The election shall be conducted by the election officer appointed to hold the election of district school trustees in each school district in the county and at the same polling places. The expenses of the election shall be paid from general county funds.

(d) The commissioners court at its next regular meeting following the election, shall canvass the returns of the election and declare the result. If a majority of the votes cast favor the formation of such a district, the court shall declare the countywide school equalization district duly and legally created and the provisions of this chapter duly adopted.

§ 18.06. Management

(a) In those counties which have adopted or may hereafter adopt the county-unit system, the general management, supervision and control of

the countywide school district shall be vested in the county governing board as specified in Section 17.01 of this code.

(b) In those counties adopting the county-unit system and having a total population of fewer than 100,000, the county governing board shall be designated as the county school trustees.

(c) In those counties adopting the county-unit system and having a total population of 100,000 or more, the county governing board shall be designated as the county board of education.

(d) After the adoption of the provisions of this chapter, the county governing board shall continue to exercise all powers and duties assigned to it in Chapter 17 and in other provisions of this code,¹ and in addition thereto shall perform the other functions assigned to it under the terms of this chapter.

bond shall be made payable to the county governing board and shall be made in a sum fixed by the county governing board at not less than double the amount of money belonging to the fund which the tax collector may have in his possession at any time. A similar bond may be required by the county governing board of any and all other persons or corporations in whose possession the equalization funds may be kept.

(e) The tax collector shall have the same authority and the same laws shall apply in the collection of the equalization tax as in the collection of county ad valorem taxes.

(d) The county governing board shall issue warrants (on the per capita basis specified above) against the equalization fund to the school district trustees in each district. However, the apportionment may be made by the county governing board either annually or from time to time as the money is collected.

(e) The county superintendent in each county adopting the county unit system and authorizing the assessment and collection of an equalization tax shall keep a record of all money, both received and paid out, from the county equalization fund.

§ 19.245. Dissolution of County-Line Consolidated School Districts

(e) Dissolution of the district under the terms of this section shall not operate to relieve any one of the original districts from assuming and bearing its pro rata part of the total indebtedness of the consolidated county-line school district; and any indebtedness, bonded or otherwise, shall be borne proportionately by the original districts comprising the county-line school district.

(d) When the corporate limits of any city or town are extended to include therein the whole or any part of any school district having an outstanding bonded indebtedness and the extension was not limited to municipal purposes only, the city or town shall become liable and bound for the payment of such proportion of the bonded indebtedness of the district as the assessed value of the included portion bears to the entire assessed value of the district from which it was taken. The assessed values of the district so included shall be those shown upon the last preceding tax assessment roll after the district is so included. (b) After the territory has been included in or annexed to the incorporated city or town, the county governing board of the county or counties in which the districts are situated may, with the approval specified in Subsection (c) of this section, annex the territory to any contiguous school district as specified in Section 19.261 of this code.

§ 19.368. Territory Formerly Single District or Parts of Several Districts

(a) Upon the abolishment of an independent school district created out of territory formerly comprising a single common school district and/or consisting of parts of several districts and/or districts annexed thereto, the county governing board shall contain or embrace the territory of the abolished independent school district into a newly created common school district or shall annex the territory to one or more contiguous districts.

(b) When all the territory embraced within the abolished independent school district is created into a common school district or is annexed to or included within the limits of one other district, title to all property, both real and personal, belonging to the abolished independent school districts shall be vested in the other school district or its governing officers.

(c) When the territory of the abolished independent school district is subdivided and annexed to two or more other school districts, all real property, improvements, and appurtenances belonging to the abolished independent school district shall become the property of the districts to which these properties are annexed, and all personal property shall be divided between the receiving districts in proportion to the assessed property value of the part of the abolished independent school district so annexed.

(d) When at the time of its abolishment the independent school district had no outstanding indebtedness, all uncollected taxes on the property of the district for the years up to and including the last day of January of the year immediately following that in which the independent school district is abolished shall be levied and collected, at the same rate and in the same manner as authorized for the independent school district

immediately prior to its abolishment, by the school district or districts to which the territory containing the property upon which taxes are due has been annexed.

(e) When at the time of its abolishment the independent school district had outstanding bonds or other indebtedness, enforceable either at law or in equity, the school district or districts to which the territory of the abolished independent school district has been annexed may, at an election held for that purpose, assume such bonds or other indebtedness. The election shall be held in the manner provided for holding an election for voting bonds or for voting a special tax, as the case may be, within the receiving school district as provided in Chapter 20 of this code.¹ If a majority of the qualified property tax paying voters within the receiving district vote in favor of assuming the indebtedness, all property within the receiving district, not exempt under the general law, shall be subject to taxation for the payment of the bonds or other indebtedness of the abolished independent school district, and the proper officers of the receiving district shall levy upon the property of the district a tax adequate for the payment of the bonds or other indebtedness over such a period of time as may be necessary for that purpose.

(f) In the event the qualified taxpaying voters of the receiving district or districts do not by majority vote assume the outstanding bonds and other indebtedness of the abolished independent school district, all taxes against the property of the abolished independent school district shall remain in full force and effect and shall be levied and collected by the proper officers of the district or districts to which the territory of the abolished independent school district has been annexed until the entire indebtedness is fully paid.

(g) In the event the qualified taxpaying voters of the receiving district or districts do not by majority vote assume the outstanding bonds and other indebtedness of the abolished independent school district, the county school trustees or county board of education, as the case may be, shall manage, control or dispose of all property within the county belonging to the abolished independent school district. The county governing board shall have the power to do any and all things necessary for the payment of such bonds or other indebtedness which the independent school district, or the trustees thereof, could have done had the independent school district not been abolished. The county governing board shall also have the power to levy and collect taxes, and the power to bring and defend litigation in the name of the independent school district.

(h) Any creditor of an abolished independent school district shall file his claim against the district with the county school trustees or county board of education, as the case may be, within 60 days after the independent school district has been abolished and, if the claim is not allowed, may maintain suit against the abolished independent school district as such. Service in a suit, if necessary, may be had upon the chief officer of the county governing board. The county governing board shall defend any suit against an abolished independent school but may, in its discretion, make such settlement of the litigation as may be deemed advisable.

1. Section 20.01 et seq.

SUBCHAPTER M. ABOLITION OR SUBDIVISION OF COMMON SCHOOL DISTRICTS**§ 19.401. Authority of County Governing Board**

¹ The county school trustees or county board of education, as the case may be, in any county in this state shall have full power and authority to abolish and/or subdivide any common school district or other district coming under the jurisdiction of the county governing board provided that:

(1) the district has fewer than ten resident scholastics within its boundaries; and

(2) no public school has been conducted in the district for a period of five years immediately preceding such action by the county governing board.

(b) The territory of any district abolished or subdivided shall be attached to one or more contiguous school districts or county-line school districts in such manner as may be determined by the county governing board.

1. Paragraph probably should be lettered as (a).

§ 19.402. Adjustment of Bonded Debt

The county governing board shall also, at the time of abolishing or subdividing a common school district, make an adjustment of outstanding bonded indebtedness, if there be such, and provide for an equitable distribution of all district properties as specified in Subchapter N of this chapter.¹

1. Section 19.431 et seq.

§ 19.403. Appeal

Any trustee or any resident of a district or territory affected by the action of the county governing board, as authorized by this subchapter, may appeal from the decision of the county governing board to the district court of the county in which the governing board acts.

SUBCHAPTER N. ADJUSTMENT OF BONDED INDEBTEDNESS BY COUNTY GOVERNING BOARD**§ 19.431. Duty of County Governing Board**

Whenever a board of county school trustees or a county board of education has participated in the creation of any new school district or in the changing of the boundaries of any existing district (whether by consolidation, by detachment-attachment, by subdivision, or by any other authorized means), it shall be the duty of the county governing board to make an adjustment of any outstanding bonded indebtedness and district properties of any district or districts affected.

§ 19.432. Basis for Adjustment

The county governing board shall take into consideration the value of the school properties and the taxable wealth of the districts affected and the territory so divided, detached, or added, as the case may be, to make an equitable adjustment of the indebtedness and the district properties between the districts affected and between the territory divided, detached, or added.

§ 19.433. Adjustment Orders

(a) When the governing board has arrived at a satisfactory basis of such an adjustment, it shall have the power to make such orders in relation thereto as shall be conclusive and binding upon the districts and the territory affected thereby.

(b) The county governing board may order the trustees of the districts affecting to order an election for the issuing of such refunding bonds as may be necessary to carry out the purposes of the order of the county governing board.

§ 19.434. Refunding Bond Election

In the event an election is ordered by the county governing board, it shall be the duty of the district trustees to order such election and to cause the same to be held.

§ 19.435. Refunding Bonds

(a) If a majority of the voters casting votes at a refunding bond election held to carry out the orders of the county governing board favoring the issuance of refunding bonds, the provisions of this section apply.

(b) The bonds shall be issued by the district trustees.

(c) The bonds shall be of the same denomination and carry the same interest rate and mature at the same time as the outstanding bonds owning¹ by the district issuing them.

(d) The new bonds, when so issued, shall be subject to exchange for the outstanding bonds for which the district issuing them shall still be liable, according to the order adjusting the indebtedness. In the event an exchange of the new bonds for the outstanding bonds cannot be made, the new bonds of the district, to the amount of the old bonds for which it is still liable and to which no exchange can be made, shall be deposited in the county treasury to the account of the district.

(e) Taxes shall be levied and assessed only for the payment of interest, sinking fund, and principal of the new bonds so issued. The funds arising from taxation shall be used to discharge the principal and interest of such new bonds as have been issued and exchanged and such old bonds as have not been exchanged.

(f) When taxes are collected applicable to new bonds not exchanged and the proceeds applied to payment on old bonds not exchanged, the corresponding new bonds in the county treasury shall be credited with such payment and retired as the old un-exchange bonds are retired.

1. So in enrolled bill.

§ 19.436. Failure of Bond Election

(a) If a refunding bond election held to carry out the orders of the county governing board fails to secure approval of a majority of the voters voting at such election or if the county governing board is unable otherwise to arrange an adjustment or settlement of outstanding bonded indebtedness, it shall be the duty of the county governing board to certify to the commissioners court that the bonded indebtedness of the territories affected by the changes has not been adjusted.

(b) Upon receipt of such certification, it shall be the duty of the commissioners court thereafter annually to levy and cause to be assessed and collected from the taxpayers of the districts as they existed before the

changes were made, the tax necessary to pay the interest, the sinking fund, and the principal of the indebtedness as it matures.

(c) It shall be the duty of each independent school district so affected to cause all funds in its hands, whether sinking funds or otherwise, which have been collected on account of such bonded indebtedness, to be transferred to the county treasurer of the county in which the district is situated, and the district shall thereafter cease to levy and collect any tax on account of such bonds.

(d) It shall be the duty of the county treasurer to keep all funds transferred by independent school districts affected and all funds collected by the taxation authorized in Subsection (b) of this section in separate accounts and apply the same only to the discharge of the existing bonded indebtedness and the interest thereon, it matures.

§ 19.437. Discretion of County Governing Board

The county school trustees or county boards of education as the case may be, shall not be restricted to the method of adjusting bonded indebtedness set out in the preceding sections of this subchapter, but they shall have full power and authority to make any legal and equitable adjustment and settlement that can be effected to adjust the bonded indebtedness of any district affected by any type of authorized boundary change.

SUBCHAPTER O. ADJUSTMENT OF BONDED INDEBTEDNESS BY DISTRICT TRUSTEES

§ 19.461. Authority of District Trustees

The trustees of any school district, independent, common, or rural high school, as such district exists after consolidation, annexation, subdivision, or any other authorized type of boundary change, are authorized to call an election for any one or all of the following purposes:

(1) To assume any bonded or other debt created by the district as it previously existed or by any district or districts wholly or partially incorporated in the district as constituted after the boundary change.

(2) To levy taxes for the payment of any previously existing debt of the district as it previously existed or by any district or districts wholly or partially incorporated in the district as constituted after the boundary change.

(3) To levy taxes for the further maintenance and operation of the district as constituted after the boundary change by the qualified taxpaying voters of the new district.

§ 19.462. Election

Any election called under the authorization of Section 19.461 of this code shall be held at such time and in such manner and upon such notice as specified in Section 20.04 of this code. A rural high school election shall be held under the rules applicable to independent school districts.

The governing board of each independent school district (including, as to each municipally controlled independent school district, the city council or commission which has jurisdiction thereof), and the governing board of each rural high school district, and the commissioners court of every county, for and on behalf of each common school district under its jurisdiction, shall be authorized to issue negotiable coupon bonds for the construction and equipment of school buildings in the district and the purchase of the necessary sites therefor, and to levy and pledge, and cause to be assessed and collected, annual ad valorem taxes sufficient to pay the principal of and interest on said bonds as the same come due, subject to the provisions and restrictions of Section 20.04 of this code. Such bonds may be issued in various series or issues, and shall mature serially or otherwise not more than 40 years from their date, and shall bear interest at such rate or rates as shall be determined within the discretion of such governing board or commissioners court. Said bonds, and the interest coupons appertaining thereto, shall be negotiable instruments, and they may be made redeemable prior to maturity, and may be issued in such form, denominations, and manner, and under such terms, conditions, and details, and shall be signed and executed, as provided by such governing board or commissioners court in the resolution or order authorizing the issuance of said bonds. All bonds shall be sold to the highest bidder for not less than their par value and accrued interest.

§ 20.02. Maintenance Taxes

The governing board of each independent school district (including, as to each municipally controlled independent school district, the city council or commission which has jurisdiction thereof), and the governing board of each rural high school district, and the commissioners court of every county, for and on behalf of each common school district under its jurisdiction, shall be authorized to levy, and cause to be assessed and collected, annual ad valorem taxes for the further maintenance of public free schools in the district, subject to the provisions and restrictions of Section 20.04 of this code.

§ 20.03. Assessment of Property

In common school districts the value of taxable property shall be assessed on the same basis as that used for state and county purposes; but in all other school districts such value may be assessed on any basis authorized or permitted by any applicable law.

§ 20.04. Bond and Tax Elections

(a) No such bonds shall be issued and none of the aforesaid taxes shall be levied unless authorized by a majority of the resident, qualified, electors of the district, who own taxable property therein and who have duly rendered the same for taxation, voting at an election held for such purpose, at the expense of the district, in accordance with the Texas Election Code, except as hereinafter provided. Each such election shall be called by resolution or order of such governing board or commissioners court, which shall set forth the date of the election, the proposition or

propositions to be submitted and voted on, the polling place or places, and any other matters deemed necessary or advisable by such governing board or commissioners court.

(b) In each proposition submitted to authorize the issuance of bonds there shall be included the question of whether the governing board or commissioners court shall be authorized to levy and pledge, and cause to be assessed and collected, annual ad valorem taxes, on all taxable property in the district, either—

(1) sufficient, without limit as to rate or amount, to pay the principal of and interest on said bonds; or

(2) sufficient to pay the principal of and interest on said bonds, provided that the annual aggregate bond taxes in the district shall never be more than the rate (not to exceed \$1 on the \$100 valuation of taxable property in the district) stated in said proposition.

(c) If bonds are ever voted in a district pursuant to Subsection (b) (1) of this section, then all bonds thereafter proposed shall be submitted pursuant to that subsection, and Subsection (b)(2) of this section shall not be applicable to such district. No bonds shall be issued pursuant to Subsection (b)(1) of this section if the aggregate principal amount of tax bond indebtedness of the district after such issuance would be in excess of 10 percent of the assessed valuation of taxable property in the district according to the then last completed and approved ad valorem tax rolls of the district.

(d) In each proposition submitted to authorize the levy of maintenance taxes there shall be included the question of whether the governing board or commissioners court shall be authorized to levy, and cause to be assessed and collected, annual ad valorem taxes, for the further maintenance of public free schools, of not to exceed the rate (which shall be not more than \$1.50 on the \$100 valuation of taxable property in the district) stated in said proposition.

(e) Notice of each such election shall be given by publishing a substantial copy of the election resolution or order one time, at least 10 days prior to the date set for the election, in a newspaper of general circulation in the district. Such governing board or commissioners court shall canvass the returns and declare the results of such elections.

§ 20.05. Refunding Bonds

Each such governing board or commissioners court shall be authorized to refund or refinance all or any part of any of the district's outstanding bonds and matured but unpaid interest coupons payable from ad valorem taxes by the issuance of negotiable, coupon, refunding bonds payable from ad valorem taxes. Said refunding bonds shall mature serially or otherwise not more than forty years from their date, and shall bear interest at such rate or rates, as shall be determined within the discretion of such governing board or commissioners court. Said refunding bonds may be issued without an election in connection therewith, provided that in no event shall any series or issue of refunding bonds be issued in a principal amount greater than the face or par value of the obligations being refunded thereby, and provided that if a maximum interest rate was voted for the bonds being refunded, the refunding bonds shall not bear interest at a rate higher than such voted maximum rate, and provided further that refunding bonds shall be payable from taxes of the same nature as those pledged to the payment of the obligations being refunded thereby. Said refunding bonds, and the interest coupons appurtenant thereto, shall be negotiable instruments and they may be made redeemable prior

to maturity, and may be issued in such form, denomination, and manner, and under such terms, conditions and details, and shall be signed and executed, as provided by the governing board or the commissioners court in the resolution or order authorizing the issuance of said refunding bonds. The refunding bonds shall be issued and delivered in lieu of, and upon surrender to the comptroller of public accounts of Texas and cancellation of, the obligations being refunded thereby, and the comptroller of public accounts shall register the refunding bonds and deliver the same in accordance with the provisions of the resolution or order authorizing the refunding bonds. Such refunding may be accomplished in one or in several installment deliveries. Said refunding bonds also may be issued and delivered in accordance with the provisions of and procedures authorized by any other applicable law.

§ 20.06. Examination of Bonds by the Attorney General

All bonds issued pursuant to this subchapter, and the appropriate proceedings authorizing their issuance, shall be submitted to the attorney general of Texas for examination. If he finds that such bonds have been authorized in accordance with law he shall approve them, and thereupon they shall be registered by the comptroller of public accounts of the State of Texas; and after such approval and registration such bonds shall be incontestable in any court, or other forum, for any reason, and shall be valid and binding obligations in accordance with their terms for all purposes.

§ 20.07. Bonds are Legal Investments

All bonds issued pursuant to this subchapter shall be legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, small business investment corporations, insurance companies of all kinds and types, fiduciaries, trustees, and guardians, and for all interest and sinking funds and other public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies and bodies politic. § 20.08. Previously Voted Bonds and Taxes

All tax bonds voted in any school district in accordance with law but unissued at the effective date of this code may be issued in the manner provided by the law in effect at the time such bonds were voted, or issued in the manner provided in this subchapter, to the extent pertinent and applicable, without an additional election; and all maintenance taxes heretofore voted in any school district in accordance with law may be levied and collected in the manner provided by the law in effect at the time such bonds were voted, or issued in the manner provided in this subchapter, to the extent pertinent and applicable, without an additional election.

Said bonds may be additionally secured by mortgages and deeds of trust on any real property on which any of said facilities are or will be located, or any real or personal property incident or appurtenant to said facilities, and the board or the commissioners court may authorize the execution and delivery of trust indentures, mortgages, deeds of trust or other forms of encumbrances to evidence same. Said bonds, and any interest coupons appertaining thereto, shall be negotiable instruments (provided that such bonds may be issued registrable as to principal alone or as to both principal and interest), and shall be executed, and may be made redeemable prior to maturity, and may be issued in such form, denominations, and manner, and under such terms, conditions, and details, and may be sold in such manner, at such price, and under such terms, and said bonds shall bear interest at such rates, as shall be determined and provided by the board or commissioners court in the resolution or order authorizing the issuance of said bonds. If so permitted in the bond resolution or order, any required part of the proceeds from the sale of the bonds may be used for paying interest thereon during the period of the construction of any facilities to be provided through the issuance of said bonds, and for the payment of operation and maintenance expenses of said facilities to the extent, and for the period of time, specified in said bond resolution, and also for the creation of reserves for the payment of the principal of and interest on the bonds; and such moneys may be invested, until needed, to the extent, and in the manner provided, in said bond resolution or order.

§ 20.23. Rentals, Rates, and Charges

The board or commissioners court shall be authorized to fix and collect rentals, rates, and charges, from students and others for the occupancy

The board or commissioners court shall be authorized to pledge all or any part of any of its revenues from the aforesaid facilities to the payment of any bonds issued hereunder, including the payment of principal, interest, and any other amounts required or permitted in connection with said bonds. When any of the revenues from said facilities are pledged to the payment of bonds, the rentals, rates and charges for the occupancy or use thereof shall be fixed and collected in such amounts as will be at least sufficient to provide for all payments of principal, interest, and any other amounts required in connection with said bonds, and, to the extent required by the resolution or order authorizing the issuance of said bonds, to provide for the payment of operation, maintenance, and other expenses.

In refunding or otherwise refinancing any such bonds the board or commissioners court may, in the same authorizing proceedings, refund or refinance bonds issued pursuant to this code and bonds issued pursuant to any other such Texas statute and combine all said refunding bonds and any other additional new bonds to be issued pursuant hereto into one or more issues or series of bonds, and may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other type of bonds. All refunding bonds shall be issued and delivered under such terms and conditions as may be set forth in the authorizing proceedings.

§ 20.26. Examination of Bonds by the Attorney General

All bonds issued pursuant to this subchapter, and the appropriate proceedings authorizing their issuance, shall be submitted to the attorney general of Texas for examination. If he finds that such bonds have been authorized in accordance with law he shall approve them, and thereupon they shall be registered by the comptroller of public accounts of Texas; and after such approval and registration such bonds shall be incontestable in any court, or other forum, for any reason, and shall be valid and binding obligations in accordance with their terms for all purposes.

SUBCHAPTER C. MISCELLANEOUS PROVISIONS

§ 20.41. Proceeds; Use for Water, Sewer or Gas Connections

Whenever bonds are hereafter voted and issued by school districts for the statutory purpose of construction and equipment of school buildings in the district and the purchase of the necessary sites therefor, the bond proceeds may be used, among other things, to pay the cost of acquiring, laying, and installing pipes or lines to connect with the water, sewer, or gas lines of an incorporated city or town, including home rule cities, or other municipal corporation, or private utility company (whether or not the water, sewer, or gas lines of such city, town, or other municipal corporation adjoin the school site or sites), so that the school district may afford its public free school buildings of the water, sewer, or gas services offered by such city, town, or other municipal corporation, or private utility company.

§ 20.42. Investment of Bond Proceeds in Obligations of United States; Interest Bearing Secured Time Bank Deposits

From and after the effective date of this code, any school district within the state which has or may have on hand any sums of money which are proceeds received from the issue and sale of bonds of any such school district, either before or after the effective date of this code, which proceeds are not immediately needed for the purposes for which such bonds were issued and sold, may, upon order of the board of trustees of such school district, place the proceeds of such bonds on interest bearing time deposit, secured in the manner provided in Section 23.63 of this code, with a state or national banking corporation within this state, or invest the proceeds of such bonds in bonds of the United States of America or in other obligations of the United States of America, as may be determined by the board of trustees of the school district; but such interest bearing secured time deposits or bonds or other obligations of the United States of America shall be of a type which cannot be cashed, sold or redeemed for an amount less than the sum deposited or invested therein by such school district; and when such sums so placed or so invested by a school district are needed for the purposes for which the bonds of the school district were originally authorized, issued and sold, such time deposits or bonds or other obligations of the United States of America in which such sums have been placed or invested shall be cashed, sold or redeemed and the proceeds thereof shall be used for the purposes for which the bonds of the school district were originally authorized, issued and sold.

§ 20.43. Interest Bearing Time Warrants

(a) Any school district in the State of Texas in need of funds to repair or renovate school buildings; purchase school buildings and school

equipment; to equip school properties with necessary heating, water, sanitation, lunchroom and electric facilities; or is in need of funds with which to employ an individual firm or corporation deemed to have special skill and experience to compile taxation data for use by its board of equalization; and said school district is financially unable out of available funds to make such repairs, renovations of school buildings, purchase school buildings, purchase school equipment, to equip school properties with necessary heating, water, sanitation, lunchroom or electric facilities or is unable to pay such individual or corporation for the performance of the professional duties hereinabove mentioned, may, subject to the provisions hereof, issue interest-bearing time warrants, in amounts sufficient to make such purchase and improvements, to pay all or part of the compensation of such individual, firm or corporation to compile such data, any law to the contrary notwithstanding. Such warrants shall mature in serial installments of not more than five years from their date of issue, and to bear interest at a rate not to exceed six percent per annum. Such warrants shall upon maturity be payable out of any available funds of such school district in the order of their maturity dates. Any such interest-bearing time warrants so issued may be issued and sold by such district for not less than their face value, and the proceeds thereof used to provide funds required for the purpose for which they are issued. Such warrants shall be entitled to first and prior payment out of any available funds of such district as they become due. Included in such purposes is the payment of any amounts owed by said school districts, which indebtedness was incurred in carrying out any of such purposes.

(b) No such interest-bearing time warrants shall be issued or sold by a common school district, rural high school district, or an independent school district of less than 150 scholastics until the same shall have been approved by the county board of school trustees; and said board shall, upon application of such school district, inquire into the financial conditions and needs of such district, and shall not approve the issuance of such interest-bearing time warrants unless in its opinion said district is in need of such repair and renovation of school building, and school equipment and to equip school properties with necessary heating, water, sanitation, lunchroom and electric facilities, and will be able with the resources in prospect to liquidate said warrants at their maturity.

(c) No school district in the State of Texas shall issue such interest-bearing time warrants in excess of one percent of the assessed valuation of the district, for the year in which such interest-bearing time warrants are issued; nor shall the payment of such interest-bearing time warrants in any one year exceed the anticipated surplus income of the district for the year in which the warrants are issued. Based on the budget of the district for said year, such anticipated income to be computed by taking the entire expected income of such school district from every source for the year in which such interest-bearing time warrants are issued, less teachers' salaries, bus aid included in the foundation fund, and that part of the local maintenance tax earmarked for salaries and known in the Gilmer-Aiken Law as the economic index or fund assignment. The anticipated income computation as herein defined shall be exclusive of all bond taxes. No school district shall have outstanding at any one time warrants totaling in excess of \$25,000 under the provisions of this section.

(d) In every instance wherein interest-bearing time warrants or other evidence of indebtedness have been issued by school districts within the State of Texas for any of the purposes herein provided for, the act of the

board of trustees, and/or governing board of such district in issuing such interest-bearing time warrants are each and all hereby expressly validated. (b) The levy, allocation and expenditure of such portion of the maintenance tax as herein provided, may be made after such action has been approved by a majority of the resident, qualified property tax paying voters, who own taxable property within the district which has been duly rendered for taxation, participating in an election called for that purpose. This section shall not affect maintenance taxes levied for the year 1958 and prior years by any school district adopting same.

(c) It is the intent of this section to confer upon school districts to which it is applicable now or hereafter, the right and power to make contracts for the expenditure of maintenance funds for the same purpose as it may issue bonds, without the necessity of issuing bonds and paying the interest on such obligations and this section shall be construed to this end and as not being in conflict with the provisions of any other law regulating the issuance of bonds. The election for the allocation and expenditure of such maintenance tax as provided herein shall be called and held in the manner provided by Section 20.04(a) and (3) ¹ of this code.

(d) The provisions of this statute shall not preclude the use of any tax revenues for the same or different purposes as herein specified to the extent it is now lawful for such revenues to be used.

Any district may, if it is dissatisfied with the transfer, appeal to the county school trustees who shall have the right to annul and cancel the transfer.

§ 21.065. Per Capita Apportionment

(c) If the transfer is to any district other than an independent school district with a scholastic population of 500 or more, the payment shall be made to the county superintendent to be paid by him to the district to which the pupil was transferred.

§ 21.066. Emergency Transfers

(a) Emergency transfers of state apportionment for any child or children of school age may be made only under the provisions of this section.

(b) Emergency transfers may be made only from a county or counties where a public calamity, such as serious floods, prolonged drought, or extraordinary border disturbances, occurring after the taking of the scholastic census, has resulted in such a sudden change in scholastic population as to create a hardship in the support of the public schools.

(c) Emergency transfers may be made only on application of the county or district trustees of the county or district to which the transfer is to be made. The application formally requesting the transfer must be made to the commissioner of education before June 1 of the year in which the conditions warranting the transfer occur. The application must set forth the facts warranting the transfer and show that it may properly be granted under the terms of this section.

(2) the sudden change in scholastic population of the county or district would work a hardship in the support of the public free schools of the county or district in which the increase in population occurs.

(f) All arrangements for emergency transfers must be completed by June 15 of the year following the occurrence of the unusual condition causing the emergency.

Transfers of funds under such conditions shall be regulated by Sections 21.068–21.072 of this code.

§ 21.068. Certification of Eligibility

(a) Not later than 30 days after notification of the entrance of any pupil in a receiving high school, certification of his eligibility for tuition privileges in the high school of the receiving district shall be made to the State Department of Education by the receiving district and by the sending district as provided by this section.

(b) If the sending school district is a common school district or an independent school district under the budget control of the county superintendent, the certificate of eligibility must be signed both by the superintendent or principal of the sending district and by the county superintendent. In that event the county superintendent must file with the State Department of Education, not later than October 1 of each year, a copy of the budget of the sending district and any other information which will enable the State Department of Education to estimate the amount of high school tuition that the sending district will be able to pay, but the amount of the state or county available funds of a sending district which may be used for this purpose shall be limited to the per capita apportionment for each pupil actually transferred.

(c) If the sending school district is an independent school district not under the budgetary control of a county superintendent, the superintendent of the sending district shall sign the certificate of eligibility and, not later than October 1 of each school year, file with the State Department of Education a copy of the budget of his district and any other information which will enable the State Department of Education to estimate the

amount of high school tuition that the district will be able to pay, but the amount of the state or county available funds of the sending district which may be used for this purpose shall be limited to the per capita apportionment for each pupil actually transferred.

(d) The signing of the certificate by the sending district shall obligate the district and the state to pay to the receiving school district the amount of high school tuition due it as determined under the rules of the State Department of Education.

§ 21.069. Report

At the close of each semester, each receiving high school district shall make to the State Department of Education and to the budgetary authority of the sending school district or districts a report showing:

(b) Each sending district indebted to a high school district for tuition shall issue a warrant to the receiving high school district, not later than June 15 of each fiscal year, for all of its surplus maintenance funds, or as much thereof as may be necessary to pay the entire tuition account of the sending district to the receiving district. County equalization funds may be used to defray in whole or in part rural high school tuition fees.

(c) Not later than July 1 of each year, each receiving high school district shall certify to the State Department of Education the amount received by it as tuition from each sending district. The amount paid by the sending district shall be deducted from the second semiannual payment made by the state to the receiving school. If any high school district should receive from the State Department of Education an amount in excess of the total tuition charged by the receiving district, the district shall return all excess payment to the State Department of Education to be deposited with the state treasurer to the credit of the fund from which it came.

(d) The commissioner of education shall withhold any and all funds due any district that refuses or fails to execute forms required by the State Department of Education for pupils eligible to have their high school tuition paid by the home district and the state.

§ 21.071. Per Capita Apportionment Payments

The state per capita available fund for each pupil transferred for high school purposes under Section 21.067 of this code and enrolled in the school to which he has been transferred, shall be distributed to the districts to which such pupils have been transferred as the apportionment is paid by the state. If any district fails to pay any per capita apportionment, as above provided, the commissioner of education, upon notification of such failure by affidavit of the receiving district, shall investigate the

accounts and, if he finds that the obligation is in fact due, shall withhold from the home district of the transferred pupil or pupils such an amount as the district may owe to any other district until the obligation has been paid.

§ 21.072. Limitation

The obligation of the state to pay high school tuition for pupils transferred under Section 21.067 of this code shall be limited to a maximum of \$7.50 per month per pupil.

§ 21.073. Transfer to District of Bordering State

(a) Any child who would be entitled to attend the public school of any district situated on the border of Louisiana, Arkansas, Oklahoma, or New Mexico and who may find it more convenient to attend the public school in a district in one of those contiguous states may have the state and county per capita apportionment of the available school funds paid to the school district of the contiguous state and may have additional tuition, if necessary, paid by the district of his residence on such terms as may be agreed upon by the trustees of the receiving district and the trustees of the residence district.

(b) Such arrangements must be approved by the county superintendent and the county school trustees of the Texas county of residence.

(c) The restrictions of Sections 21.068-21.072 of this code with regard to the payment of high school tuition shall not apply to transfers to contiguous state high schools.

(g) In the event exception is filed on the ground that the decision of the board constitutes a denial of a right of the pupil guaranteed under the constitution of the United States and the board does not within 15 days reconsider its final action, an appeal may be taken from the final action of the board, on that ground alone, to the district court of the county in which the board is located, in which event:

(1) the petition must be filed within 30 days from the date of the board's final decision;

All such contracts shall be in writing, in such form as may be promulgated by or approved by the commissioner of education, and shall embody the terms and conditions of employment hereinafter set forth, and such other provisions not inconsistent with this subchapter as may be appropriate.

The board of trustees of any school district may terminate the employment of any teacher holding a probationary contract at the end of the contract period, if in their judgment the best interests of the school district will be served thereby; provided, that notice of intention to terminate the employment shall be given by the board of trustees to the teacher on or before April 1, preceding the end of the employment term fixed in the contract. In event of failure to give such notice of intention to terminate within the time above specified, the board of trustees shall thereby elect to employ such probationary teacher in the same capacity, and under probationary contract status for the succeeding school year if the teacher has been employed by such district for less than three successive school years, or in a continuing contract position if such teacher has been employed during three consecutive school years.

§ 21.206 Continuing Contract

Any teacher employed by a school district who is performing his third, or where permitted fourth, consecutive year of service with the district under probationary contract, and who is elected to employment by the board of trustees of such district for the succeeding year, shall be notified in writing of his election to continuing contract status with such district, and such teacher shall within 30 days after such notification file with the board of trustees of the employing school district notification in writing of his acceptance of the continuing contract, beginning with the school year following the conclusion of his period of probationary contract employment. § 21.209. Discharge for Cause

Any teacher, whether employed under a probationary contract or a continuing contract, may be discharged during the school year for one or more of the following reasons, which shall constitute lawful cause for discharge:

- (5) physical or mental incapacity preventing performance of the contract of employment; and

§ 21.210. Release at End of Year

Any teacher employed under a continuing contract may be released at the end of any school year and his employment with the school district terminated at that time, or he may be returned to probationary contract employment for not exceeding the three succeeding school years, upon notice and hearing (if requested) as hereinafter provided, for any reason enumerated in Section 21.209 of this code or for any of the following additional reasons:

- (1) inefficiency or incompetency in performance of duties;
- (2) failure to comply with such reasonable requirements as the board of trustees of the employing school district may prescribe for achieving professional improvement and growth;
- (3) willful failure to pay debts;

- (6) necessary reduction of personnel by the school district (such reductions shall be made in the reverse order of seniority in the specific teaching fields); or
- (7) for good cause as determined by the local school board, good cause being the failure of a teacher to meet the accepted standards of conduct for the profession as generally recognized and applied in similarly situated school districts throughout Texas.

§ 21.211. Notice

(a) Before any teacher shall be discharged during the year for any of the causes mentioned in Section 21.209 of this code, or before any probationary contract teacher shall be dismissed at the end of a school year before the end of the term fixed in his contract, or before any teacher holding a continuing contract shall be dismissed or returned to probationary contract status at the end of a school year for any of the reasons mentioned in Section 21.210 of this code, he shall be notified in writing by the board of trustees or under its direction of the proposed action and of the grounds assigned therefor.

(b) In the event the grounds for the proposed action relate to the inability or failure of the teacher to perform his assigned duties, the action shall be based upon the written recommendation by the superintendent of schools, filed with the board of trustees. Any teacher so discharged or dismissed or returned to probationary contract status shall be entitled, as

a matter of right, to a copy of each and every evaluation report, or any other memorandum in writing which has been made touching or concerning the fitness or conduct of such teacher, by requesting in writing a copy of the same.

§ 21.212. Hearing

(a) If, upon written notification of the proposed action, the teacher desires to contest the same, he shall notify the board of trustees in writing within 10 days after the date of receipt by him of the official notice above prescribed, of his desire to be heard, and he shall be given a public hearing if he wishes or if the board of trustees determines that a public hearing is necessary in the public interest.

(b) Upon any charges based upon grounds of inefficiency, or inability or failure of the teacher to perform his assigned duties, the board of trustees may in its discretion establish a committee of classroom teachers and administrators, and the teacher may request a hearing before this committee prior to hearing of the matter by the board of trustees.

(c) Within 10 days after request for hearing made by the teacher, the board of trustees shall fix a time and place of hearing, which shall be held before the proposed action shall be effective. Such hearing shall be public unless the teacher requests in writing that it be private.

(d) At such hearing, the teacher may employ counsel, if desired, and shall have the right to hear the evidence upon which the charges are based, to cross-examine all adverse witnesses, and to present evidence in opposition thereto, or in extenuation.

§ 21.213. Suspension Without Pay

If the proposed action be discharged of the teacher for any of the reasons set forth in Section 21.209 of this code, the teacher may be suspended without pay by order of the board of trustees, or by the superintendent of schools if such power has been delegated to him by express regulation previously adopted by the board of trustees, but in such event the hearing shall not be delayed for more than 15 days after request for hearing, unless by written consent of the teacher.

§ 21.214. Decision of Board

If the teacher upon notification of any such proposed action fails to request a hearing within 10 days thereafter, or after a hearing as hereinabove provided, the board of trustees shall take such action and shall enter such order as it deems lawful and appropriate. If the teacher is reinstated, he shall immediately be paid any compensation withheld during any period of suspension without pay. No order adverse to the teacher shall be entered except upon majority vote of the full membership of the board of trustees.

§ 21.215. Appeals

(a) If the board of trustees shall order the teacher discharged during the school year under Section 21.209 of this code, the teacher shall have the right to appeal such action to the commissioner of education, for review by him, provided notice of such appeal is filed with the board of trustees and a copy thereof mailed to the commissioner within 15 days after written notice of the action taken by the board of trustees shall be given to the teacher; or, the teacher may challenge the legality of such

action by suit brought in the district court of any county in which such school district lies within 30 days after such notice of the action taken by the board of trustees has been given to the teacher.

(b) If the board of trustees shall order the continuing contract status of any teacher holding such a contract abrogated at the end of any school year and such teacher returned to probationary contract status, or if the board of trustees shall order that any teacher holding a continuing contract be dismissed at the end of the school year, or that any teacher holding a probationary contract shall be dismissed at the end of a school year before the end of the employment period covered by such probationary contract, the teacher affected by such order, after filing notice of appeal with the board of trustees, may appeal to the commissioner of education by mailing a copy of the notice of appeal to the commissioner within 15 days after written notice of the action taken by the board of trustees has been given to the teacher.

(c) Either party to an appeal to the commissioner shall have the right to appeal from his decision to the State Board of Education, according to the procedures prescribed by the State Board of Education. The decision of the State Board of Education shall be final on all questions of fact, but shall be subject to appeal to the district court of any county in which such school district or portion thereof lies, if the decision of the State Board:

- (1) is not supported in the record by substantial evidence;
- (2) is arbitrary or capricious; or
- (3) is in error in the application of existing law to the facts of the case.

(d) Trial procedure in the district court shall be the same as that accorded other civil cases on the docket of said court, with the decision of the trial court to be subject to the same rights of appeal under the Texas Rules of Civil Procedure as is accorded other civil cases so tried.

§ 21.216. Resignations

(a) Any teacher holding a continuing contract with any school district, or holding a probationary contract with an unexpired term continuing through the ensuing school year, may relinquish the position and leave the employment of the district at the end of any school year without penalty by written resignation addressed to and filed with the board of trustees prior to August 1, preceding the end of the school year that the resignation is to be effective. A written resignation mailed by prepaid certified or registered mail to the superintendent of schools of the district at the post office address of the district shall be considered filed at time of mailing.

(b) Any teacher holding a continuing contract or such unfulfilled probationary contract may resign, with the consent of the board of trustees of the employing school district at any other time mutually agreeable.

(c) A teacher holding a probationary contract or a continuing contract obligating the employing district to employ such person for the ensuing school year, who fails to resign within the time and in the manner allowed under Subsections (a) and (b) of this section, and who fails to perform such contract, shall be ineligible for employment by any other Texas school district during the ensuing school year covered by such contract, and his teaching certificate shall be suspended for that school year only.

(b) The register shall be open to the inspection of all parents, school officers, and all other persons who may be interested.

(c) Each teacher shall make a monthly report following the directives of either the county superintendent or the commissioner of education. The monthly reports must be approved by a majority of the board of trustees of the district and must be filed by the board of trustees with the county superintendent at the time vouchers for teachers' salaries are presented.

(d) Each teacher shall, at the end of the school term, make such reports as may be prescribed by the commissioner of education. Until such reports are made, the trustees shall not approve a voucher for the last month of the teacher's salary, nor shall the county treasurer pay the same.

§ 21.253. Registration Card

All teachers, librarians, school presidents, superintendents, principals, or other school officers employed by all schools supported wholly or partly by the state, shall fill out and send to the State Department of Education, before the expiration of the first school month of each annual session, a registration card, supplied by the State Department of Education, which card shall furnish blanks for useful statistical information; and the teachers, librarians, school presidents, superintendents, and principals shall not be paid the salary for the first month's services, except on the presentation of a receipt certifying that the registration card has been received by the State Department of Education.

§ 21.254. Withholding of Salary

The monthly salary of any county judge acting as ex-officio county superintendent of public schools, or any county, district, city or town superintendent, or principal or any teacher or librarian in any school supported wholly or partly by the state, or any assessor, county treasurer, treasurer in county school depository or treasurer of any school district depository, shall be withheld by the officials or authorities paying the said

salary, on notification by the commissioner of education that the county judge, acting as ex-officio county superintendent of public schools, or the county, district, city, or town superintendent or principal, teacher, librarian, assessor, county treasurer, treasurer of county school depository or treasurer of school district depository has refused or failed to make the reports required of him; provided, that this notification shall not be sent by the commissioner of education until at least two written requests have been made for the desired information and until 30 days have elapsed from the time of the first request without the receipt of the information required; in such case the aforesaid monthly salary shall be withheld until a notice is received from the commissioner of education, certifying that the information requested has been furnished by the delinquent person.

§ 21.255. Financial Reports to Commissioners or Department of Education; Forms

(a) All financial reports made by or for school districts, either independent or common, or by their officers, agents or employees, to the commissioner or to the Department of Education, shall be made on forms prescribed or approved by the state auditor.

(b) It shall be the duty of the state auditor to combine as many forms as possible to the end that multiplicity of reports is avoided. Such forms shall call for all information required by law or the commissioner, as well as such information as is deemed necessary by the state auditor.

(c) The provisions of this section shall take precedence over any other law of this state in conflict herewith.

SUBCHAPTER I. DISCIPLINE, LAW AND ORDER

§ 21.301. Suspension of Incurable Pupil

§ 21.303. Parole

(a)¹ The judge of the juvenile court shall have the power to parole any child found by him to be guilty of the charges brought by the school attendance officer and to require the parent or the person standing in parently² relation to the child to execute a bond in a sum not less than \$10, conditioned that the child shall attend school regularly and comply with all the rules and regulations of the school.

(d) On finding a child guilty of violation of a first parole, the judge may again parole the child, requiring such bond as he may deem prudent and requiring the child again to enter school. On finding a child guilty of violation of a second parole, the judge shall commit the child to a suitable training school as determined by the judge of the juvenile court and the parent of the child convicted.

§ 21.305. Maintenance of Law and Order

(a) In order to maintain law, peace, and order in the operation of the public schools, the board of trustees of any school district may, when in the opinion of the governing board such action is necessary, exercise the powers described in this section.

(b) To prevent violence and to maintain peace and order, the board may call upon the governor for assistance through the Department of Public Safety, but neither the Texas National Guard nor other military force shall be used for the direction or control of the operation of or attendance at such schools.

(c) The board may close the school or schools and suspend operation for such period as the board finds it necessary to maintain order and public peace if:

(1) the governor by written proclamation finds that violence or the danger thereof cannot be prevented except by resort to military force or occupation of a public school;

(2) the board of trustees finds that violence or the danger thereof cannot be prevented except by resort to military force or occupation of a public school; or

(3) the National Guard or any other military troops or personnel are employed or used upon order of any federal authority on public school property or in the vicinity of any public school for direction or control of the order, operation, or attendance at such school.

(d) The board, upon finding that violence or the danger thereof cannot be prevented except by resort to military force or occupation of the public schools, may certify such fact to the governor, in which event it shall be the duty of the governor to close the school and suspend its operation until such time as the school board shall certify to the governor that such closure is no longer necessary in the maintenance of order and public peace. Upon certification that closure is no longer necessary, the governor must cancel and annul the closure and issue a proclamation to that effect.

§ 21.306. Effect of Closing Schools

(a) If a school is closed under authority of Section 21.305 of this code, the provisions of this section are applicable.

(f) The local board, in cooperation with the State Board of Education, shall use all personnel, funds, and facilities necessary and available to provide out-of-classroom instruction for the pupils concerned and to facilitate the reopening of the school at the earliest possible time that peace and order can be maintained without the use or occupation of military forces.

1. So in enrolled bill.

§ 21.307. Assistance of Attorney General

In order to help prevent situations which might result in the occupation of public schools by military forces or the closure thereof, the Attorney General of Texas is authorized to assist any public school board which requests his assistance in the defense of any law suit in a federal court which seeks to challenge the constitutionality of a statute of this State. This section shall not apply, however, in the event of a controversy between a public school board and an agency of the state which, under existing law, the Attorney General is authorized or required to represent.

§ 21.351. Contract With County

In compliance with the terms of this subchapter, any school district having boundaries embracing the entire area of a county having a valuation in excess of \$30 million may enter into contracts with the county and with its board of library trustees to provide joint library facilities.

(b) The commissioners court of the county shall appoint a board of library trustees consisting of five members who are residents of the county.

(c) The board of library trustees shall organize by appointing a chairman, a secretary, and a treasurer.

(e) The school trustees and the members of the commissioners court, at a joint meeting called for that purpose, shall consider the petition and agreement. § 21.353. Contract Provisions

§ 21.354. Construction of Library

(a) The public library building, authorized by the above-described contract, shall be constructed according to the provisions of this Section.

(b) After the execution of the joint contracts and the receipt of conveyance of the tract of land, the board of library trustees, by a majority vote at a meeting called for that purpose, may employ an architect to prepare plans for the construction of a combined library building and assembly hall.

(c) After the approval of the plans by both the board of trustees of the school district and the commissioners court, the board of library trustees may enter into all necessary contracts for the construction of the building and the equipment thereof. The board of library trustees is authorized to mortgage or encumber the building to secure the financing thereof, but the indebtedness so created must be repaid out of revenue funds produced from the rental of the assembly hall or from private contributions and shall never become a debt against the county of the school district. No taxes shall be levied therefor.

§ 21.355. Management of Library

The term "municipal school district" includes any independent school district existing under the authority of Article VII, Section 3, or Article XI, Section 10, of the Texas Constitution, which is municipally assumed or controlled; regardless of whether the same is a city or town school district, where the boundaries of the district and the city or town are coterminous, or whether it is an extended independent school district, where the city or town has extended its limits for school purposes only.

§ 24.02. Classification

Municipal school districts, regardless of the manner in which they came into existence and regardless of whether or not the boundaries have been extended for school purposes only, are classified as independent school districts. Except as specifically provided otherwise in this chapter, municipal school districts shall be governed and shall function in compliance with the general law relative to independent school districts as provided in Chapter 23 of this code.¹

1. Section 23.01 et seq.

(c) Any municipal school district in which the trustees are appointed by the city council or board of aldermen, as provided in Subsection (b) of this section, may discontinue that method of selection and provide for the election of school trustees by the following procedure:

(1) A petition signed by 25 percent of the voters of the city or town, the number to be ascertained by the ballots cast at the last regular city election, requesting an election to determine whether or not the school affairs of the city or town shall be directed by an elected school board shall be presented to the mayor;

(2) On receipt of such a petition, the mayor shall order an election to be held on the proposition;

§ 24.05. General Powers of Trustees

(a) The board of trustees of a municipal school district shall have the general powers and duties prescribed in this section.

(b) The board shall have the exclusive control and management of the schools of the district.

(d) The board shall constitute a body corporate and shall have full power to protect the title, possession, and use of all school property within the limits of the municipal school district, and may bring and maintain suits in law or in equity in any court of competent jurisdiction when necessary to recover the title or possession of any school property adversely held in the district.

(e) Except where specific provision is made with regard to the conducting of the affairs of a municipal school district, the board of trustees of a municipal school district may exercise any power specifically granted or reasonably implied to the board of trustees of an independent school district.

§ 24.06. Maintenance Tax

¹ The governing body of any city or town constituting a municipal school districts shall upon presentation of a proper petition, signed by 50 or a majority of those entitled to vote at such elections, order such election to determine the proposition of the levy of a maintenance tax and/or the issuance of bonds for purposes of its schools. The provision of the laws applicable to other independent school districts relative to and governing maintenance tax and bonds and the holding of elections therefor shall apply, except as provided by this section.

(b) If the vote of the taxpayers is in favor of the tax, then the governing body of the city annually thereafter shall levy and assess on the taxable property in the limits of the municipal school district, by ordinance duly passed and approved, the school tax, not to exceed the rate voted, for the support and maintenance of the public schools and where bonds are voted, for the erection and equipment of public school buildings, in accordance with the requisition furnished.

(c) The board of trustees of the municipal school district shall determine what amount of the tax, in the limit authorized by law and voted by the people or fixed by special charter, will be necessary for the support of the schools and for the erection and equipment of public school buildings for each fiscal year, and the governing body of the city, on requisi-

tion of the board of trustees, annually shall levy and collect the tax, as other taxes are levied and collected.

(d) The school taxes, when collected, shall be placed at the disposal of the school board, and paid monthly to the depository to the account of the board the amount so collected, to be used for maintenance and support of the public school in the municipal district.

(1) "Handicapped person" means a physically handicapped person or a mentally retarded person, not including blind, whose educational or vocational opportunities are limited as the result of physical or mental limitations.

(2) "Physically handicapped person" means any person six years of age or over, of reasonably normal educable mentality, whose body functions or members are so impaired that they cannot be safely or adequately educated or trained for gainful employment in regular classes of normal persons or without special training and special services not usually available in public schools or without training cannot enjoy independent living.

(3) "Mentally retarded person" means any person six years of age or older, who, because of retarded intellectual development, cannot be educated safely and adequately in the public schools with normal children or in readily accessible training institutions in the home environs of such person, but who may be expected to benefit from special education or training facilities designed to make him economically useful and socially adjusted.

(4) "District" (unless otherwise indicated by the context) means any rehabilitation district as described in this chapter.

(5) "Trainee" means any handicapped person who is or has been enrolled in a district.

(6) "Board of directors" means the board of directors of any district.

(7) "Independent living" shall mean any degree of improvement achieved by a handicapped person whether by freedom from institutional or attendental care or reduction of such care.

[Sections 26.02-26.10 reserved for expansion]

SUBCHAPTER B. CREATION OF DISTRICT**§ 26.11. Purpose**

Rehabilitation districts may be created to provide education, training, special services, and guidance to handicapped persons peculiar to their condition and needs, to develop their full capacity for usefulness to themselves and society, and to prevent them from becoming or remaining, in whole or in part, dependent on public or private charity.

§ 26.12. Creation of District

A rehabilitation district may be established by voters of a county, or a combination of contiguous counties, containing taxable property, the total assessed valuation of which must be not less than \$200,000,000, according to the most recent tax rolls of the county or combination of counties making up the proposed district, as described in this subchapter.

§ 26.13. Petition

A petition signed by a number of qualified property taxpaying voters in each county in the proposed rehabilitation district equal to not less than one percent of the total number of votes cast for governor in such county at the most recent election for governor held therein, must be filed with the commissioners courts of the respective counties. The signatures on the petition must be separated according to the counties in which the signers reside, under appropriate headings indicating the county of residence. If there is more than one county in the proposed district, the petition must be in two or more parts, one part for each county to be included in the district. The name of the proposed district must be set forth in the petition, and must include the words, "Rehabilitation District for Handicapped Persons." The petition must be dated, and must pray for an election, to be held not less than 30 nor more than 60 days after the date of the petition, to determine whether or not there shall be created a rehabilitation district for handicapped persons, with power to levy taxes to acquire or construct residence centers and such other facilities, if any, as the board of directors may deem necessary or proper for the training and guidance of handicapped trainees and to maintain and operate said district.

§ 26.14. Election

Promptly on receipt of a petition, each commissioners court must order an election to be held in his county on the date prayed for in the petition. The order must designate polling places, appoint election officers, provide supplies for the election, and set forth the name of the proposed rehabilitation district as specified in the petition. The election precincts must conform to the regular election precincts of each county. Each commissioners court must cause notice of election to be published once each week for two alternate weeks in one or more newspapers having general circulation in its county, the first publication to be at least 21 days before the election, and must cause notice to be posted in a public place in each commissioners precinct, and at the courthouse door of its county. If a regular session of a commissioners court receiving a petition is not to be held in time to order the election and give notice of it, the county judge of that county must, upon the petition being called to his attention, timely call a special session of the commissioners court for this purpose. Except as herein provided, the election in each county shall be conducted in accordance with the general laws of Texas.

§ 26.15. Proposition to be Voted Upon

The proposition shall be submitted at the election in each county, and the ballots shall be printed to provide for voting for or against the proposition:

"The creation of the rehabilitation district for handicapped persons, with power to levy taxes for residence centers and such other facilities, if any, as the board of directors may deem necessary or proper for the training and guidance of such persons and for maintenance and operation of said district."

§ 26.16. Voters

Only qualified voters who reside and own taxable property in the county in which they offer to vote and who have duly rendered their property for taxation are eligible to vote.

§ 26.17. Results of Election

(a) Within 10 days after the election, each commissioners court must make a canvass of the returns and declare the results of the election. If a majority of those voting in the election in each county vote for the proposition, the establishment of a rehabilitation district is thereby effected. If the proposition fails to carry in any county, the formation of the rehabilitation district in counties in which it passed is not affected, unless the counties in which it passed are not contiguous, or do not have a total assessed valuation of property of \$200,000,000, according to their most recent tax rolls, in which case no rehabilitation district can be established.

(b) If the election does not create a rehabilitation district, no subsequent election for the creation of a rehabilitation district may be had in the affected counties within one year of the date of the election.

§ 26.18. Annexation of New Counties

(a) Any county or combination of counties, contiguous to an existing rehabilitation district may be annexed to it and become a part of it by following the procedures in and meeting the requirements of Subsections (a), (b), and (d) of this section, with the exceptions as described in this section.

(b) The petition in Section 26.13 of this chapter must be signed by a number of qualified property taxpaying voters in each county in which annexation is desired equal to one percent of the number of votes cast for governor in such county at the most recent general election for governor held therein. The petition must contain the name of the district to which annexation is desired, and must pray for an election to determine whether or not the county shall be annexed to the rehabilitation district.

(c) The proposition shall be voted upon in an election held under this section, and the ballots shall be printed to provide for voting for or against the proposition:

“Annexation to (here insert the name of the rehabilitation district).”

(d) The commissioners court election order in Section 26.14 of this chapter, must set forth the name of the rehabilitation district to which annexation is proposed.

(e) Within 10 days after the election, the commissioners court of each county in which there was an election, must canvass the returns and declare the results of the election in that county, and shall forthwith certify the results of such election to the board of directors of such existing district. In each county, if any, in which a majority of those voting at the election vote for the proposition, the annexation of such county to said rehabilitation district shall be thereby effected.

Section 28.01 Creation of Countywide Vocational School Districts

This chapter is applicable to every county of this state. § 28.02. Taxing Power of School Districts; Election

There shall be exercised in and for the entire territory of each of such counties to the extent prescribed in this chapter, the taxing power conferred on school districts by Article VII, Section 3 of the Texas Constitution. Such taxing authority shall not be exercised until and unless authorized by the qualified property taxpaying voters residing therein at an election to be held for that purpose as hereinafter provided.

§ 28.03. Election: Petition; Order; Notice; Ballots; Conduct; Expenses

(a) Whenever a petition is presented to the county judge of any such county, signed by at least 100 qualified property taxpaying voters resid-

ing therein, asking for an election to be ordered for the purpose of determining whether or not a countywide vocational school tax shall be levied, assessed, and collected on taxable property within that county for the support of area vocational school program(s) so designated by the Texas Central Education Agency pursuant to a state plan for vocational education, and operated by local school district(s) in that county, not exceeding 20 cents on the \$100 of assessed valuation of taxable property, it shall be the duty of the county judge immediately to order an election to be held throughout the county to determine said question. The finding of the county judge that such petition is sufficient and signed by the number of taxpaying voters required by this law shall be conclusive.

(b) The county judge shall give notice of the election by publication of the election order in a newspaper of general circulation in said county once a week for at least two weeks, the date of the first publication to be not less than 20 days, prior to the date fixed for holding said election. (c) The ballots for such election shall be printed to provide for voting for or against:

“Countywide vocational school tax.”

(d) Except as otherwise provided in this chapter, the manner of holding the election shall be controlled by the general laws of the state, and only legally qualified property taxpaying voters residing in the county who own taxable property in such county and who have duly rendered the same for taxation shall be qualified to vote at such election. If a majority of the votes cast shall favor such tax, the court shall declare the results which shall be recorded in the minutes of the commissioners court, and certify same to the county tax assessor-collector. The commissioners court shall be authorized to levy said tax and the county tax assessor-collector shall be authorized to assess and collect the same.

§ 28.05. Annual Levy and Collection of Tax; Deposit of Funds

(a) It shall be the duty of the commissioners court, after such tax shall have been voted, at the time other taxes are levied in the county, annually to levy a tax under this law of not to exceed 20 cents on the \$100 valuation in the county at the same rate of valuation as is assessed for state and county purposes. Such taxes shall be assessed by the tax assessor and collected by the tax collector as other taxes are assessed and collected.

(b) The county tax assessor-collector shall deposit the money as collected from said tax to a separate fund in the county depository to be known as the county vocational school district fund, to be allocated and distributed for the support of area vocational school programs operated by designated school district or districts in the county. He shall have the same authority and the same laws shall apply as in the collection of other county ad valorem tax.

§ 28.06. Duties of Commissioners Court

§ 28.08. Monthly Settlements With Eligible Independent School Districts

The tax collector of the county shall make monthly settlements of taxes collected with the independent school districts eligible therefor and situated in such county. Money shall be received and held by the independent school districts and protected in accordance with the existing depository laws. The tax collector shall place to the credit of the common or other school districts using the county depository such money as is apportioned to them.

§ 28.09. Alteration or Enlargement of Duties and Powers of Commissioners Court

Until and unless a countywide vocational school tax has been authorized by an election held in such county, the duties and powers of the commissioners court shall not be considered as having been changed, altered, or enlarged by this chapter.

§ 28.10. Eligibility to Attend School District Operating Vocational School Program; Tuition Average Daily Attendance

(a) Irrespective of whether a countywide school district tax has been voted: Any resident of the countywide vocational school district who shall have attained the age of 14 years prior to September 1 shall be considered eligible to attend a school district in his county designated as operating an area vocational school program, provided he is accepted by such district as qualifying under its entrance requirements.

(b) No tuition shall be charged any such eligible resident of the county enrolled in the area vocational school program, if the county has voted and collects a countywide tax to support such program.

(c) Any pupil under 21 years of age on September 1 and who has not completed the 12th grade shall be eligible to be counted in average daily attendance (ADA) for foundation school program purposes by the designated area school district in accordance with policies of the Central Education Agency. (f) The county school board or commissioners court shall cause a certified copy of the order to be transmitted to the governing board of the junior college district.

(g) At the next regular or special meeting of the governing board of the junior college district, the board shall, in the event of annexation by election, enter its order concurring in the order of the county school board or the commissioners court and shall enter an order redefining the boundary lines of the junior college district as enlarged and extended, and shall cause the order to be recorded on the minutes of the board of the junior college district.

§ 51.066. Annexation of County-Line Districts for Junior College Purposes

(a) Parts of county-line school districts may be annexed to adjacent county or joint-county junior college districts for junior college purposes only, as provided in this section.

(b) The county or joint-county junior college district as originally created and organized must have included in its boundaries a part of a county-line school district, and the part of the county-line school district to be annexed is not included in any other junior college district.

(c) The county or joint-county junior college districts to which this section is applicable are those where the junior college district as originally created and organized had the same boundaries as a county or as a group of contiguous counties and included all of the territory in a county or group of counties and did not include a part of any county without including the entire territory of such county in such junior college district.

(d) A "county-line school district" as used in this section is any type of public school district created or organized under general or special laws of Texas, which includes within its boundaries territory that extends into or is located in two or more counties of Texas.

§ 51.067. Annexation of Non-Included Parts of Counties

(a) The non-included portion or portions of such county-line districts may be annexed to the county or joint-county junior college district by either of two methods as provided by Subsections (b) and (c) of this section.

(b) On the petition of 20 or a majority of the legally qualified voters residing in that part of a county-line district not a part of a junior college district as described in Section 51.066 of this code praying for the annexation for junior college purposes only, of that part of the county-line school district to the junior college district in which the remainder of the county-line district is a part, the county judge of that county which has jurisdiction of the county-line school district shall issue an order for an election to be held in the non-included portion of the county-line school district praying to be annexed to the county or joint-county junior college district. The county judge shall give notice of the date of the election by posting notices at three public places in the part of the county-line school district wherein the election is to be held. Only those legally qualified voters residing in that part of the county-line school district shall be permitted to vote. The commissioners court shall at its next meeting canvass the returns of the election, and if the votes cast in the election show a majority in favor of annexation, then the court shall declare that part of the county-line school district annexed to the junior college district for junior college purposes only. The court shall cause certified copies of the order to be transmitted to the commissioners court of every county in which the junior college district and the county-line school district have territory, and each court shall make orders concur-

ring in the order and shall cause them to be entered on the minutes of each commissioners court.

(c) Where a petition, signed by a majority of the legally qualified voters residing in that part of a county-line school district praying for annexation for junior college purposes only, of that part of the county-line school district to the junior college district in which the remainder of the county-line district is a part, is presented to the county judge of that county which has jurisdiction of the county-line school district together with a certified copy of an order by the governing board of the junior college district approving the proposed annexation to the junior college district for junior college purposes only; instead of ordering an election to be held as provided in Subsection (b) of this section, the county judge shall certify the filing of the petition and order to the commissioners court. The court at its next meeting shall pass an order declaring such non-included part of the county-line school district annexed to the junior college district for junior college purposes only and cause certified copies of the order to be transmitted to the commissioners court of every county in which the junior college district and the county-line school district have territory. Each such court shall make orders concurring in the order and cause same to be entered on the minutes of each commissioners court.

§ 51.068. Disannexation of Overlapped Territory

(a) All junior college districts whose boundaries have or may hereafter become established so that they include territory which prior to such establishment lay, and shall continue to lie, within the boundaries of another junior college district shall have the power to disannex such overlapped territory.

(b) Upon certification by the governing board of such a junior college district to the county board of school trustees of the county in which its college is located that such an overlapping condition exists, the county board may by resolution disannex the overlapped territory from the district, describing such territory by metes and bounds.

§ 51.071. Governing Board of Junior College of Independent School District

In each junior college district which is controlled and managed by, and under the jurisdiction of, the governing board of an independent school district or a city school district, such governing board shall be constituted and chosen in accordance with the laws of this state applicable to the governing board of such independent school district or city school district.

§ 51.072. Governing Board of Junior College of Other Than Independent School District

(c) The official name of a junior college district shall be the "_____ Junior College District" and the board shall designate an appropriate and locally pertinent descriptive word or words to be filled in the aforesaid blank (and may change such designation when deemed advisable) by resolution or order; provided that no two districts shall have the same or substantially similar names. All resolutions or orders designating or changing names shall be filed immediately with the Coordinating Board, Texas College and University System, and the first name filed shall have priority, and the district shall be advised of any previous filing of any identical or substantially similar name. The name of any junior college district existing on the effective date of this code shall remain the same until and unless it is changed pursuant hereto, and no other district shall use the name of any such existing district.

(d) The number of members or trustees of the governing board shall be either seven or nine, in accordance with the laws applicable to the junior college district on the effective date of this code or on the date of the creation of a new district or a new board. Any seven-member board may be increased to nine, and the two additional members shall be appointed by resolution or order of the board for terms of office as prescribed in Subsection (e) of this section. Any vacancy occurring on the board through death, resignation, or otherwise, shall be filled by appointment by resolution or order of the board, and any person so appointed shall serve until the expiration of the term of office for which the vacating member of the board had been elected or appointed. Each member of the board shall be a resident, qualified voter of the district and shall take the proper oath of office before taking up the duties thereof. Members of a board shall not receive any remuneration or emolument of office, but they shall be entitled to reimbursement for their actual expenses incurred in performing their duties, to the extent authorized and permitted by the board. The board shall elect one of its members as president of the board, and the president shall preside at meetings of said board and perform such other duties and functions as are prescribed by the board. The president of the board shall have a vote the same as the other members. The board shall elect a secretary of the board who may or may not be a member of the board, and who shall be the official custodian of the minutes, books, records, and seal of said board, and who shall perform such other duties and functions as are prescribed by the board. The board shall be authorized to elect any other officers as deemed necessary or advisable. Officers of the board shall be elected at the first regular meeting of the board following the regular election of members of the board in even-numbered years, or at any time thereafter in order to fill a vacancy. Said board shall be authorized to appoint or employ such agents, employees, and officials as deemed necessary or advisable to carry out any power, duty, or function of said board; and to employ a president, dean or other administrative officer, and upon the president's recommendation to employ faculty and other employees of the junior college. Said board shall act and proceed by and through resolutions or orders adopted or passed by the board and the affirmative vote of a majority of all members of the board shall be required to adopt or pass a resolution or order, and the board shall adopt such rules, regulations, and bylaws as it deems advisable, not inconsistent with this section.

(e) The basic term of office of a member of the board shall be six years, and one-third of the members of the board shall be elected at large

in the district at regular elections to be held on the first Saturday in April in each even-numbered year; provided that with a seven member board two members shall be elected in two consecutive even-numbered years and three members shall be elected in the following even-numbered year. The members of each board in office at the effective date of this act, and all subsequent members of the board, shall remain in office until the expiration of the terms for which they were elected or appointed, and until their successors shall have been elected and qualified; provided that where any existing board has held its regular elections for members of the board in odd-numbered years prior to the effective date of this act, the board shall nevertheless hold its next regular election on the first Saturday in April of the next even-numbered year following the effective date of this act, and the term of office of each incumbent member of the board shall, in effect, be lengthened by one year so as to comply with the foregoing provisions of this act. Upon the creation of a new board, or in any other situation where necessary, the members of the board shall choose by lot the terms for which they shall serve, so as to comply with the foregoing provisions. If a board is increased from seven to nine members, one of the members shall be appointed to serve until the first election at which two members otherwise would have been elected, and the other shall be appointed to serve until the second election at which two members otherwise would have been elected, and three members shall be elected for six-year terms at each election.

(f) Members of a board shall be elected at large from each junior college district at regular elections to be called and held by the board for such purpose, at the expense of the district, on the first Saturday in April in each even-numbered year. Said elections shall be held in accordance with the Texas Election Code except as hereinafter provided, and all resident, qualified electors of the district shall be permitted to vote. Each such election shall be called by resolution or order of the board, and notice of each such election shall be given by publishing an appropriate notice, in a newspaper of general circulation in the district, at least 10 days prior to the date of the election, setting forth the date of the election, the polling place or places, the numbers of the positions to be filled, the candidates for each position, and any other matters deemed necessary or advisable.

(g) The board shall designate a number for the position held by each member of the board, from one upward in consecutive numerical order in such manner that the lowest numbers shall be assigned to the members whose terms of office expire in the shortest length of time, provided that any such position number designations on existing boards under existing law at the effective date of this act shall remain in effect. At each election candidates shall be voted upon and be elected separately for each position on the board, and the name of each candidate shall be placed on the official ballot according to the number of the position for which he or she is running. A candidate receiving a majority of the votes cast for all candidates for a position shall be declared elected. If no candidate receives such a majority, then the two candidates receiving the highest number of votes shall run against each other for the position. The run-off election for all positions shall be held on the last Saturday in April and shall be ordered, notice thereof given, and held, as provided herein for regular elections. Any resident, qualified elector of the district may have his or her name placed as a candidate on the official ballot for any position to be filled at each regular election by filing with the secretary of the board a written application therefor signed by the applicant, not

less than 30 nor more than 60 days prior to the date of the election. Such application must state the number of the position for which he or she is a candidate, or the name of the incumbent member of the board holding the position for which he or she desires to run. The location on the ballot of the names of candidates for each position shall be chosen by lot by the board. A candidate shall be eligible to run for only one position at each election.

(h) Notwithstanding anything in this code to the contrary, the provisions of all or any part of the laws of this state in effect immediately prior to the effective date of this act and relating to the name of any junior college district or the name of its governing board, or to the number of members of its governing board, or the procedures and times of electing or choosing said members, shall remain in effect under the following conditions. If, at any time before the effective date of this act (but not thereafter), the governing board of any junior college district shall specify by resolution or order the particular provisions of the aforesaid laws applicable to it which it desires to remain in effect, then such particular provisions shall continue to apply to said board and its district; provided that at any time thereafter the governing board may make this section in its entirety applicable to it and its district by appropriate resolution or order, and thereby permanently cancel the effect of the aforesaid particular provisions of other laws. All resolutions and orders permitted by this section shall be filed immediately with the Coordinating Board, Texas College and University System.

§ 51.073. Powers and Duties

The board of trustees of junior college districts shall be governed in the establishment, management and control of the junior college by the general law governing the establishment, management and control of independent school districts insofar as the general law is applicable.

SUBCHAPTER F. REGIONAL COLLEGE DISTRICTS

§ 51.081. Creation and Regulation of Regional College Districts

(a) A regional college district may be established according to the method outlined herein by a county which contains a public junior college district, or by a combination of counties if one of such counties contains a public junior college district, and if the county seat of said county, or if the proposed regional college district is composed of a combination of counties, the respective county seats of such counties, is located at least 90 miles by the then direct regularly traveled road or highway from the county seat of any county containing a state-supported senior college or university, provided that the assessed property valuation of the proposed regional college district, for state and county purposes according to the most recent tax rolls is at least \$52,000,000 and that the scholastic population of such proposed district is not less than 20,000 scholastics according to the most recent scholastic census thereof, as approved by the appropriate state authority, and provided that the population of such county containing a public junior college district is not less than 80,000 according to the last preceding federal census.

(b) Any college created under the authority of this subchapter shall be subject to all provisions of Chapter 487, Acts of the 54th Legislature,

Regular Session, 1955, as amended by Chapter 488, Acts of the 56th Legislature, 1959, as amended by Chapter 12, Acts of the 59th Legislature, Regular Session, 1965 (codified as Article 2919e—2, Vernon's Texas Civil Statutes), and it is further provided that the Coordinating Board, Texas College and University System, shall determine the date upon which any college of any grade or level created hereunder shall begin courses of instruction, such date to be determined only if a feasibility study by the Coordinating Board, Texas College and University System, shall establish a need for any such college.

§ 51.082. Petition for Election

Whenever it is proposed to establish a regional college district, a petition signed by not fewer than 100 of the qualified property taxpaying voters of said public junior college district and not fewer than 100 of the qualified property taxpaying voters of each of the counties in the territory of such proposed regional college district shall be addressed and presented to the commissioners court of the county or the commissioners courts of the respective counties of such proposed regional college district, praying that an election shall be held upon a stated date in such county or counties which date shall be not less than 30 nor more than 60 days after the date of such petitions for the purpose of determining whether or not such a regional college district shall be formed and such regional college shall be established and whether or not such junior college district shall be merged into said regional college district and whether or not such regional college district shall assume the bonded indebtedness of such junior college district and whether or not such proposed district shall have the power to levy taxes for the payment of such bonded indebtedness and for the maintenance and operation of said regional college and for providing buildings and facilities therefor, all of which questions shall be submitted as parts of one proposition to be printed on the ballots at such election. The signatures for such petition shall be segregated according to the county in which the signers reside and the signatures of the petitioners residing in such public junior college district shall also be segregated, under appropriate headings indicating the county or district of residence. Such petition may be in two or more counterparts according to the number of counties proposed to be included in such regional college district and respective counterparts of said petition may be filed with and presented to the commissioners courts of said respective counties. The name of such proposed regional college district shall be set forth in said petition and shall include therein the words "regional college district."

§ 51.083. Election

It shall be the duty of the said commissioners court or courts of said county or respective counties, promptly after receiving said petition or petitions to order an election to be held throughout their respective county or counties on the date fixed in said petition, and said order shall designate the polling places for said election in said county or counties and appoint officers thereof and provide the supplies therefor and shall set forth the name of such proposed district. The election precincts for said election shall conform as nearly as practicable to the regular election precincts of said county or respective counties, but the election precincts within the boundaries of such public junior college district shall not embrace any territory outside of said public junior college district. Each

such commissioners court shall give notice of said election in its county by causing such notice to be published once each week for two alternate weeks before said election in some newspaper having general circulation in said county, the first publication being at least 21 days before said election. If there be no newspaper published having general circulation in such county, the notice of the election to be held in said county shall be published in some newspaper published outside of said county having general circulation in said county and such notice shall also be posted in a public place in each of the commissioner's precincts of said county, one of which shall be at the courthouse door of said county. If a regular session of any such commissioners court is not to be held in time to order such election and give such notice thereof, it shall be the duty of the county judge of such county, upon petition being called to his attention to timely call a special session of such court for this purpose.

The proposition to be submitted at said election in each county, and to be printed on the ballots therefor, shall be as follows:

"FOR the college merger, assumption of bonded indebtedness thereof, and for the establishment of a regional college and the levying of taxes for the maintenance and operation thereof, and for providing buildings and facilities therefor."

"AGAINST the college merger, assumption of bonded indebtedness thereof, and the establishment of a regional college and the levying of taxes for the maintenance and operation thereof, and providing buildings and facilities therefor."

Only qualified electors who own taxable property in the county in which they offer to vote and who have duly rendered their property for taxation shall be permitted to vote at said election.

Except as otherwise herein provided, such election in each county shall be conducted in accordance with the general election laws of the state.

§ 51.084. Canvass of Returns and Declaration of Result; Effect of Vote

Such commissioners court or courts, as the case may be, shall within 10 days after holding such election, make a canvass of the returns and declare the results of the election. If a majority of those voting at said election within the boundaries of such public junior college district, and a majority of those voting at said election in each of such counties, vote for the proposition submitted, the merger of such public junior college district into and with such regional college district, and the assumption by such regional college district of the bonded indebtedness of such public junior college district shall be deemed to have been effected, and a regional college shall be established in such regional college district, conformably to the further provisions hereof, but the failure of the proposition submitted in any county not containing a public junior college district shall in nowise affect the formation of the proposed regional college district in any other county in which such election is held wherein a majority of the qualified property taxpaying voters voting in such election in such county vote for the proposition submitted in the election order; provided, that a majority of the qualified property taxpaying voters voting in such election in the public junior college district and in the county in which such public junior college district is located, vote for the proposition submitted in the election order. If the regional college district is not created by virtue of such election, another election for such purpose may be held in said proposed regional college district, or portion thereof

containing a public junior college district, not less than one year from the date of such previous election, provided it be initiated by the same procedure above prescribed for the first election.

§ 51.085. Board of Regents

(a) If the merger herein provided for is effected by said election or any subsequent election held for said purposes, under the further provisions hereof, such regional college district shall thereafter be governed by a board of regents, constituted as herein provided. Said board of regents shall be made up in part of one regent at large, from each of the counties approving participation in the regional college district. In addition, there shall be one regent from each county for each 15,000 scholastics of the respective counties or a major fraction thereof, as determined by the proper state authority and provided further in addition there shall be one regent from each county for each \$50,000,000 of assessed property valuation, or major fraction thereof, as determined by the county tax assessor-collector of each approving county of said district. The first regents, constituting said board of regents, from each of such counties, shall be appointed by the commissioners court of said respective counties except as modified herein and shall be made within 30 days after the election at which said merger shall have been effected; however, in the event that only the county containing the junior college votes favorably for the proposed regional senior college district, the board of regents of the junior college district may decide:

(1) whether to activate the regional college district or

(2) whether to continue the present junior college district and in the event that the decision is to activate the regional college district, the present junior college board will continue as the board of regents for the regional college and shall operate under all present and future junior college statutes as pertaining to junior colleges; that is to say, that in the event that more than one county votes to participate in the regional college, the board of regents shall be constituted as follows:

(A) one regent at large from each approving county;

(B) one regent from each approving county for each 15,000 scholastics or major fraction thereof; and

(C) one regent from each approving county for each \$50,000,000 assessed property evaluation or major fraction thereof; and further the first regents, constituting said board of regents, shall be appointed as follows:

(1) from the original junior college district, the board of regents of the junior college district shall appoint the members of the board from that county,

(2) from each of the several counties, the commissioners court shall appoint the members of the board of regents from that county. All appointments shall be made within 30 days from the date of the election. Each and every regent shall take the oath of office as prescribed for junior college board members.

(b) The board of regents thus appointed shall first meet within 21 days of the time the members are appointed at a time and place appointed by the then president of the board of regents of the junior college district and shall proceed to organize by electing from its members a president, a vice president, a secretary and an assistant secretary from members of the board. At the first meeting of said board of regents, the regents from each county shall draw lots for terms of office. The appoint-

ed regents from each county shall elect one of its members to draw for terms and all regents from the county drawing the lowest number shall serve a term of two years; all regents from the county drawing the second lowest number shall serve four years; all regents from the county drawing the third lowest number shall serve six years. In case there are more than three counties, there shall be two lowest lots; then two next lowest lots, etc.; that is to say that no board member shall serve longer than six years and all regents from any one county shall have the same term. If only the county in which the junior college is located forms the senior college district, the terms of office shall remain the same as under the statute under which the junior college district presently operates. The board of regents shall cause a permanent record to be made and preserved of the term of office of each appointed regent determined by lot as herein provided. At the expiration of the terms of office of each regent, a successor shall be elected at elections held within the respective counties at large, at the same time and in the same manner as is now presently prescribed for the existing junior college district, provided that such elections shall be called and conducted in the manner presently prescribed for junior colleges. Costs of such regent election shall be paid for from college funds. The returns of such board elections shall be canvassed and certified by the board of regents as is now presently prescribed for junior colleges. All provisions hereof with reference to elections of regents in counties originally constituting said regional college district shall extend and apply to election of regents in entire counties that may hereafter be annexed to said college district under the further provisions hereof.

§ 51.086. Property, Funds and Resources of Junior College District; Contracts

Upon the merger of said public junior college district into and with the regional college district, all property, funds and resources of the public junior college district are authorized and shall pass to and belong to said regional college district, and all contracts of such public junior college district shall extend to and be binding upon such regional college district; provided that the management and control of the property and affairs of the public junior college district shall continue in the board of trustees of such public junior college district until the appointment and organization of the board of regents of the regional college district, at which time the board of trustees of said public junior college district shall turn over all records, property and affairs of the said public junior college district to the board of regents of said regional college district and shall cease to exist as a junior college board of trustees.

§ 51.087. Assessed Tax Values and Scholastic Census; Number of Regents; Conduct of Election; Vacancies; Organization of Board; Meetings; Office

The amount of assessed tax values of said counties, for the purposes herein provided, shall be determined in the first instance, and from time to time, according to the most recent figures available, by the county tax assessor-collector of each approving county in the district. Such assessed tax values for ascertaining the number of regents at large to which said respective counties are entitled hereunder, to be appointed under the provisions hereof, shall first be made by the county tax-assessor-collector of said county or respective counties. Such determination shall

thereafter be made and certified before each biennial election of regents, by the board of regents. The number of scholastics of each of said counties, for the purposes herein provided, shall be determined in the first instance and from time to time, according to the most recent scholastic census of each of said respective counties, as approved by the state agency then authorized to approve such census. Such scholastic census of said respective counties for ascertaining the number of regents at large to which said respective counties are entitled hereunder, to be appointed under the provisions hereof, shall first be made by the superintendent of schools of the prospective independent school districts located in the respective counties. Such determination shall thereafter be made and certified before each biennial election of regents at large, by the board of regents. All elections herein provided for shall be conducted according to the general election laws of the State of Texas, except as herein otherwise provided. All vacancies occurring in the board of regents shall be filled by appointment by the board of regents. After each election of regents the board of regents shall organize as herein provided. The board of regents shall select and maintain a regular office for their meetings and the transaction of their business, at such place as they determine, and shall hold regular meetings at such times as may be provided in the rules or bylaws of said board of regents, and may hold special meetings at the call of the president of the board.

§ 51.088. Rules of Procedure; Quorum; Seal; Suits

(a) The board of regents may adopt its own rules of procedure, but a majority of said regents shall constitute a quorum, and a majority of those in attendance may transact any business.

(b) The board of regents of such regional college district shall adopt an official seal for the district, and said district may sue and be sued in its name. In any suit against said district, process may be served on the president or vice-president.

§ 51.089. Compensation and Expenses of Board

The board of regents of such regional college district may authorize the payment of a per diem of not to exceed \$10 to each member of such board of regents in attendance at a regular or special meeting of such board of regents. In addition, members of said board of regents may be allowed such actual expenses as may be incurred by them in performing their duties as may be authorized and allowed by the board of regents, provided, that per diem payments may not be made in addition to payments for actual expenses.

§ 51.090. Powers of Board

The said board of regents shall have all the power and duties in respect of the business and affairs of the regional college district as provided by law in respect of the board of trustees of junior college districts, and such other powers as herein provided and as may be hereafter provided by law.

§ 51.091. Annexation of Contiguous County or Independent Districts

(a) The entire area of any county located in Texas, the county seat of which is located at least 90 miles by the then direct regularly traveled road or highway from the county seat of any county containing a state-supported senior college or university, or the area of any one or more in-

dependent school districts of a county in Texas who meets the requirements above, may be annexed to, and assume its pro rata part of the bonded indebtedness of said regional college district, in the manner herein provided. A petition of 100 of the property taxpaying voters of any such county or of any such independent school district, proposing that the entire area of such county, or of such independent school district, as the case may be, be annexed to, and that such county-wide area or such district area assume its pro rata part of the bonded indebtedness of said regional college district, may be submitted to the board of regents of such regional college district. If the said board of regents determines that it would be to the interest of said regional college district and of the area proposed to be annexed, that such annexation be accomplished, said board of regents shall adopt a resolution so finding, and said petition and certified copy of said resolution shall be submitted to the commissioners court of said county, and it shall be the duty of said commissioners court, within 15 days after the presentation of such petition any copy of such resolution, to order an election to be held in said county at large, or in such school district, or districts, as the case may be, for the purpose of determining if the area of said county, or the area of such school district, or districts, shall be annexed to said regional college district, and assume its pro rata part of the bonded indebtedness of said regional college district; said election to be held not earlier than 60 days nor later than 90 days after passage of such order. The proposition to be voted on at said election and to be printed on the ballots therefor shall be:

(1) "FOR annexation to be the regional college district and assumption of pro rata part of its bonded indebtedness."

(2) "AGAINST annexation to be the regional college district and assumption of pro rata part of its bonded indebtedness."

The name of such district shall be inserted in the proposition.

(b) Said commissioners court shall designate the polling place of said election and appoint the officers thereof, and furnish the supplies therefor. Only qualified electors who own taxable property in said county or school district, as the case may be, and who have duly rendered the same for taxation, shall be qualified to vote at said election. Said election shall be conducted in accordance with the general election laws of Texas, insofar as applicable. Returns of said election shall be made to said commissioners court and canvassed by said court.

(c) If the majority of the votes cast at such election are in favor of said proposition, such fact shall be certified by the commissioners court to the board of regents of said regional college district, and the entire area of said county, or of said school district, or districts, as the case may be, shall be deemed to have been annexed to and shall be a part of said regional college district and shall be subject to taxation for the payment of the existing bonded indebtedness and the maintenance of said regional college district the same as other property in the area of said regional college district.

(d) In the event an entire county is so annexed, the commissioners court of such county shall forthwith appoint a regent or regents for said college from the county in accordance with the number of regents allowed as herein above provided. All such regents shall, before entering upon the duties of their offices, take the oath as herein prescribed for regents. Such appointment shall be certified by the clerk of the commissioners court to the board of regents of said college district. At the first meeting of the board of regents after the appointment and qualification of regents from such annexed county, the regents shall determine by lot

in the manner provided by the board of regents, their term of office. Thereafter, successors to the regents from said annexed county shall be elected in the manner provided for other counties in said district.

(e) In the event the area of one or more independent school districts of a county, instead of the entire county, is annexed to said regional college district, said annexed territory shall be entitled to the number of regents as they may qualify for in terms of scholastics and tax values. Immediately after such annexation the commissioners court of the county in which such area is situated shall appoint from said area, the number of regents to which such area is entitled. This regent or regents as the case may be, so appointed, shall hold office until the expiration of the term of office of the regents of said county of which they are a part. At the expiration of the term of each regent from such annexed territory his successor shall be elected at an election to be held in the annexed area, to be called by the board of regents, which shall designate the polling place or places, the officers of the election, provide the supplies therefor and pay the expenses thereof.

§ 51.092. Taxes

Section 4. Except for certain miscellaneous provisions relating to higher education in Titles 1 and 2, and the chapter on public junior colleges in Title 3, the enactment of the Texas Education Code does not affect the statutes of this state relating to higher education; and the laws relating to higher education which are not included in the code remain unaffected by its enactment. It is intended that these laws will be added to the code at a later session of the legislature.

Section 5. If any act passed at the same session of the legislature conflicts with any provision of the Texas Education Code, the act prevails.

Section 6. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are declared to be severable.

Section 7. This act does not affect rights and duties that matured, penalties that were incurred, or proceedings that were begun, before its effective date. It is further intended that the repeal of statutes by this act shall not repeal or affect any tax or authority or power heretofore granted by the legislature under which any tax has heretofore been authorized, or attempted to be authorized, by an election held under any act or acts of the legislature heretofore enacted whether general or special.

Section 8. This act takes effect on September 1, 1969.

Section 9. The importance of this legislation and the crowded condition of the calendar in both houses create an emergency and an imperative public necessity that the Constitutional Rule requiring bills to be read on three several days in each house be suspended, and the Rule is hereby suspended; and that this act take effect and be in force from and after September 1, 1969, and it is so enacted.

Passed by the House on May 5, 1969, by a non-record vote; House concurred in Senate amendments on June 2, 1969, by a non-record vote; passed by the Senate, as amended, on May 31, 1969, by a viva-voce vote.

Approved June 21, 1969.

Effective September 1, 1969.

§ 1.05. Certain Information or Formalities May be Omitted

Any information pertaining to an applicant, other than the applicant's name, may be omitted from the application, and any formality required by Subchapters A, B, and D of this chapter may be waived on the county judge's written order, issued for good cause shown, and submitted to the county clerk at the time the application is made.

§ 1.06. Execution of Application

[Sections 1.10–1.20 reserved for expansion]

SUBCHAPTER B. MEDICAL EXAMINATION**§ 1.21. Medical Examination Certificate Required**

Except as provided by Section 1.22 of this code, the county clerk shall not issue a marriage license unless each applicant submits at the time of the application a medical examination certificate as prescribed by this code.

§ 1.22. Exemption Order

On the joint application of both applicants for a marriage license, the judge of any county or district court of the county in which the license is to be issued may issue a written order exempting the applicants from the medical examination requirements of this chapter if he is satisfied by proof that sufficient grounds exist for the exemption and that the exemption will not adversely affect the public health and welfare. The hearing on the application shall be private, and all records relating to the application shall be held in absolute confidence and shall not be opened to public inspection.

§ 1.23. Form and Content of Certificate

The medical examination certificate shall be made on a two-part form prescribed and supplied by the State Department of Health. One part of the form shall be for the laboratory statement and the other part shall be for the physician's statement.

§ 1.24. Serologic Tests

The first step in obtaining a medical examination certificate is to have a standard serologic test made by a state, county, or city laboratory, or a private laboratory approved by the State Department of Health. The applicant may apply to the laboratory in person for the test or may have a blood specimen taken by the physician for transmittal to the laboratory.

§ 1.25. Tests to be Prescribed by Health Department

The State Department of Health shall prescribe standard serologic tests for determining the existence of infectious syphilis in applicants for marriage licenses.

§ 1.26. Duties of Laboratory

The laboratory shall:

- (1) conduct a standard serologic test prescribed by the State Department of Health;

(2) complete the laboratory statement and the detailed laboratory report on the prescribed forms and have them signed by the person in charge or a person authorized to enter the results of the test;

(3) transmit the laboratory statement and one copy of the detailed laboratory report to the designated physician; and

(4) transmit a copy of the detailed laboratory report to the State Department of Health.

§ 1.27. Content of Laboratory Statement

The laboratory statement shall specify the name and address of the person tested, the name and address of the physician to whom the report is sent, the name of the test, and the date of the test. This statement shall not include the result of the test.

§ 1.28. Detailed Laboratory Report

The detailed laboratory report shall include the result of the test. The copy submitted to the State Department of Health shall be held confidential and shall not be opened to public inspection. However, on the order of the court, the report is admissible as evidence in any judicial proceeding if it is relevant and material to any issue involved in the proceeding. The department may use these reports, without disclosing identities of persons, in compiling statistics for any purpose.

§ 1.29. Public Laboratories to Conduct Tests Free of Charge

All state, county, and city laboratories shall conduct the standard serologic tests and make the reports required by this chapter free of charge.

§ 1.30. List of Approved Private Laboratories

The State Department of Health shall furnish each county clerk a list of approved private laboratories. The department shall keep the list current with necessary additions and deletions.

§ 1.31. Examination; Issuance of Certificate

After receiving the laboratory report and examining the applicant, the physician may execute the physician's statement on the prescribed form and issue the completed medical examination certificate to the applicant. However, the physician shall not issue the certificate if he knows or has reason to believe that the applicant has any infectious condition of syphilis or other venereal disease.

§ 1.32. Content of Physician's Statement

The physician's statement must declare that on a specified date (which must be within the 21-day period immediately preceding the date the marriage license is applied for), the applicant was given a thorough examination for infectious venereal disease, including a standard serologic test, and that the results of the examination, test, and history showed that the applicant was free of any infectious condition of syphilis or other venereal disease.

§ 1.33. Physician

Except as provided by Section 1.34 of this code, the physician's statement must be executed by a physician licensed to practice medicine in this state.

§ 1.34. Nonresident Applicants

An applicant who resides in another state or territory may present a medical examination certificate executed by a physician who is licensed to practice medicine in that state or territory and by a laboratory approved by the official health agency of that state or territory, on the forms prescribed by the Texas State Department of Health under this chapter. If the standard serologic test was conducted by a private laboratory, the certificate must be accompanied by the affidavit of the director of the laboratory that the laboratory is certified by the state or territorial health agency.

§ 1.35. Reporting of Venereal Disease Cases

Nothing in this chapter affects any law, rule, or regulation relating to reporting of cases of venereal disease discovered by physicians in the course of their practice.

§ 1.36. Violation by County Clerk

A county clerk or deputy county clerk who violates or fails to comply with any provision of this subchapter is guilty of a misdemeanor and upon conviction is punishable by a fine of not less than \$200 nor more than \$500.

§ 1.37. Giving False Information

A person who knowingly gives false information in any medical examination certificate or detailed laboratory report is guilty of a misdemeanor and upon conviction is punishable by a fine of not less than \$200 nor more than \$500.

§ 1.52. Underage Applicant: Parental Consent

(a) If the male applicant is 16 years of age or older but under 19 years of age, or if the female applicant is 14 years of age or older but under 18 years of age, the county clerk shall issue the license if parental consent is given as prescribed by this section.

(b) Parental consent must be evidenced by a written declaration on a form supplied by the county clerk in which the person consents to the marriage and swears that he or she is a natural guardian of the person (when there is no judicially designated custodian or guardian of the person of the applicant), an actual custodian of the person (when there is no natural guardian of the person or judicially designated custodian or guardian of the person of the applicant), or a judicially designated cus-

todian or guardian of the person (whether an individual, authorized agency, or court) of the applicant.

(c) Except as otherwise provided by this section, consent must be acknowledged before the county clerk at the time the application is made for the marriage license.

(d) If the consenting parent or guardian resides in another state or territory of the United States, the consent may be acknowledged before an officer authorized to issue marriage licenses in that state or territory.

(e) If the consenting parent or guardian is unable to be present because of illness or incapacity, the consent may be acknowledged before any officer authorized to take acknowledgments; but it must be accompanied by a physician's affidavit stating that the parent or guardian is unable to be present because of illness or incapacity.

[Sections 1.53–1.80 reserved for expansion]

SUBCHAPTER D. CEREMONY AND RETURN OF LICENSE

(a) Unless both applicants were exempted by court order from the medical examination requirements of this chapter, the marriage license expires at the end of the 21-day period immediately following the date of the medical examinations (or the earlier of the two examinations if they were conducted on different days), if the marriage ceremony has not been conducted within that period. The person who is to conduct the marriage ceremony shall determine this information from the county clerk's endorsement on the license.

(b) A person who conducts a marriage ceremony after the license has expired is guilty of a misdemeanor and upon conviction is punishable by a fine of not less than \$200 nor more than \$500.

CHAPTER 2. VALIDITY OF MARRIAGE

SUBCHAPTER A. GENERAL PROVISIONS

Section 2.01. State Policy

In order to promote the public health and welfare and to provide the necessary records, this code prescribes detailed and specific rules to be followed in establishing the marriage relationship. However, in order to provide stability for those entering into the marriage relationship in good faith and to provide legitimacy and security for the children of the relationship, it is the policy of this state to preserve and uphold each marriage against claims of invalidity unless strong reasons exist for holding it void or voidable. Therefore, every marriage entered into in this state is considered valid unless it is expressly made void by this chapter or unless it is expressly made voidable by this chapter and is annulled as provided by this chapter. When two or more marriages of a person to different spouses are alleged, the most recent marriage is presumed to be valid as against each marriage that precedes it until one who asserts the validity of a prior marriage proves its validity.

§ 2.02. Fraud, Mistake, or Illegality in Obtaining License

Except as otherwise provided by this chapter, the validity of a marriage is not affected by any fraud, mistake, or illegality that occurred in obtaining the marriage license.

§ 2.03. Ceremony Conducted by Unauthorized Person

The validity of a marriage is not affected by any lack of authority of the person conducting the marriage ceremony if there was a reasonable appearance of authority by that person and at least one party to the marriage participated in the ceremony in good faith and that party treats the marriage as valid.

[Sections 2.04–2.20 reserved for expansion]

SUBCHAPTER B. VOID MARRIAGES**§ 2.21. Consanguinity**

- (a) A person may not marry:
- (1) an ancestor or descendant, by blood or adoption;
 - (2) a brother or sister, of the whole or half blood or by adoption;
- or
- (3) a parent's brother or sister, of the whole or half blood.
- (b) A marriage entered into in violation of this section is void.

§ 2.22. Marriage During Existence of Prior Marriage

A marriage is void if either party was previously married and the prior marriage is not dissolved. However, the marriage becomes valid when the prior marriage is dissolved if since that time the parties have lived together as husband and wife and represented themselves to others as being married.

§ 2.23. Certain Void Marriages Validated

Except for marriages that would have been void under Section 2.21 of this code, all marriages that were entered into before January 1, 1970, in violation of the prohibitions of Article 496, Penal Code of Texas, 1925, are validated from the beginning if the parties continued until January 1, 1970, to live together as husband and wife and to represent themselves to others as being married.

§ 2.24. Suit to Declare Marriage Void

- (a) Either party to a marriage made void by this subchapter may sue to have the marriage declared void, or the marriage may be declared void in any collateral proceeding.
- (b) A suit to have a marriage declared void may be maintained in this state only if the purported marriage was contracted in this state or if either party is domiciled in this state.
- (c) A suit to have a marriage declared void is a suit in rem, affecting the status of the parties to the purported marriage. Process shall be served as in a suit for divorce.

[Sections 2.25-2.40 reserved for expansion]

SUBCHAPTER C. VOIDABLE MARRIAGES**§ 2.41. Underage**

(a) The marriage of a male 16 years of age or older but under 19 years of age, or a female 14 years of age or older but under 18 years of age, without parental consent as provided by Section 1.52 of this code, is voidable and subject to annulment at the discretion of the court on the petition of a next friend for the benefit of the underage party, or on the petition of the parent or the guardian of the person of the underage party. However, a suit may not be brought under this subsection more than 90 days after the date of the marriage.

(b) In exercising its discretion under this section, the court shall consider all pertinent facts concerning the welfare and best interests of both parties to the marriage, including whether or not the woman is pregnant.

§ 2.42. Under Influence of Alcohol or Narcotics

On the suit of a party to a marriage, the marriage is voidable and subject to annulment if:

(1) at the time of the marriage the petitioner was under the influence of alcoholic beverages or narcotics and as a result did not have the capacity to consent to the marriage; and

(2) the petitioner has not voluntarily cohabited with the other party to the marriage since the effects of the alcoholic beverages or narcotics ended.

§ 2.43. Impotency

On the suit of a party to a marriage, the marriage is voidable and subject to annulment if:

(1) either party, for physical or mental reasons, was permanently impotent at the time of the marriage;

(2) the petitioner did not know of the impotency at the time of the marriage; and

(3) the petitioner has not voluntarily cohabited with the other party since learning of the impotency.

§ 2.44. Fraud, Duress, Force

On the suit of a party to a marriage, the marriage is voidable and subject to annulment if:

(1) the other party used fraud, duress, or force to induce the petitioner to enter into the marriage; and

(2) the petitioner has not voluntarily cohabited with the other party since learning of the fraud or since being released from the duress or force.

§ 2.45. Mental Incompetency

(a) On the suit of a party to a marriage, or on the suit of the party's guardian or next friend (if the court finds it to be in his best interest to be represented by a guardian or next friend), the marriage is voidable and subject to annulment if:

(1) at the time of the marriage, as a result of a mental disease or defect, the petitioner did not have the mental competency to consent to marriage or to understand the nature of the marriage ceremony; and

(2) since the marriage ceremony, the petitioner has not voluntarily cohabited with the other party during any period when the petitioner possessed the mental competency to recognize the marriage relationship.

(b) On the suit of a party to a marriage, the marriage is voidable and subject to annulment if:

(1) at the time of the marriage, as a result of a mental disease or defect, the other party did not have the mental competency to consent to marriage or to understand the nature of the marriage ceremony;

(2) at the time of the marriage, the petitioner neither knew nor reasonably should have known of the mental disease or defect; and

(3) since the petitioner discovered or reasonably should have discovered the mental disease or defect, the petitioner has not voluntarily cohabited with the other party.

§ 2.46. Concealed Divorce

(a) On the suit of a party to a marriage, the marriage is voidable and subject to annulment if:

(1) the other party was divorced from a third party within the six-month period preceding the day of the marriage ceremony, and the prohibition against marrying again within the six-month period was not waived under Section 3.66 of this code;

(2) at the time of the marriage ceremony, the petitioner did not know, and a reasonably prudent person would not have known, of the divorce; and

(3) since the petitioner discovered, or a reasonably prudent person would have discovered, the fact of the divorce, the petitioner has not voluntarily cohabited with the other party.

(b) A suit may not be brought under this section more than one year after the date of the marriage.

§ 2.47. Death of Party to Voidable Marriage

A marriage voidable under this subchapter is not subject to challenge in any proceeding instituted after the death of either party.

CHAPTER 3. DISSOLUTION OF MARRIAGE**SUBCHAPTER A. GROUNDS FOR DIVORCE; DEFENSES****Section 3.01. Insupportability**

On the petition of either party to a marriage, a divorce may be decreed without regard to fault if the marriage has become insupportable because of discord or conflict of personalities that destroys the legitimate ends of the marriage relationship and prevents any reasonable expectation of reconciliation.

§ 3.02. Cruelty

A divorce may be decreed in favor of one spouse if the other spouse is guilty of cruel treatment toward the complaining spouse of a nature that renders further living together insupportable.

§ 3.03. Adultery

A divorce may be decreed in favor of one spouse if the other spouse has committed adultery.

§ 3.04. Conviction of Felony

(a) A divorce may be decreed in favor of one spouse if since the marriage the other spouse:

(1) has been convicted of a felony;

(2) has been imprisoned for at least one year in the state penitentiary, a federal penitentiary, or the penitentiary of another state; and

(3) has not been pardoned.

(b) A divorce may not be decreed under this section against a spouse who was convicted on the testimony of the other spouse.

§ 3.05. Abandonment

A divorce may be decreed in favor of one spouse if the other spouse left the complaining spouse with the intention of abandonment and remained away for at least one year.

§ 3.06. Living Apart
